New Possibilities for Juvenile Justice Willie James Webb, 2013-10-21 This book has three enlightening sections regarding juvenile recidivism administrative services and treatment methodologies The first section is based on research studies and analyses of the social characteristics of 40 randomly selected juvenile recidivists referred to the juvenile court over a ten year period This study explores and analyzes the respective families neighborhoods schools grade levels religious affiliation socio economic status mental health and the types and numbers of legal offenses that were committed by the repeat offenders This study establishes a pattern and identifying social factors relating to causal factors contributing to their repetitious offensive acts and violations of the law There are clearly predictive factors for juvenile repeat offenders that can be used to predict control prevent control and reduce significantly juvenile offenses and recidivism The second section of this book explores essentials for effective administration for juvenile courts and other social service agencies in the community All agencies and especially human service agencies must be administratively and operationally healthy They must not contribute to the demoralization of the staff who already face low morale challenges in treating and serving clients who are associated with substantial depressive pathologies Specific personnel standards policies and procedures are vital to optimize the effectiveness of the service providing staff There are certain training essentials and requirements that center around competence morality professionalism and ethical standards that must be enforced in order to maintain an efficient functional healthy and safe work environment If the service providing staff are not trained and treated well it is doubtful that they can serve and treat their clients well Treatment providers must be protected from administrative persecution and incompetence especially when they have the responsibility to protect and restore their clients to health and stability Intimidating threatening and unsafe work environments retards and inhabits productivity The third section of *New Possibilities for Juvenile Justice* enumerates a comprehensive list of factors associated with youth problems

failures in school delinquent acts and law violations The list is based on seasoned experienced and knowledgeable probation officers with decades of training and experience Also the third section of this book provides an exploration and understanding of the ongoing cultural crisis and the serious adverse impact this crisis is having on America its people and institutions The social problems reinforced by new ideologies and technology appear to be increasing more rapidly than answers and solutions to solve them Transforming American youth into positive law abiding healthy and productive citizens is possible if the responsible patriotic and enlightened leadership will utilize the artistic scientific ethical and transforming knowledge that is available The information contained in this volume can be a significant beginning in that process of directions for youth transformation l **WHEN SPIRITUALITY AND MEDICINE DISCONNECT** Glenda F.

The Spiritual Dimension of Alternative Medicine Ernest M. Valea, 2020-02-20 We often hear that alternative medicine is superior to classical medicine for it treats us holistically both the physical body and the immaterial part of our nature Although such an approach seems desirable it is precisely this aspect that opens the door to spiritual views incompatible with Christianity Many forms of alternative medicine speak of a divine essence we allegedly possess of a vital force that we can manipulate of spiritual beings that can help us and other such views closely related to Eastern religions and New Age thought In their desire to find healing at any price Christians often resort to these methods without realizing the spiritual danger involved For Christians who want to live consistently with their faith this book is intended to raise awareness of the hidden beliefs of alternative medicine

God With Us - CTL - 2009 , *Atonement and Comparative Theology* Catherine Cornille, 2021-09-07 The central Christian belief in salvation through the suffering death and resurrection of Jesus Christ remains one of the most intractable mysteries of Christian faith Throughout history it has given rise to various theories of atonement many of which have been subject to critique as they no longer speak to contemporary notions of evil and sin or to current conceptions of justice One of the important challenges for contemporary Christian theology thus involves exploring new ways of understanding the salvific meaning of the cross In *Atonement and Comparative Theology* Christian theologians with expertise in Judaism Islam Hinduism Buddhism Daoism and African Religions reflect on how engagement with these traditions sheds new light on the Christian understanding of atonement by pointing to analogous structures of sin and salvation drawing attention to the scandal of the cross as seen by the religious other and re interpreting aspects of the Christian understanding of atonement Together they illustrate the possibilities for comparative theology to deepen and enrich Christian theological reflection
