*God, Man, and the Planetary Age* Nicholas J. Yonker, 1978      *God, Man, and the Planetary Age* Nicholas J. Yonker, 1978-01-01      *God's Plan for Man and Planet Earth* Rev. Elton Yutzy, 2013-11 This book covers Pastor Yutzy's thoughts regarding some theological issues from eternity past to eternity future from the creation of the first heaven and earth Genesis 1:1 to the new heaven and new earth Revelation 21:22 He rejects evolution but does not agree with the young earth creationists In eschatology he is premillennial but does not accept the doctrine of imminence Today we do not know the day of his coming but he believes if we know what we are to look for we will know the time when it arrives Christ's coming will not be as a thief in the night to those who know what to look for regarding the rapture of the church The last part of the book covers his perspective on God's special purpose for the church Israel and the Gentiles He gives his views on abortion tattoos cremation the lake of fire Gehenna outer darkness heaven the New Jerusalem and other topics relevant for the church today      **Jesus in Contemporary Scholarship** Marcus Borg, 1994-08-01 An accessible guide through the growing maze of literature and research on Jesus Examines issues in contemporary Jesus research and looks at the potential of current research for helping rethink Jesus identity and the implications for the reader and the church      Ten Facts Unmasking Our Origin, Purpose and Destiny on This Planet Dele Babalola, 2018-01-31 When we buy a new piece of equipment we flick through the manual to understand its operations and learn more about the manufacturer In a similar manner humans are like a machine that has been fashioned by a master designer God We were thus created we have an origin and God has a purpose and a destiny for our existence In Ten Facts Regarding Why Man Is on This Planet author Dele Babalola shares a road map that can help Christian believers decipher the meaning and purpose of human existence Because science can only explain the world incompletely or in fits and starts it is important to turn to the eternal truths contained in the Bible God's inspired words to his human creation on the earth and the true manual for understanding why we are here With this foundation Dr Babalola outlines the fundamental knowledge we need to make our way through life sharing the ten most important facts about our humanity and salvation There is purpose and destiny in life There is God the Creator there is the Bible our manual for life and there is Jesus God in person who lived among us in this world to die for our sins and reconnect us to God the Father By studying these manuals for life and by learning more about our Creator we will surely discover our true purposes      **371 Days That Scarred Our Planet** Russ Miller, Jim Dobkins, 2010-11-17 This is probably the easiest to read and understood book available that describes what happened to Planet Earth during and after the 371 days that Noah and seven others remained secure inside the ark They left behind a one continent world and landed in a newly shattered world the one great land mass having been ripped apart into the continents we know today Stones and bones tell the story      **God's Intelligent Design for Planet Earth** Mike Morra, 2013-12 This book is about God the Creator of all from nothingness to beyond the Multiverse from cosmic darkness to spiritual light while surrounding all of His Creation with universal beauty Godless

scholars claim their discoveries as the engine of historic progress but in truth it has been the Divine revelation of ideas that have propelled the evolution of Mankind Often we are discovering that the greatest of human genius has been wrong in their attempts to explain the physical basics of existence Likewise their vision of the natural world and the course of cultural spiritual advancement have been flawed Albert Einstein s theories were wrong Even he admitted that his universal constant that attempted to describe the mechanics of Outer Space was a colossal miscalculation The philosophies of the most noteworthy of Greek intellectuals Aristotle Socrates and Plato widely taught today in academia as the pathway to truth have failed to anticipate the Mosaic Moral Order and God s personal relationship with each human soul Nobel Prize winner Linus Pauling proposed a triple helix for the DNA and he was proven wrong Along with the mathematical limitations posed by Isaac Newton and Rene Descartes Galileo s science atomic theory quantum physics string theory Darwin s biology Freud s account of the psyche and many other intellectual gaffes made throughout the Eras have been proven erroneous and or partial truths Has the acquisition of knowledge been a continuous rational phenomenon leading to truth Or will godless reasoning always be imperfect to grasp the Divine complexities of the cosmos Why can t rational mathematics explain the irrational numbers such as the Fibonacci series the Golden Proportion and the triangular ratios of sine cosine and hypotenuse Has God s wisdom been revealing to scholars the rudiments of His Creation throughout the Eras or have the godless arrogant intellectuals been discovering the created fundamentals of the cosmos as revealed through time by a Higher Power Has the issuing of the Nobel Prize been sacrosanct or simply the rewarding of scientific mistakes and limitations via political cultural correctness Only God and the message of Jesus have perfectly survived to inspire the ideational and spiritual Ages     *God's Breath in Man and in Humane Society* Thomas Lake Harris,1891     **Beyond Dialogue** John B. Cobb Jr.,1998-07-30 Christian Reflection about other religions has often misinterpreted the truth of the other Ways The Roman Catholic Church and the World Council of churches stress that Christians can gain an appreciative understanding of other traditions only through meaningful dialogue with believers of other faiths This book however emphasizes the need for Christians to go beyond dialogue to reach for a mutual transformation of Christianity and other religions By way of example the author explores with originality the Christian encounter with Mahayana Buddhism He offer an original view of how Christianity and Buddhism can appropriately transform one another when both partners are truly respected as equal Both contributing both benefiting John Cobb boldly challenges us to hear in an authentic way the truth which the other has to teach us and to be transformed by that truth     **God's Man Plan** Mike Taylor,2022-07-06 Today the chatter among evangelical teachers and preachers concerning the end of time seems almost deafening at times Books videos feature films magazine and newspaper articles you name it they all have something to say regarding the end times And please hear my heart I m not disagreeing with them at all I totally agree that we are today living in prophetic times However it seems to me that no one wants to address the question that appears to be on the minds of so many people That question When will these things come to pass Hey the disciples asked

Jesus the same question in Matthew 24 right Well that s precisely what this book attempts to do I want to answer that question as best as it can possibly be answered and while I won t be able to give you the exact day or the exact hour of the coming events if I m correct and I really think that I am in what I share within this book I m totally convinced that I can get you in the proverbial ballpark so to speak And I will do so biblically in other words by using only what the Bible gives us If you ll commit to reading this simple little book for many if not most people I can all but guarantee you that you will exit with a much better understanding of the chronology of God s Word You will read and perhaps for the first time ever be able to comprehend the Gospel or good news of Jesus Christ plus you ll come to appreciate just how little time may actually remain before the end time events that everyone is talking about begins to unfold across the face of the whole earth In other words you will be able to better understand God s man plan and thereby you will be better able to prepare for what lies ahead for all mankind

**American Lumberman** ,1918 *American Book Publishing Record* ,1985 **Oikos: God's Big Word for a Small Planet** Andrew Francis,2017-04-25 How you spend your time and money controls what happens on this planet Planet Earth and its people are in danger We face ongoing economic and ecological crises These will deepen unless all of God s people begin to act as one global community Natural resources are diminishing and the economic world order is changing We cannot go on living as though we can call up another planet Change is needed now and this book addresses that The biblical vision of the world as oikos meaning household is God s challenge to all people about the way we live now and in the future Oikos affirms the need for reconciliation and peace between faiths and nations and should determine our economic practices and how we care for the planet In this timely and challenging book is a renewed call to follow the Maker s instructions Whether it is 9 11 Chernobyl or the 2008 financial crash that call for change is repeating itself This book not only explains why we need to change but also provides practical advocacy of how you can help to achieve it *The Contender Vol. 1 No. 2* Rev. Raymond Jackson, IF THE OLD TESTAMENT DECLARES SATAN TO HAVE BEEN CREATED PERFECT IN THE DAY OF HIS CREATION AND REMAINED SO UNTIL INIQUITY WAS FOUND IN HIM WHAT WAS THAT INIQUITY HOW DID IT GET THERE WHAT RELATIONSHIP DID IT BEAR TO THE REFERENCE OF CHRIST I BEHELD SATAN FALL FROM HEAVEN HOW DOES IT BEAR REFERENCE WITH CHRIST ACCUSING SATAN OF BEING A LIAR AND MURDERER FROM THE BEGINNING READ THIS AMAZING STORY OF HOW INIQUITY WAS FOUND IN LUCIFER AND WHAT IT CAUSED *Current Book Review Citations* ,1983 **A God Who Cares?** Ernst Conradie,2025-02-26 This monograph may be read as a constructive supplement to Volume 4 of the series entitled An Earthed Faith Telling the Story amid the Anthropocene Volume 4 of this series is on the Christian doctrine of providence and is entitled Making Room for the Story to Continue In addition to an extended introduction on the state of the debate in the field this monograph includes three constructive essays on the doctrine of providence employing the traditional Reformed distinction between conservatio gubernatio and concursus as aspects of God s providence as well as a concluding essay provocatively entitled Who Cares a

Damn The argument of this contribution may be captured in the following way 1 That God s providence is best understood in terms of the deeply held Christian conviction that God cares for every creature and not in terms of Greek assumptions around a pervading rational world order 2 That conservatio and gubernatio have found rough secular equivalents in global debates on sustainability mitigation and adaptation in the context of climate change 3 That conservatio and gubernatio are typically in tension with each other when it comes to the question whether God maintains order in nature and society or whether God transforms unjust orders the call for ecojustice 4 That concursus is not only an implication of conservatio and gubernatio but also captures the heart of the problem posed by the advent of the Anthropocene namely that some humans have become a geological force of nature while God s agency has become sidelined or usurped by the Promethean quest to become divine In each of these essays a highly constructive contribution is offered that advances the debate in eco theology by placing providence in the context of the shift from the Holocene to the Anthropocene The method adopted is a constructive argument based on a critical review of the available literature This monograph is scholarly and is addressed to other scholars in the fields of eco theology systematic theology and Reformed theology

### **Religious Thought and Heresy in the Middle Ages**

Frederick William Bussell,1918 Charting the Supernatural Judgements of Planet Earth Jerimiah Asher,2010-08-10

Chapter 3 The First Judgment The World Prior To Adam There may have been many judgments upon the earth since its beginning millions or billions of years ago however the present commentary will deal only with the last tens of thousands of years of earth s existence In Genesis 1 2 the verses written by Moses as author of the Genesis account portray an earth that was veiled in darkness so that its form could not be discerned The earth at that time was covered with water ice high above the mountain tops so that it gave the appearance of being a dark revolving sphere of frozen water Table 2 God s spirit is described as hovering over this revolving ball of water and brooding over the sad condition of this dark void planet God did not create a dark and dismal planet at the beginning because God does not create darkness in fact darkness is incompatible with His existence and presence So what had happened that God viewed Gen 1 2 such a decrepit state of the world Does scripture attempt to explain this phenomenon or does the inspired word of God remain silent on this issue It was first proposed as a theory by the Scotsman Thomas Chalmers in the early 19th century that a gap in time existed between Genesis 1 1 and Genesis 1 2 This gap in time would encompass a ruin reconstruction theme and the existence of pre Adamic living beings Obviously a huge catastrophic event would have had to occur to produce this decadent state of the world The gap concept was later popularized by mention in the margin notes of the Scofield Reference Bible
