GODS FROM OUTER SPACE ERICH VON DANIKEN,1970      *Gods from Outer Space* Erich von Däniken,1970      **Gods from Outer Space** Erich von Diken,1970      Archaeological Fantasies Garrett G. Fagan,2006 Including case studies this collection of engaging and stimulating essays written by a diverse group of scholars scientists and writers examines the phenomenon of pseudoarchaeology from a variety of perspectives      *Last Days Madness: Obsession of the Modern Church* Gary DeMar,1999-08 Last Days Madness explains the most difficult prophetic passages clearly and concisely Gary DeMar sheds the light on Daniel 7 1314 9 24 27 Matthew 16 27 28 2 Thessalonians 2 2 Peter 3 3 13 and dozens more He identifies the Beast the Antichrist and the Man of Lawlessness and clears the haze regarding Armageddon the rebuilding of the temple the meaning of 666 and much more This ground breaking book is guaranteed to make you think and is your survival guide and spiritual compass to insure you escape the paralysis of last days madness      Lost City, Found Pyramid Jeb J. Card,David S. Anderson,2016-09-15 *Lost City Found Pyramid Understanding Alternative Archaeologies and Pseudoscientific Practices* explores the phenomenon of pseudoarchaeology in popular culture and the ways that professional archaeologists can respond to sensationalized depictions of archaeology and archaeologists      **The Untold Story of Native Iraqis** Amer Hanna-Fatuhi,2012-04-16 *The Untold Story of Native Iraqis Chaldean Mesopotamians 5300 BC Present* by Amer Hanna Fatuhi A groundbreaking work that further explores the true identity of the indigenous people of Iraq Chaldean Mesopotamians is presented in the compelling book titled *The Untold Story of Native Iraqis* written by author Amer Hanna Fatuhi Hanna Fatuhi worked for two years and spent over a quarter of a century researching the history of the region This book perfectly illuminates the antiquity of Babylon and the indigenous people of the region next to other well known and obscure ethnic groups It allows for a more profound awareness of the Iraqi people s individuality as well as the country s social and political dynamics      **From the First Rising Sun** Charla Jean Morris,2011-08-10 While in medical school which I did not have the privilege of completing once a week we had a small group discussion class called Focus On Problems Each group had a leader a member of the medical school staff or someone closely associated with the school usually an MD or Ph D Our group leader was Dean of the Medical School H David Wilson MD One class period focused on working with patients of different ethnic backgrounds Dr Wilson asked me what were some of the traditions of my tribe in regard to medicine that would be helpful for a doctor to know My reply was that I had been raised like a white that I had grown up learning about various herbal and natural remedies but that I knew nothing about the specific medical traditions ceremonial or secular of my people I had always longed to know of the traditions of my people before that but circumstances of my family history had not allowed it That question in the Focus On Problems class caused that longing to intensify into a sharp pang of longing that would not be satisfied until many years later While in the first two years of medical school as a nontraditional student I was in an environment that encouraged the development of the knowledge of Native American traditions We had Native American

speakers that came and elaborated on Native American traditions One area that was lacking was tribal histories but what academics label prehistory I commented to her that when white man came they did all they could to destroy our social and religious fabric so the old traditions were not passed down to most of the remaining members of the tribes Now we know nothing of our old history There is nothing left The white side of my family history is easy to know but not my Cherokee and Choctaw side She replied by saying that yes many of our peoples have lost their old traditions and it is sad

**Invented Knowledge** Ronald H. Fritze,2009-05-15 This incredible exploration of the murky world of pseudo history reveals the mix of proven facts informed speculation and pure fiction behind lost continents ancient super civilizations and conspiratorial cover ups as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter day Saints Drawing on the best scholarship available Ronald H Fritze shows that in spite of strong mainstream historical evidence to the contrary many of these ideas have proved durable and gained widespread acceptance As the examples in Invented Knowledge reveal pseudo historians capitalize on and exploit anomalies in evidence to support their claims rather than examining the preponderance of research as a whole

**The Georgia Catalog, Historic American Buildings Survey** John Linley,1982 From the elegant townhouses of Savannah to the towering hotel and office complexes of Atlanta the state of Georgia has a distinguished architectural tradition No other work documents this rich heritage as comprehensively as The Georgia Catalog Prepared under the auspices of the Historic American Buildings Survey this carefully researched and beautifully illustrated volume will be an invaluable resource for architects preservationists historians and those who own the historic houses or who simply are interested in Georgia s architectural legacy The book is in two parts The first is a history of and guide to the architecture of the state John Linley begins his survey with the remains of prehistoric civilization and the architecture of the first European settlers He traces the development of a native architecture in the state the flowering of the Greek Revival style the functional architecture of commerce and industry and the energy and imagination of urban architecture in the late twentieth century The text reflects the author s interest in the rationale and logic that produced the architecture and in the lessons that the past has for the present and the future He also emphasizes the influence of climate ecology landscape and city planning on both historic and contemporary architecture The second section of The Georgia Catalog is a complete updated listing of nearly four hundred sites in the Historic American Buildings Survey Each entry gives the precise location of the site a brief description of the structure the date of construction and the name of the architect if known changes in name structure or location of the building its present condition any facts of historical significance and the number and dates of drawings photographs and data sheets in the HABS collection at the Library of Congress To add to its value as a guide the volume also includes a glossary of architectural terms and a list of Georgia properties that are included in the National Register of Historic Places have been designated National Landmarks or are part of the Historic American Engineering Record

**Cyberhenge** Douglas E. Cowan,2005 Cyberhenge examines the

use of Internet technology in shaping religious traditions and rituals Cowan asks how and why Neopaganism has embraced the Internet in such an innovative and imaginative way *Religious Delusions, American Style* Blair Alan

Gadsby,2020-02-21 Americans would be shocked to understand just how their religious beliefs have been used against them in the political elites efforts to engineer society and public policy In this historical overview of key moments in American religious history Gadsby demonstrates that what we are commonly taught in our education systems mass media and the political world about religions role in any number of events is anything but In the spirit of Lies My Teacher Told Me *Religious Delusions American Style* discusses eight areas in American history ranging from turn of the nineteenth century eugenics and the Scopes Monkey Trial to the mind control program known as Jonestown to the implausible two planes three buildings straight down operation called 9 11 we have been deceived in a big way about what has been done in the name of religion

**Gods from Outer Space Return to the Stars, Or Evidence for the Impossible** ,2003 Many people have scoffed at the idea of beings from another universe visiting earth But in 1970 we witnessed the drama of a crippled American spacecraft being brought back to earth Suppose it had landed on another planet What would our astronauts teach the inhabitants What remnants of their efforts to return to earth would be left behind How would that planet s inhabitants remember our men in myth and art The answers we could give fit exactly the vast number of unexplained mysteries that have been found around the world

**Spooky Archaeology** Jeb J. Card,2018-06-15 Outside of scientific journals archaeologists are depicted as searching for lost cities and mystical artifacts in news reports television video games and movies like Indiana Jones or The Mummy This fantastical image has little to do with day to day science yet it is deeply connected to why people are fascinated by the ancient past By exploring the development of archaeology this book helps us understand what archaeology is and why it matters In *Spooky Archaeology* author Jeb J Card follows a trail of clues left by adventurers and professional archaeologists that guides the reader through haunted museums mysterious hieroglyphic inscriptions fragments of a lost continent that never existed and deep into an investigation of magic and murder Card unveils how and why archaeology continues to mystify and why there is an ongoing fascination with exotic artifacts and eerie practices

**Folklore Recycled** Frank de Caro,2013-05-30 *Folklore Recycled Old Traditions in New Contexts* starts from the proposition that folklore usually thought of in its historical social context as oral tradition is easily appropriated and recycled into other contexts That is writers may use folklore in their fiction or poetry taking plots as an example from a folktale Visual artists may concentrate on depicting folk figures or events like a ritual or a ceremony Tourism officials may promote a place through advertising its traditional ways Folklore may play a role in intellectual conceptualizations as when nationalists use folklore to promote symbolic unity *Folklore Recycled* discusses the larger issue of folklore being recycled into nonfolk contexts and proceeds to look at a number of instances of repurposing Colson Whitehead s novel *John Henry Days* is a literary text that recycles folklore but does so in a manner that examines a number of other uses of the American folk figure

John Henry The nineteenth century members of the Louisiana branch of the American Folklore Society and the author Lyle Saxon in the twentieth century used African American folklore to establish personal connections to the world of the southern plantation and buttress their own social status The writer Lafcadio Hearn wrote about folklore to strengthen his insider credentials wherever he lived Photographers in Louisiana leaned on folklife to solidify local identity and to promote government programs and industry Promoters of unorthodox theories about history have used folklore as historical document Americans in Mexico took an interest in folklore for acculturation for tourism promotion for interior decoration and for political ends All of the examples throughout the book demonstrate the durability and continued relevance of folklore in every context it appears
