Antifundamentalism in Modern America David Harrington Watt, 2017-05-09 David Harrington Watt's Antifundamentalism in Modern America gives us a pathbreaking account of the role that the fear of fundamentalism has played and continues to play in American culture Fundamentalism has never been a neutral category of analysis and Watt scrutinizes the various political purposes that the concept has been made to serve In 1920 the conservative Baptist writer Curtis Lee Laws coined the word fundamentalists Watt examines the antifundamentalist polemics of Harry Emerson Fosdick Talcott Parsons Stanley Kramer and Richard Hofstadter which convinced many Americans that religious fundamentalists were almost by definition backward intolerant and anti intellectual and that

fundamentalism was a dangerous form of religion that had no legitimate place in the modern world For almost fifty years the concept of fundamentalism was linked almost exclusively to Protestant Christians The overthrow of the Shah of Iran and the establishment of an Islamic republic led to a more elastic understanding of the nature of fundamentalism In the late 1970s and early 1980s Americans became accustomed to using fundamentalism as a way of talking about Muslims Jews Hindus Sikhs and Buddhists as well as Christians Many Americans came to see Protestant fundamentalism as an expression of a larger phenomenon that was wreaking havoc all over the world Antifundamentalism in Modern America is the first book to provide an overview of the way that the fear of fundamentalism has shaped U S culture and it will lead readers to rethink their understanding of what fundamentalism is and what it does Religious Higher Education in the United States Thomas Hunt,James Carper,2018-10-11 Originally published in 1996 Religious Higher Education in the United States looks at the issue of higher education and a lack of a clearly articulated purpose an issue particularly challenging to religiously affiliated institutions This volume attempts to address the problems currently facing denomination affiliated institutions of higher education beginning with an introduction to government aid and the regulation of religious colleges and universities in the US The greater part of the volume consists of 24 chapters each of which begins with a historical essay followed by annotated bibliographical entries covering primary and secondary sources dating back to 1986 on various denomination connected institutions **The Making of a Battle Royal** Jeffrey Paul Straub,2018-04-17 American Baptists emerged from the Civil War as a divided group Slavery landmarkism and other issues sundered Baptists into regional clusters who held more or less to the same larger doctrinal sentiments As the century progressed influences from Europe further altered the landscape A new way to view the Bible more human less divine began to shape Baptist thought Moreover Darwinian evolutionism altered the way religion was studied Religion like humanity itself was progressing Conservative Baptists proto fundamentalists objected to these alterations Baptist bodies had a new enemy theological liberalism The schools were at the center of the story in the earliest days as professors many of whom studied abroad returned to the United States with progressive ideas that were passed on to their students Soon these ideas were being presented at denominational gatherings or published in denomination papers and books Baptists agitated over the new views with some professors losing their jobs when they strayed too far from historic Baptists commitments By 1920 the Northern Baptists in particular broke out into an all out war over theology that came to be called The Fundamentalist Modernist controversy This is the fifty year history behind that controversy
