to construct a dogmatic aesthetics Jenson's whole theological program is directed by exploring the systematic potential of the core doctrines of the faith that finally opens out into a vast vision of the beauty of God and creatures God is a great fugue the rest is music Taking Jenson's cue the account of beauty presented in this book is propelled by a core conviction of Jenson's theology the sole analogue between God and creatures is not being or any other metaphysical concept but Jesus Christ

Shaking the Gates of Hell Sharon Delgado, 2020-01-07 Shaking the Gates of Hell Faith Led Resistance to Corporate Globalization breaks new ground by describing the global economy and its effects from the perspective of an integrated theology of the earth as primary revelation and the institutional powers of this world It reaches the conclusion that hope lies in nonviolent resistance and ecological and social responsibility based on God's action in Jesus and in the triumph of God over the powers This book describes today's interrelated social economic and ecological crises and makes the case that we face a living hell on earth if we do not address them It provides an overview of the global economic system and offers a comprehensive theological analysis of the network of primary institutions that make up what Walter Wink

calls the Domination System It points readers in the direction of hope based on following the way of Jesus who lived in nonviolent resistance to the powers of his day This new revised edition continues the powerful story of the original extending the analysis of the global economy from the 2008 collapse and recession to its alleged recovery It addresses the Obama administration s policies on economics trade and the environment and provides further reflections on American foreign and military policy in this so called New American Century *Lutheran Evangelist* ,1904
