The Literature of Weimar Classicism Simon Richter, 2005 New essays providing an account of the shaping beliefs preoccupations motifs and values of Weimar Classicism In Germany Weimar Classicism roughly the period from Goethe's return to Germany from Italy in 1788 to the death of his friend and collaborator Schiller in 1805 is widely regarded as an apogee of literary art But outside of Germany Goethe is considered a Romantic and the notion of Weimar Classicism as a distinct period is viewed with skepticism This volume of new essays regards the question of literary period as a red herring Weimar Classicism is best understood as a project that involved the ambitious attempt not only to imagine but also to achieve a new quality of wholeness in human life and culture at a time when fragmentation division and alienation appeared to be the norm By not succumbing to the myth of Weimar and its literary giants but being willing to explore the phenomenon as a complex cultural system with a unique signature this book provides an account of its shaping beliefs preoccupations motifs and values Contributions from leading German British and North American scholars open up multiple interdisciplinary perspectives on the period Essays on the novel poetry drama and theater are joined by accounts of politics philosophy visual culture women writers and science The reader is introduced to the full panoply of cultural life in Weimar its accomplishments as well as its excesses and follies Emancipatory and doctrinaire by turns the project of Weimar Classicism is best approached as a complex whole Contributors Dieter Borchmeyer Charles Gair Gail Hart Thomas Saine Jane Brown Cyrus Hamlin Roger Stephenson Elisabeth Krimmer Helmut Pfotenhauer Benjamin Bennett Astrida Orle Tantiillo W Daniel Wilson Simon J Richter is Associate Professor of German at the University of Pennsylvania

The Erotics of War in German Romanticism Patricia Anne Simpson,2006 In *The Erotics of War in German Romanticism* Patricia Anne Simpson explores the ways early nineteenth century German philosophers poets and artists represent war and erotic desire The author argues that gender is connected to a larger debate about the construction of the self in relation to a community at a time that this definition is under revision She analyzes the culture of war as it shapes the bonds of fraternal familial and eventually national identity Simpson defines the erotics of war as discursive attempts to assert the priority of ethical identity and citizenship over individualized desire The seemingly ancillary problem of female desire emerges not as a marginal issue but as the focal point of a debate about identity *Goethe Yearbook 25* Adrian Daub,Elisabeth Krimmer,2018-06-15 Cutting edge scholarly articles on diverse aspects of Goethe and the Goethezeit featuring in this volume a special section on acoustics around 1800 The Goethe Yearbook is a publication of the Goethe Society of North America encouraging North American Goethe scholarship by publishing original English language contributions to the understanding of Goethe and other authors of the Goethezeit while also welcoming contributions from scholars around the world Volume 25 features a special section on acoustics around 1800 edited by Mary Helen Dupree which includes among others contributionson sound and listening in Ludwig Tieck s *Der blonde Eckbert* Robert Ryder and on the role of the tympanum in Herder s aesthetic theory Tyler Whitney The volume also contains essays on Goethe and stage sequels Matthew Birkhold on

Religion, Reason, and Culture in the Age of Goethe Elisabeth Krimmer, Patricia Anne Simpson, 2013 Investigates how culture in the Age of Goethe shaped and was shaped by a sustained and multifaceted debate about the place of religion in politics philosophy and culture The eighteenth century is usually considered to be a time of increasing secularization in which the primacy of theology was replaced by the authority of reason yet this lofty intellectual endeavor played itself out in a social and political reality that was heavily impacted by religious customs and institutions This duality is visible in the literature and culture of late eighteenth and early nineteenth century Germany On the one hand authors such as Goethe Schiller and Kleist are known for their distance from traditional Christianity On the other hand many canonical texts from the

late eighteenth and early nineteenth centuries from Goethe's Faust to Schiller's Die Jungfrau von Orleans to Kleist's Michael Kohlhaas are not only filled with references to the Bible but invoke religious frameworks Religion Reason and Culture in the Age of Goethe investigates how culture in the Age of Goethe shaped and was shaped by a sustained and multifaceted debate about the place of religion and religious difference in politics philosophy and culture enriching our understanding of the relationship between religion and culture during this foundational period in German history Contributors Frederick Amrine Claire Baldwin Lisa Beesley Jane K Brown Jeffrey L High Elisabeth Krimmer Helmut J Schneider Patricia Anne Simpson John H Smith Tom Spencer Elisabeth Krimmer is professor of German at the University of California Davis Patricia Anne Simpson is professor of German at Montana State University *The Self as Muse* Alexander Mathas, 2011-04-22 While there are countless philosophical and psychological studies that focus on sources of the self narcissism has found relatively little attention in a pre Freudian context The Self as Muse fills this gap by examining various aspects of narcissism and their significance for the outpouring of creativity in late eighteenth and nineteenth century German literature In many Eighteenth century works of the period narcissism refers to the creation of an idealized image of the self and the desire to merge with this image It provided an impetus for poetic production as writers resorted to the Greek myth of Narcissus to express what they perceived as the inner workings of their soul Yet they were also acutely aware of the vain and therefore narcissistic motivations for their explorations of the self While those influenced by the Pietist tradition attempted to distinguish between an unselfish self scrutiny and self indulging vanity others like Goethe took advantage of narcissism's creative potential and integrated it into their aesthetic endeavors The abundance of confessional and autobiographical accounts the burgeoning of poetry drawing on personal experience the emergence of a type of drama that is based on empathy and the concern with an individual's ability to control one's senses and emotions in general testify to an unprecedented interest in notions of the self in German literature Math's explains the emergence of narcissism in the literature of the period as a sense inspired concept that aims to bring about a better comprehension of both the self and other human beings and how writers used narcissism to improve the moral behavior of their readers It examines eighteenth century representations of narcissism against the background of Freudian and post Freudian notions of the concept and explores narcissism as a creative process that engages both reader and writer in the production of meaning By showing narcissism's pervasive allure for a broad array of literary productions the vol

Choice, 2001

The Rhetoric of Error from Locke to Kleist Zachary Sng, 2010-07-20 Eighteenth century Europe preoccupied with both the origins and the defense of reason was naturally concerned with what might be the root of all error A topic any systematic account of knowledge must grapple with error became a frequent point of debate in new scientific aesthetic and philosophical investigations Taking John Locke's Essay Concerning Human Understanding as his point of departure Sng examines a number of such debates focusing on literary and philosophical accounts of the relationship between language and thought Rather than approaching its topic conceptually or historically he takes on canonical texts of the Enlightenment and Romanticism and engages with their rhetorical strategies In so doing Sng elucidates how people wrote about error and how texts claimed to produce reliable and

error free modes of knowledge The range of authors addressed Leibniz Adam Smith Coleridge Kant and Goethe demonstrates the diversity and heterogeneity underlying the textual production of the age All Theater is Revolutionary Theater

Benjamin Bennett, 2005 All Theater Is Revolutionary Theater is the first book to consider why in the Western tradition and only in the Western tradition theatrical drama is regarded as its own literary or poetic type when the criteria needed to differentiate drama from other forms of writing do not resemble the criteria by which types of prose or verse are ordinarily distinguished Through close readings of such playwrights as Beckett Brecht Brecht Bchner Eliot Shaw Wedekind and Robert Wilson Benjamin Bennett looks at the relationship between literature and drama identifying typical problems in the development of dramatic literature and exploring how the uncomfortable association with theatrical performance affects the operation of drama in literary history Bennett's historical investigations into theoretical works ranging from Aristotle to Artaud Brecht and Diderot suggest that the attempt to include drama in the system of Western literature causes certain specific

incongruities that in his view have the salutary effect of preserving the otherwise endangered possibility of a truly liberal progressive or revolutionary literature

Great Books by German Women in the Age of Emotion, 1770-1820

Margaretmary Daley, 2022 Literature written by women in German during the period long known patriarchally as the Age of Goethe was largely lumped in with other unserious or artistically unworthy works under the category Trivialliteratur literally trivial literature Using insights from Gender Studies yet acknowledging the need for a literary canon Great Books by German Women offers a critical interpretation of six canon worthy German novels written by women in the period for which it coins the term Age of Emotion The novels are chosen because they depict women's ordinary yet interesting lives and equally because each displays formal strengths that yield prose particularly able to express emotion The first Sophie von La Roche's Die Geschichte des Fräuleins von Sternheim The History of Lady von Sternheim draws on the tradition of the epistolary novel while also finding new ways to depict empathetic emotions The second Friederike Unger's Julchen Grunthal brings to the Frauenroman or women's novel the use of irony to portray a heroine's emotions during her coming of age The next novels add lyricism to their prose to capture sensual emotions Sophie Mereau's Blütenalter der Empfindung The Blossoming of Feeling imagines women's affinity for the philosophical sublime while Caroline Wolzogen depicts female desire in her Agnes von Lilien The fifth novel Die Honigmonathe The Honeymoon by Karoline Fischer explores the agony that extreme emotions cause not only for women but also for men The last novel Caroline Pichler's Frauenwürde The Dignity of Women expands the focus from a young heroine to multiple mature characters while maintaining the centrality of women's talents and emotions Finally this study accords honorable mention to some other women's novels before concluding that the influence of these six works was in no way trivial either in portraying women's lives and emotions or in the history of German literature
