Swann,2018-09-02 THE REALITY OF INNATE HUMAN WISDOM MAKING In this sensitive work Ingo Swann once more opens up the continuing story of the fuller extent of human consciousness which by many accounts is amazing and intriguing These accounts are found in all cultures ranging from ancient to contemporary and the sum of them more than suggests that humans plus their innate consciousness are designed for a much richer and astonishing existence than what most societal programs encourage or permit The nexus or connected group of the discussions in this book turns on only two interactive questions Is human consciousness designed for self destruction OR Is it designed to continuously sustain its own pro survival into futurity There are many categories within human consciousness that work to sustain pro survival But all of them can be affiliated with one central heading WISDOM without which our species could not have survived anything even itself **Gods Or Spacemen?** Walter Raymond Drake,1964 If the literature of antiquity could prove that Spacemen visited our Earth long ago would this wondrous revelation not transform the past inspire the present give hope to the future bring new meaning to man himself Our religions philosophies and culture were based on the belief that our world was the center of the universe and mankind the sole preoccupation of God Would proof the Earth was once ruled by beings from other planets not seem the fundamental discovery of our century front flap of jacket Light and Dark Trevor J. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world **The Lost Data on the Chariots of the Elohim** Martha Helene Jones, 2008-12-31 Hebrew data on the Elohim in the Bible the Zarathustrian Magi who followed the star as it moved across the sky Zarathustra in the Rig Veda murders including Joshu Jesus committed by the Levite animal sacrifice cult of scribes who transcribed the Old Testament lost continents and the Great flood the Shemsu Hor and the winged disk of the Egyptians the sons of the Elohim who took wives from the daughters of the Adam mention of the little people in the bible and the Rh negative bloodline lacking in the earthling primate rhesus gene and much more research **Mysteries in the Eye of the Beholder** Thomas Eddie Bullard, 1982 **A New Chronology for Old Testament Times** Jan Van Tuyl, 2012 This book brings solutions to a very great list of hitherto unsolved chronological and synchronisation problems The reason why those solutions could be found lies in the extensive research the author made in old and often rare texts instead of limiting himself to the near exclusive source of the Bible Ample use has been made of information that is available in works like the Books of Enoch The Apocrypha The Legends of the Jews The Seder Olam the Book of Jasher and many more as well as in the texts from known historians like Herodotus and the famous Jewish historian and priest Flavius Josephus Just a few of the many special findings are The real reason why Joseph was so popular with the Pharaoh Sarah was not Abraham's half sister Moses was uncircumcised and even

The Celestial Key to the Vedas B. G. Sidharth,1999-10-01 A leading astronomer proves that India had a thriving civilization capable of sophisticated astronomy long before Greece Egypt or any other world culture Provides conclusive evidence that the Rig Veda is 12 000 years old Establishes actual dates and places for many of the events in the Hindu epics For more than a century scholars have debated the antiquity of the Vedas and their related literature the Brahmanas and Puranas Relying upon a host of assumptions from linguistic theory anthropology and archaeology they have agreed upon 1500 b c as the earliest possible date for the Rig Veda itself the oldest extant example of Indo European literature But in this groundbreaking book astronomer B G Sidharth proves conclusively that the earliest portions of the Rig Veda can be dated as far back as 10 000 b c By deciphering the astronomical events and alignments contained in mythical and symbolic form in these ancient texts Sidharth calls into question many if not all of the assumptions governing Indo European prehistory He explores such subjects as the astronomical significance of many Hindu deities and myths the system of lunar asterisms used to mark time the identity of the Asvins and the sophisticated calendar of the ancients that harmonized solar and lunar cycles Sidharth provides incontrovertible evidence that such advanced astronomical concepts as precession heliocentrism and the eclipse cycle are encoded in these ancient texts passages of which make perfect sense only if these astronomical keys are known Based on internal evidence in the Mahabharata and Ramayana he also becomes the first to establish likely dates and even places for the events described in these famous epics The Celestial Key to the Vedas is sure to astonish anyone concerned with astronomy India or the roots of civilization **Starstruck** Albert A.
