

GOD'S RULE GOVERNMENT AND ISLAM

SIX CENTURIES OF MEDIEVAL ISLAMIC POLITICAL THOUGHT

PATRICIA CRONE

Gods Rule Government Islam

Federico Lorenzo Ramaioli

Gods Rule Government Islam:

God's Rule Patricia Crone, 2004 Patricia Crone's *God's Rule* is a fundamental reconstruction and analysis of Islamic political thought focusing on its intellectual development during the six centuries from the rise of Islam to the Mongol invasions. Based on a wide variety of primary sources including some not previously considered from the point of view of political thought, this is the first book to examine the medieval Muslim answers to questions crucial to any Western understanding of Middle Eastern politics today such as why states are necessary, what functions they are meant to fulfill, and whether or why they must be based on religious law. The character of Muslim political thought differs fundamentally from its counterpart in the West. The Christian West started with the conviction that truth, both cognitive and moral, and political power belonged to separate spheres. Ultimately, both power and truth originated with God, but they had distinct historical trajectories and regulated different aspects of life. The Muslims started with the opposite conviction: truth and power appeared at the same time in history and regulated the same aspects of life. In medieval Europe, the disagreement over the relationship between religious authority and political power took the form of a protracted controversy regarding the roles of church and state. In the medieval Middle East, religious authority and political power were embedded in a single, divinely sanctioned Islamic community; a congregation and state made one. The disagreement therefore took the form of a protracted controversy over the nature and function of the leadership of Islam itself. Crone makes Islamic political thought accessible by relating it to the contexts in which it was formulated, analyzing it in terms familiar to today's reader, and where possible, comparing it with medieval European and modern political thought. By examining the ideological point of departure for medieval Islamic political thought, Crone provides an invaluable foundation for a better understanding of contemporary Middle Eastern politics and current world events.

God's Rule Suzanne Neusner, 2003-05-06 Resisting the tendency to separate the study of religion and politics, editor Jacob Neusner pulls together a collection of ten essays in which various authors explain and explore the relationship between the world's major religions and political power. As William Scott Green writes in the introduction, "Because religion is so comprehensive, it is fundamentally about power; it therefore cannot avoid politics." Beginning with the classical sources and texts of Judaism, Christianity, Buddhism, Islam, Confucianism, and Hinduism, *God's Rule* begins to explore the complex nature of how each religion shapes political power and how religion shapes itself in relation to that power. The corresponding attention to differing theories of politics and views towards non-believers are important not only to studies in comparative religion but to foreign policy, history, and governance as well. From early Christianity's relationship to the Roman Empire to Hinduism's relationship to Gandhi and the caste system, *God's Rule* provides a basis of understanding from which undergraduates, seminarians, and others can begin asking questions of relationships both unavoidable and systematically uneasy.

No god but God: The Origins and Evolution of Islam Reza Aslan, 2012-08-14 Engaging, accessible, and thought-provoking. *No god but God* is a persuasive, elegantly written, and

accessible introduction for young readers to a faith that for much of the West remains shrouded in ignorance and fear Adapted for young readers from No god but God The Origins Evolution and Future of Islam this exploration of Islam by Reza Aslan internationally acclaimed scholar of comparative religion delves into the rituals and traditions of a religion that is largely misunderstood by the West It covers the religion s origins the revelation of Muhammad as Prophet and the subsequent uprising against him and the emergence of his successors as well as Islam s complex history No god but God is sure to stimulate discussion and encourage understanding of the Islamic faith and the people who follow it Praise for No god But God The Origins Evolution and Future of Islam of Islam This welcome addition to Islamic studies provides a valuable context for reflection about the origins of issues facing Muslims and their neighbors today Publishers Weekly An introduction to Islam as evocative as it is provocative Kirkus Reviews Wise and passionate book New York Times Financial Times Best Book of the Year

The Concert of Civilizations Jeremy Kleidosty,2016-03-09 Are Western and Islamic political and constitutional ideas truly predestined for civilizational clash In order to understand this controversy The Concert of Civilizations begins by deriving and redefining a definition of constitutionalism that is suitable for comparative cross cultural analysis The rule of law reflection of national character and the clear delineation and limitation of governmental power are used as lenses through which thinkers like Cicero Montesquieu and the authors of The Federalist Papers can be read alongside al Farabi ibn Khaldun and the Ottoman Tanzimat decrees Bridging the civilizational divide is a chapter comparing the Magna Carta with Muhammad sConstitution of Medina as both documents can be seen as foundational within their traditions For the first time in political theory this text also provides a sustained detailed analysis of Khayr al Din al Tunisi s book The Surest Path which explains his fusion of Muslim and Western ideas in his writing of Tunisia s first modern constitution which is also the first constitution for a majority Muslim state Finally the book discusses the Arab Spring through a brief overview of the revolutions in Egypt Libya and Tunisia and offers some early thoughts about Tunisia s uniquely successful revolution

Political Culture in the Latin West, Byzantium and the Islamic World, c.700-c.1500 Catherine Holmes,Jonathan Shepard,Jo van Steenbergen,Björn Weiler,2021-08-26 This comparative study explores three key cultural and political spheres the Latin west Byzantium and the Islamic world from Central Asia to the Atlantic roughly from the emergence of Islam to the fall of Constantinople These spheres drew on a shared pool of late antique Mediterranean culture philosophy and science and they had monotheism and historical antecedents in common Yet where exactly political and spiritual power lay and how it was exercised differed This book focuses on power dynamics and resource allocation among ruling elites the legitimisation of power and property with the aid of religion and on rulers interactions with local elites and societies Offering the reader route maps towards navigating each sphere and grasping the fundamentals of its political culture this set of parallel studies offers a timely and much needed framework for comparing the societies surrounding the medieval Mediterranean

Islamic State as a Legal Order Federico Lorenzo Ramaioli,2022-04-04

This book explores the legal dimension of the Islamic State an aspect which has hitherto been neglected in the literature ISIS dystopian experience intended as a short lived territorial and political governance has been analyzed from multiple points of view including the geopolitical social and religious ones However its legal dimension has never been properly dealt with in a comprehensive way assuming as a point of reference both the Islamic and the Western legal tradition This book analyzes ISIS as the expression of a potential though never fully realized legal order The book does not describe ISIS possible classifications according to the standards and the criteria of international law such as its possible statehood or proto statehood issues that are however touched upon Rather it analyzes ISIS own legal awareness based on the group s literary materials which show a considerable amount of juridical work Such material mainly propagandistic in its nature is essential in understanding which kind of legal order ISIS aimed at establishing The book will be of interest to students and academics in the fields of Law International Relations Political Sciences Terrorism Studies Religion and Middle Eastern Studies

The Islamic Moses Mustafa Akyol,2024-09-10 A theological and historical exploration of the connection between Islam and Judaism through the single most mentioned character in the Quran Moses There is one human mentioned in the Quran more than any other Moses Why is it that the Jewish prophet dominates the Islamic scripture Because he is the role model for Muhammad Islam s own prophet Because Islam just like Christianity is deeply intertwined with Judaism although surprisingly little attention has been given to this fascinating connection between the two religions Author and journalist Mustafa Akyol takes readers on a theological and historical walk through that much neglected side of the Abrahamic triangle the Judeo Islamic tradition Using Moses presence in the Quran as a jumping off point Akyol explores the first historical encounter between Muslims and Jews the creative symbiosis and mutual enrichment that occurred between the two belief systems in medieval times and the modern emergence development and perception of the two religions At a time of bitter conflict in the Middle East The Islamic Moses dives into the older deeper and often unexpectedly brighter story of Jews and Muslims Readers of any background will be surprised by the common historical and theological ground that exists between the two religions and will come away with a better understanding of both

The Muslim Brotherhood in Jordan Joas Wagemakers,2020-09-17 Since its founding in 1945 the Jordanian Muslim Brotherhood has enjoyed decades of almost continuous parliamentary presence and state acceptance in Jordan participating in elections organising events and even establishing a hospital In this detailed account of the Muslim Brotherhood s ideological and behavioural development in Jordan Joas Wagemakers focusses on the group s long history and complex relationship with the state its parliament and society It shows how age old concepts derived from classical Islam and the writings of global Islamist scholars have been used and reused by modern day Jordanian Islamists to shape their beliefs in the context of the present day nation state Far from its reputation as a two faced global conspiracy bent on conquering the West the Muslim Brotherhood is a deeply divided group that has nevertheless maintained a fascinating internal ideological consistency in its use of similar religious concepts

As such it is part of and continues to build on trends in Muslim thought that go back hundreds of years Practices of Islamic Preaching Ayşe Almıla Akca, Mona Feise-Nasr, Leonie Stenske, Aydın Süer, 2023-12-18 Preaching a practice composed of and accompanied by a myriad of different activities is an essential element of Muslim religious life both within and beyond mosques As such Islamic preaching is a common means of religious promulgation and knowledge transfer of pastoral guidance and uplift but also of communication between believers and as a source of negotiating religious normativity power relations and societal topics Given the centrality of preaching in Muslims religious life this collective volume presents contributions on various aspects of performance text space and materiality of Islamic preaching in history and present The interdisciplinary and transdisciplinary framework captures Islamic preaching as it unfolds in its social setting The volume aims at representing the inner Islamic diversity by depicting the practice of preaching as it came about in different times and geographical locations shedding light onto Friday gatherings and sermons *utba* and other forms of preaching e.g. *wa be it* during Ramadan at religious feasts and commemorations or on personal occasions such as weddings and funerals Therefore each chapter offers a different insight into the interwoven character of sermons contents the preacher him herself and the audience by emphasising the role of their bodily performance of the temporality and spatiality of preaching and of the objects and items involved **Dynasties** Jeroen Duindam, 2016 A vibrant and broad ranging study of dynastic power in the late medieval and early modern world Shari'a (Islamic Law): Oxford Bibliographies Online Research Guide Oxford University Press, 2010-05-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In Islamic studies as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is a static version of an article from Oxford Bibliographies Online Islamic Studies a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of the Islamic religion and Muslim cultures Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.aboutobo.com **The Princeton Encyclopedia of Islamic Political Thought** Gerhard Bowering, Patricia Crone, Mahan Mirza, 2013 In 2012 the year 1433 of the Muslim calendar the Islamic population throughout the world was estimated at approximately a billion and a half representing about one fifth of humanity In geographical terms Islam occupies the center of the world

stretching like a big belt across the globe from east to west P vii *The Wolf King* Abigail Krasner Balbale,2023-01-15 Winner of the Wallace K Ferguson Prize Winner of the Dionisius A Agius Book Prize *The Wolf King* explores how political power was conceptualized constructed and wielded in twelfth century al Andalus focusing on the eventful reign of Muhammad ibn Abd al-Mu'izz ibn Abd al-Malik al-Muwahhid Celebrated in Castilian and Latin sources as el rey leon rex lupus and denigrated by Almohad and later Arabic sources as irreligious and disloyal to fellow Muslims because he fought the Almohads and served as vassal to the Castilians Ibn Abd al-Mu'izz ruled a kingdom that at its peak constituted nearly half of al Andalus and served as an important buffer between the Almohads and the Christian kingdoms of Castile and Aragon Through a close examination of contemporary sources across the region Abigail Krasner Balbale shows that Ibn Abd al-Mu'izz's short lived dynasty was actually an attempt to integrate al Andalus more closely with the Islamic East particularly the Abbasid caliphate At stake in his battles against the Almohads was the very idea of the caliphate in this period as well as who could define righteous religious authority *The Wolf King* makes effective use of chronicles chancery documents poetry architecture coinage and artifacts to uncover how Ibn Abd al-Mu'izz adapted language and cultural forms from around the Islamic world to assert and consolidate power and then tracks how these strategies and the memory of Ibn Abd al-Mu'izz more generally influenced expressions of kingship in subsequent periods Open access edition funded by the National Endowment for the Humanities *God and Logic in Islam* John Walbridge,2010-11-15 This book investigates the central role of reason in Islamic intellectual life Despite widespread characterization of Islam as a system of belief based only on revelation John Walbridge argues that rational methods not fundamentalism have characterized Islamic law philosophy and education since the medieval period His research demonstrates that this medieval Islamic rational tradition was opposed by both modernists and fundamentalists resulting in a general collapse of traditional Islamic intellectual life and its replacement by more modern but far shallower forms of thought However the resources of this Islamic scholarly tradition remain an integral part of the Islamic intellectual tradition and will prove vital to its revival The future of Islam Walbridge argues will be marked by a return to rationalism *Islam and Christianity* John Renard,2011-03-08 In light of the widespread public perception of incompatibility between Islam and Christianity this book provides a much needed straightforward comparison of these two great faith traditions from a broad theological perspective Award winning scholar John Renard illuminates the similarities as well as the differences between Islam and Christianity through a clear exploration of four major dimensions historical creedal institutional and ethical and spiritual Throughout the book features comparisons between concrete elements such as creedal statements prayer texts and writings from major theologians and mystics It also includes a glossary of technical theological terms For western readers in particular this balanced authoritative work overturns some common stereotypes about Islam especially those that have emerged in the decade since September 11 2001 *The Ashgate Research Companion to Islamic Law* Peri Bearman,2016-03-16 This unparalleled Companion provides a comprehensive and authoritative guide to Islamic law

to all with an interest in this increasingly relevant and developing field. The volume presents classical Islamic law through a historiographical introduction to and analysis of Western scholarship while key debates about hot button issues in modern day circumstances are also addressed. In twenty one chapters distinguished authors offer an overview of their particular specialty reflect on past and current thinking and point to directions for future research. The Companion is divided into four parts. The first offers an introduction to the history of Islamic law as well as a discussion of how Western scholarship and historiography have evolved over time. The second part delves into the substance of Islamic law. Legal rules for the areas of legal status family law socio economic justice penal law constitutional authority and the law of war are all discussed in this section. Part three examines the adaptation of Islamic law in light of colonialism and the modern nation state as well as the subsequent re-Islamization of national legal systems. The final section presents contemporary debates on the role of Islamic law in areas such as finance the diaspora modern governance and medical ethics and the volume concludes by questioning the role of Sharia law as a legal authority in the modern context. By outlining the history of Islamic law through a linear study of research this collection is unique in its examination of past and present scholarship and the lessons we can draw from this for the future. It introduces scholars and students to the challenges posed in the past to the magnitude of milestones that were achieved in the reinterpretation and revision of established ideas and ultimately to a thorough conceptual understanding of Islamic law.

Ibn Miskawayh, the Soul, and the Pursuit of Happiness John Peter Radez, 2019-10-17
Ibn Miskawayh the Soul and the Pursuit of Happiness explores the moral philosophy and context of Ibn Miskawayh 932 1030 an advocate of the intellectually cultivated life with a strong religious bent. Though not necessarily a major innovator he sought through his writings to provide a moral compass for turbulent times much like thinkers such as Petrarch 1304 1374 Pico della Mirandola 1463 1494 Francois Rabelais 1494 1553 Montesquieu 1689 1755 or more recently Mortimer Adler 1902 2001. Despite the tumultuous times in which they lived these thinkers offered the world hope through a humanism that cultivated both civic and moral character. Whether directly expressed in his moral philosophy or illustrated in the examples of renowned or notorious historical figures Miskawayh's core idea is that one's character is much easier kept than recovered. In this book John Peter Radez shows how Miskawayh stands out not only as one of Islam's first ethicists but also one of its true intellectuals thinker historian codifier of the science of adab and a truly happy sage who represented the best of his generation's intellectual and cultural elite. Miskawayh's message of how to create lives worthy of human beings his civic humanism resonates today.

The 'Abbasid and Carolingian Empires D.G. Tor, 2017-10-23
Circa AD 750 both the Islamic world and western Europe underwent political revolutions these raised to power respectively the Abbasid and Carolingian dynasties. The eras thus inaugurated were similar not only in their chronology but also in the foundational role each played in its respective civilization forming and shaping enduring religious cultural and societal institutions. The Abbasid and Carolingian Empires Studies in Civilizational Formation is the first collected volume ever dedicated specifically to

comparative Carolingian Abbasid history In it editor D G Tor brings together essays from some of the leading historians in order to elucidate some of the parallel developments in each of these civilizations many of which persisted not only throughout the Middle Ages but to the present day Contributors are Michael Cook Jennifer R Davis Robert Gleave Eric J Goldberg Minoru Inaba Jürgen Paul Walter Pohl D G Tor and Ian Wood The Islamic State in the Post-Modern World Louis D. Hayes,2016-03-03 The Islamic State in the Post Modern World is a study of the political development of Pakistan This study consists of three parts The first addresses the concept of the state as it has evolved historically The approach is comparative and involves a brief review of Islamic political theory The second part of this section is the modern state i e the Westphalian model The territorial state is still the standard although it has been evolving in new directions for some time The second section focuses on the creation of Pakistan as an experiment in bridging the gulf between the demands of the modern state and the philosophical spiritual attraction of the Islamic model In addition to constitutional issues the discussion also includes political forms i e the machinery of daily government and the appropriateness of democratic methods elections legislative process and political parties to achieve Islamic ends The third part considers international issues from the beginning of the twenty first century especially the conflicts in Iraq and Afghanistan Despite its partnership role with the US in the war on terror Pakistan has been consistently marginalized Pakistan s problems are exacerbated by the conflict over Kashmir a vestigial remnant of Pakistan s continuous and largely unsuccessful efforts at self identification Just War in Religion and Politics Jacob Neusner,Bruce D. Chilton,R. E. Tully,2013-04-18 The basis of this collection of essays is the reading of a common topic from different perspectives Half of the book is devoted to the comparative study of religions and the courses are offered by religion professors The other half is shaped by social science approaches and the seminars are given mainly by social science professors We aim to compare and contrast not only positions but also methods of learning We examine theories of the just war in diverse cultural contexts and their disciplinary settings Space is devoted to the study of papers prepared for this project by specialists in various disciplines mainly but not exclusively faculty of Bard College and the United States Military Academy at West Point
