*The Messiah's Inventions* Gordon Ziegler, 2013-11-27 Noah s ark was an invention of God elohiym the plural three form of one God God the Father God the Son and God the Holy Spirit God the Son later became the incarnate Jesus of Nazareth the Messiah the Anointed One the very Christ The original Son of God was undoubtedly the divine agent that communed with Noah inspiring him with the great invention of God to preserve life through the perils of a world wide Deluge Noah was the master builder and preacher of righteousness God could have translated the people and animals to heaven or some other world before that horrific water holocaust of the entire earth and relocated them back to earth when the Flood was over But God chose not to do this God chose a cooperative effort of God and man at great cost to preserve life on earth during that fearful water holocaust But the ark as well designed and built as it was was in itself not sufficient to preserve life It required the mighty power of God and the heavenly angels to guide and preserve the ark and its inhabitants during that fearful ordeal For this they last day scoffers evolutionists willingly are ignorant of that by the word of God the heavens were of old and the earth standing out of the water and in the water Whereby the world that then was being overflowed with water perished But the heavens and the earth which are now by the same word are kept in store reserved unto fire against the day of judgment and perdition of ungodly men 2 Peter 3 5 7 and context KJV In the imminent future we face the fearful peril of one third of the population of the earth being incinerated in a nuclear holocaust Revelation 9 14 21 also the peril of the corona of the sun going out in darkness like what happened briefly July 19 23 2013 Google dark sun and the earth s population freezing to death or the sun continuing its nova sequence scorching the earth with great heat and then going out in darkness What we desperately need now are new inventions of God the cooperation of God men and angels to preserve life in fire make the sun unnecessary flood the entire earth with light and clean energy Revelation 21 23 God has already inspired one man said of Lucifer himself to be the Everlasting Father incarnate the Messiah the Anointed One the very Christ with designs of God of inventions to preserve and restore earth to Edenic condition in this doom of fire The inventions are already roughly designed and the master builder found and educated

All that is needed now are believing people donating money for these costly heavenly inventions God will not do this all by Himself He will work with us as we give our all be it little or much This book will tell all about the inventions of God for now to preserve life through fire and to make the sun unnecessary What is most needed now is belief in God's Messiahs So in this book there will not only be science and technology but theology history and prophetic evidences in favor of Messiah A and Messiah B Jesus of Nazareth and Gordon L Ziegler of Lacey Washington U S A Any and all may now make tax deductible donations to Benevolent Enterprises to actualize the divine inventions to preserve life from a holocaust of fire restore the earth and its people and make the sun unnecessary with heavenly light and heat **God's Great Invention** L.R.

Joiner,1995-10-31 **The Greatest Inventions of the Past 2,000 Years** John Brockman,2000 The responses of some of the world's leading scientists and creative thinkers vary from the computer to the eraser from movable type to classical music from the lens to counting systems from the concepts of free will to democracy *The Greatest Invention* Silvia Ferrara,2022-03-01 In this exhilarating celebration of human ingenuity and perseverance published all around the world a trailblazing Italian scholar sifts through our cultural and social behavior in search of the origins of our greatest invention writing The L where a tabletop meets the legs the T between double doors the D of an armchair's oval backrest all around us is an alphabet in things But how did these shapes make it onto the page never mind form complex structures such as this sentence In *The Greatest Invention* Silvia Ferrara takes a profound look at how and how many times human beings have managed to produce the miracle of written language traveling back and forth in time and all across the globe to Mesopotamia Crete China Egypt Central America Easter Island and beyond With Ferrara as our guide we examine the enigmas of undeciphered scripts including famous cases like the Phaistos Disk and the Voynich Manuscript we touch the knotted colored strings of the Inca quipu we study the turtle shells and ox scapulae that bear the earliest Chinese inscriptions we watch in awe as Sequoyah single handedly invents a script for the Cherokee language and we venture to the cutting edge of decipherment in which high powered laser scanners bring tears to an engineer's eye A code cracking tour around the globe *The Greatest Invention* chronicles a previously uncharted journey one filled with past flashes of brilliance present day scientific research and a faint fleeting glimpse of writing's future **Aunt Epp's Guide for Life** Elspeth Marr,2010-04-27 Engaging frank and utterly delightful the irresistible compilation of one forthright Victorian lady's opinions and sage advice on every conceivable subject Adultery bunions evolution and garlic these are just a few of the topics that Christopher Rush's great great aunt Elspeth Marr expounded upon in a series of lifelong musings that were shockingly frank and progressive for her time Born in 1871 Elspeth Marr was married but childless perhaps by choice and lived in the Kingdom of Fife Scotland Throughout her lifetime she wrote copious letters and notes to an unnamed young girl about the nuts and bolts of life as well as her views on more worldly matters Never meant for publication these notes languished in obscurity until Christopher Rush's mother discovered them in a small brown suitcase long after his great great aunt Epp passed away Sassy and opinionated

Aunt Epp was not afraid to voice her views and give her advice on topics ranging from adultery to wrinkles God to genitals In a time when mentioning such things would have been deemed unladylike and improper Aunt Epp left nothing unsaid Full of wit and erudition not to mention homespun herbal remedies and witty verse now Aunt Epp s timeless wisdom can be shared and enjoyed by everyone Aches and Pains Make a marinade out of half a dozen big heads of garlic and a pint of brandy and keep it to hand Drink a teaspoon of this as soon as you wake and immediately after your quick cold bath This is a good way to oil yourself into the day and is a great remedy for ancient or aching bones Once you have gone the way of all the earth your brandied and be garlicked bones will do the earth a power of good and you will be at peace together Diaries Maintain a diary all your days A diary is a doorway to a second life running parallel to the one you live and produces even a third life for by recording the day s events you preserve the days like berries Golfers Never marry one The golfer is extinct from his waist downwards and from his neck upwards the main portion of him being concerned with placing his shot in the hole as fast as possible Precision not passion characterises the golfer A most uninteresting specimen with a colossal lack of soul Respect This is what you owe to the living to the dead you owe only truth

**God's Great Invention** Linda R. Joiner,1995-06 God made comets and colors and kangaroos But his greatest invention is people people like you The Bible shows how God made you different from anyone else with gifts and talents to make your own special mark on His world The Greatest Inventions Ever Jaideep Gupte,2025-07-30 Everyday billions of people wake up on planet Earth pick up their toothbrush use a kettle run through their smartphone sit in a train bus car and head for work college school They may use a desktop laptop tablet and return home at the end of the day Some may watch some television others just

grab dinner and crash out only to repeat this cycle over and over day after day The routine gets so mechanical that only a tiny fraction ever wonder how the things they used during the day were conceived in the first place Very few of these billions realize that all the little conveniences they took for granted during the day are a result of eons of deep cognitive processes and scores of trial and error methods The masterminds behind these stunningly creative works have long remained as some far flung and unsung heroes but it is they who have made our lives as smooth as butter and as soft as velvet This book dives into the origin of all these little conveniences called Inventions the stories and minds behind them Starting with the Stone Age and spanning numerous civilizations and countries the book looks into all the defining things that have been invented so far how they work and what could be invented in the future It also takes a peek into how Inventions have shaped the relationship between countries and civilizations how they rose and fell across various civilizations and why some countries have been consistently better at inventing than other countries The book aims to ignite the spark of curiosity among the readers at the same time helping the reader appreciate the ingenuity of these unsung heroes who lie forgotten on some dusty and nondescript shelves across various libraries Without them we would still be cavemen today living out our lives like hunter gatherers
