Goddess Of Death:

Goddess of Death. [read by Patricia Jones]. Michael Underwood, 1998 The Concept of the Goddess Sandra Billington, Miranda Jane Aldhouse-Green, 1998 This volume is an up to date highly readable study of the female aspects of religion both in past and present mythologies It explores the function and nature of goddesses and their cults in many cultures The Living Goddesses Marija Gimbutas, 2001-01-12 Presents evidence to support the author's woman centered interpretation of prehistoric civilizations considering the prehistoric goddesses gods and religion and discussing the living goddesses deities which have continued to be venerated through the modern era **Mora, Goddess of Death** Emrie Vegas, 2017-03-02 Eight years ago the most powerful of the Old Gods Death Birth and Life were forced to flee from war hiding themselves in three singular souls on three separate planets throughout the far reaches of the universe making it impossible for them to perform the critical duties that keep the Universe and all that exists in it functioning properly As a result babies are being born without souls the souls of the dead remain tied and terrified to their corpses and reality is unstable shifting with the thoughts of the conscious and forcing the rigid minds of adults to snap On earth no one including 12 year old Mora knows why the fundamental core of Life is failing What Mora does know is that eight years ago right around the time that everything in the world started changing she gained the ability to Release the souls of the dead back into the Universe MORA is the story of Mora a twelve year old girl inhabited by the God of Death who is struggling to understand her role in the Universe With the help of her overprotective brother a crow inhabited by the spirit of a visiting god and a newfound friend Mora will set out on a journey to save a Universe on the edge of extinction But she must move quickly because dangerous groups both on Earth and throughout the Universe are looking for her and they are getting close This book is the first of a trilogy with each book focused around one of three sister gods Book one begins on Earth in a dystopian urban setting In these books there are magical elements in the form of powers and abilities talking animals some of which are traveling spirits inhabiting the bodies of animals mythical creatures distant worlds zombie like life forms dark spirits gods and goddesses and a journey to the center of the Universe From Girl to Goddess Valerie Estelle Frankel, 2014-01-10 Many are familiar with Joseph Campbell's theory of the hero's journey the idea that every man from Moses to Hercules grows to adulthood while battling his alter ego This book explores the universal heroine's journey as she quests through world myth Numerous stories from cultures as varied as Chile and Vietnam reveal heroines who battle for safety and identity thereby upsetting popular notions of the passive gentle heroine Only after she has defeated her dark side and reintegrated can the heroine become the bestower of wisdom the protecting queen and arch crone Instructors considering this book for use in a course may request an examination copy here **Singing of Birth and Death** Stuart H. Goddess as Nature Paul Reid-Bowen, 2016-04-15 Goddess as Nature makes a significant contribution to elucidating the meaning of a female and feminist deity at the beginning of the twenty first century Bridging the gap between the emergent religious discourse of theology discourse about the Goddess and a range of analytical concerns in the philosophy of religion the author argues that theology is not as incoherent as many of its critics claim By developing a close reading of the reality claims embedded within a range of theological texts one can discern an ecological and pantheistic concept of deity and reality that is metaphysically novel and in need of constructive philosophical theological and scholarly engagement Philosophical theology is in an age concerned with re conceiving nature in terms of agency chaos complexity ecological networks and organicism both an active possibility and a remarkably valuable academic feminist and religious endeavour
