Gods Grace And Human Health:

God's Grace and Human Health J. Harold Ellens, 1982 *Health, Healing, and Shalom* Bryant L. Myers, Erin Dufault-Hunter, Isaac B. Voss, 2015-11-17 Frontiers and Challenges for Christian Healthcare Missions Ever since Jesus's proclamation in word and deed as the Great Physician his followers in mission have assumed that salvation and health are intertwined Yet for every age Christians need to examine how they can best announce the gospel message of God's healing in word and deed in their own context In our era we are often simultaneously grateful for modern medicine and frustrated by its inability to care for the whole person in effective affordable ways In this edited volume authors with an interest in health missions from a wide variety of experiences and disciplines examine health and healing through the theological lens of shalom This word often translated peace names a much more complex understanding of human well being as right relationships with one another with God and with creation Reading various aspects of healthcare missions through these glasses not only yields much needed correctives to current practice but also exposes the Spirit's invitation to participate in God's ongoing work of tending caring and healing our broken world Honest Faith for Our Time Jay Harold Ellens, 2010-09-13 This volume is a biblical theological critique of the Apostles Creed and a development of the role of the Holy Spirit in the church the world and the personal experience of Christian faith It addresses the creed as a historic document an artifact of early Christian theological development and a long standing guide for the form and content of that faith tradition This book is an appreciation of the Apostles Creed in terms of its persistent pastoral effect in the church It is also a criticism of aspects of the creed that are unbiblical and crafted for political or extraneous theological reasons by the bishops of the ancient ecumenical councils **Science, Religion, and Health** Jay Harold Ellens, 2016-11-10 Psychology and theology interface at four levels theory development research process data collection and clinical operation At each level they connect in the model of humanness anthropology forming and functioning there and in that model of humanness it is in personality theory that psychology illumines theology and that psychology illumines theology A theologian who does not take full advantage of the way psychology illumines theology is not serious about the work of theology A psychologist who does not take full advantage of the way theology illumines psychology is not serious about the field and practice of psychology Science Religion and Health explains in readable style how that interface and mutual illumination works and why it is crucial for Christian psychotherapists and pastors *Health, Healing and the Church's Mission* Willard M. Swartley, 2012-07-19 Does the Christian community have the resources to develop a coherent response to today's health care challenges In a comprehensive survey covering the full scope of the Bible and three millennia of Christian belief and practice Willard Swartley fleshes out the central place of health care in the church's mission Understanding Pastoral Counseling Elizabeth A.
