## **Going For Gold Men Mines And Migration:**

**Going for Gold** T. Dunbar Moodie, Vivienne Ndatshe, 1994-09-27 An indispensable look at the working conditions social lives and collective action of black miners Moodie's meticulous reflective incessantly questioning approach to power drink sexuality conflict and routine life in mines and compounds reveals an extraordinary world at the edge of hope and desperation Charles Tilly The New School for Social Research Combines a rigorous use of theory with a marvellous and sensitive sympathy Terence O Ranger co editor of The Invention of Tradition

**Readings in Gender in Africa** Andrea Cornwall, 2005 This is a comprehensive overview on the existing literature on gender in Africa It covers areas such as Western perceptions colonial morality religion and politics

Twentieth-Century South Africa William Beinart, 2001-10-04 An innovative examination of the forces both destructive and dynamic which have shaped twentieth century South Africa This book provides a stimulating introduction to the history of South Africa in the twentieth century It draws on the rich and lively tradition of radical history writing on that country and to a greater extent than previous accounts weaves economic and cultural history into the political narrative Apartheid and industrialization especially mining are central theme as is the rise of nationalism in the Afrikaner and African communities But the author also emphasizes the neglected significance of rural experiences and local identities in shaping political consciousness The roles played by such key figure as Smuts Verwoerd de Klerk Plaatje and Mandela are explored while recent historiographical trends are reflected in analyses of rural protest white cultural politics the vitality of black urban life and environmental decay The book assesses the analysis of black reactions to apartheid the rise of the ANC The concluding chapter brings this seminal history up to date tackling the issues and events from 1994 1999 in particular the success of Mandela and the ANC in seeing through the end of apartheid rule It also looks at the chances of a stable future for the new found democracy in South Africa

*Work out of Place* Mahua Sarkar, 2017-12-04 All work is free work or is it Rooted in the historical and theoretical debates over the status of labor this volume analyzes the relationship between free and forced work migration and the role that states play in producing un freedom With contributions among others from Stephen Castles Cindy Hahamovitch Vincent Houben and William G Martin the book explores constrained labor forms across the world from the mid 19th century to today

Informal Livelihoods and Governance in South Africa Zaheera Jinnah, 2022-09-13 This open access book offers a compelling account of everyday life livelihoods and governance in post apartheid South Africa among the urban poor and marginalized anchored in and through a critique of the concept of informality or living outside of the state its laws services and protection Using a case study of the Zama Zama loosely translated from the isiZulu as to hustle or to strive and colloquially used to refer to those working as informal artisanal miners on Johannesburg's numerous disused and abandoned gold mines the book documents an ethnography of this community's everyday lives struggles and hopes It provides an intimate account of a community its social relations and its political relationship to the state The narratives of the Zama Zama are used to raise broader questions about

precarity belonging and governance in post apartheid South Africa and suggest that pervasive informality could risk the country's democratic order

**The Routledge Companion to the Reception of Ancient Greek and Roman Gender and Sexuality** K. Moore, 2022-08-22 This Companion covers a range of receptions of ancient Greek and Roman gender and sexuality It explores ancient representations of these concepts as we define them today as well as recent perspectives that have been projected back onto antiquity Beginning in antiquity the chapters examine how the ancient Greeks and Romans regarded concepts of what we would today call gender and sexuality based on the evidence available to us and chart the varied interpretations and receptions of these concepts across time to the present day In exploring how different cultures have received the classical past the volume investigates these cultures different interpretations of Greek and Roman sexualities and what these interpretations can reveal about their own attitudes Through the contributions in this book the reader gains a deeper understanding of this essential part of human existence derived from influential sources From ancient to modern and postmodern perspectives from cinematic productions to TikTok videos receptions of ancient gender and sexuality abound This volume is of interest to students and scholars of ancient history gender and sexuality in the ancient world and ancient societies as well as those working on popular culture and gender studies more broadly

**The Economic Future in Historical Perspective** Paul A. David, Mark Thomas, 2006-02-23 The essays in this volume demonstrate the power of using history to improve our understanding of the economic and social challenges of the present and future A distinguished group of authors provide new perspectives on the dynamics of economic growth the challenges of economic and political transitions and the relationships between economic growth institutional development and individual well being in mature industrial societies

*We are Fighting the World* Gary Kynoch, 2005 Since the late 1940s a violent African criminal society known as the Marashea has operated in and around South Africa's gold mining areas With thousands of members involved in drug smuggling extortion and kidnapping the Marashea was more influential in the day to day lives of many black South Africans under apartheid than were agents of the state These gangs remain active in South Africa In *We Are Fighting the World* A History of the Marashea Gangs in South Africa 1947-1999 Gary Kynoch points to the combination of coercive force and administrative weakness that characterized the apartheid state As long as crime and violence were contained within black townships and did not threaten adjacent white areas township residents were largely left to fend for themselves The Marashea's ability to prosper during the apartheid era and its involvement in political conflict led directly to the violent crime epidemic that today plagues South Africa Highly readable and solidly researched *We Are Fighting the World* is critical to an understanding of South African society past and present This pioneering study challenges previous social history research on resistance ethnicity urban spaces and gender in South Africa Kynoch's interviews with many current and former gang members give *We Are Fighting the World* an energy and a realism that are unparalleled in any other published work on gang violence in southern Africa

*Mobility, Sexuality and AIDS* Felicity Thomas, Mary

Haour-Knipe, Peter Aggleton, 2009-10-16 *Mobility Sexuality and AIDS* recognises the complex relationships between individual circumstances different forms of migration and the different ways in which communities and states respond It will be invaluable for students and academics of migration development studies anthropology sociology geography and public health

[A Long Way Home](#) William Beinart, 2014-07-01 In no other society in the world have urbanisation and industrialization been as comprehensively based on migrant labour as in South Africa Rather than focusing on the well documented narrative of displacement and oppression *A Long Way Home* captures the humanity agency and creative modes of self expression of the millions of workers who helped to build and shape modern South Africa The book spans a three hundred year history beginning with the exportation of slave labour from Mozambique in the eighteenth century and ending with the strikes and tensions on the platinum belt in recent years It shows not only the age old mobility of African migrants across the continent but also with the growing demand for labour in the mining industry the importation of Chinese indentured migrant workers Contributions include 18 essays and over 90 artworks and photographs that traverse homesteads chiefdoms and mining hostels taking readers into the materiality of migrant life and its customs and traditions including the rituals practiced by migrants in an effort to preserve connections to home and create a sense of belonging The essays and visual materials provide multiple perspectives on the lived experience of migrant labourers and celebrate their extraordinary journeys *A Long Way Home* was conceived during the planning of an art exhibition entitled *Ngezinyawo Migrant Journeys* at Wits Art Museum The interdisciplinary nature of the contributions and the extraordinary collection of images selected to complement and expand on the text make this a unique collection

*Conjugal Rights* Rachel Jean-Baptiste, 2014-08-15 *Conjugal Rights* is a history of the role of marriage and other arrangements between men and women in Libreville Gabon during the French colonial era from the mid nineteenth century through 1960 Conventional historiography has depicted women as few in number and of limited influence in African colonial towns but this book demonstrates that a sexual economy of emotional social legal and physical relationships between men and women indelibly shaped urban life Bridewealth became a motor of African economic activity as men and women promised earned borrowed transferred and absconded with money to facilitate interpersonal relationships Colonial rule increased the fluidity of customary marriage law as chiefs and colonial civil servants presided over multiple courts and city residents strategically chose the legal arena in which to arbitrate a conjugal sexual conflict Sexual and domestic relationships with European men allowed some African women to achieve a greater degree of economic and social mobility An eventual decline of marriage rates resulted in new sexual mores as women and men sought to rebalance the roles of pleasure respectability and legality in having sex outside of kin sanctioned marriage Rachel Jean Baptiste expands the discourse on sexuality in Africa and challenges conventional understandings of urban history beyond the study of the built environment Marriage and sexual relations determined how people defined themselves as urbanites and shaped the shifting physical landscape of Libreville

Conjugal Rights takes a fresh look at questions of the historical construction of race and ethnicity. Despite the efforts of the French colonial government and society to enforce boundaries between black and white interracial sexual and domestic relationships, persisted. Black and mixed women gained economic and social capital from these relationships, allowing some measure of freedom in the colonial capital city.

**Rights and Responsibilities in Rural South Africa** Kathleen Rice, 2023-06-20. *Rights and Responsibilities in Rural South Africa* examines the gendered and generational conflicts surrounding social change in South Africa's rural Eastern Cape, roughly twenty years after the end of Apartheid. In post-Apartheid South Africa, rights-based public discourse and state practices promote liberal, autonomous and egalitarian notions of personhood, yet widespread unemployment and poverty demand that people rely closely on one another and forge relationships that disrupt the gendered and generational hierarchies framed as traditional and culturally authentic. Kathleen Rice examines the ways these tensions and restructurings lead to uncertainties about how South Africans should live together in their daily lives, with particular implications for understanding and responding to widespread gendered and sexual conflict and violence. Focusing particularly on the women of the village of Mhlambini, *Rights and Responsibilities in Rural South Africa* offers compelling portraits of how they experience and navigate widespread social and economic change and presents their experiences as a way of understanding how people navigate the moral ambiguities of contemporary South African life.

*Amakomiti* Trevor Ngwane, 2021-02-20. One of the most exciting and provocative books that I've read in a long time. Mike Davis, author of *Planet of the Slums*. Can people who live in shantytowns, shacks and favelas teach us anything about democracy? About how to govern society in a way that is inclusive, participatory and addresses popular needs? This book argues that they can. In a study conducted in dozens of South Africa's shack settlements, where more than 9 million people live, Trevor Ngwane finds thriving shack dwellers' committees that govern local life, are responsive to popular needs and provide a voice for the community. These committees, called *amakomiti* in the Zulu language, organise the provision of basic services such as water, sanitation, public works and crime prevention, especially during settlement establishment. *Amakomiti* argues that, contrary to common perception, slum dwellers are in fact an essential part of the urban population, whose political agency must be recognised and respected. In a world searching for democratic alternatives that serve the many and not the few, it is to the shantytowns, rather than the seats of political power, that we should turn.

*Rethinking Labour in Africa, Past and Present* Lynn Schler, Louise Bethlehem, Galia Sabar, 2013-09-13. This book offers a broad range of perspectives on major transformations in the research of labor in Africa, contexts over the last twenty years. This is a groundbreaking work by social scientists and historians, adopting innovative paradigms in the study of African laborers, working classes and economies; it moves away from stringent Marxist perspectives towards more localized and fluid conceptions of materiality and productivity. Against the backdrop of increasing mobility of labor and capital, the authors demonstrate the need for a simultaneous consideration of local, national and transnational contexts. The collection of essays provides multiple perspectives on how

African workers have negotiated changes and exploited opportunities in increasingly globalized workplaces while at the same time confronting the impact of global capitalist expansion on local settings in Africa This book was previously published as a Special Issue of African Identities

**South African Homelands as Frontiers** Steffen Jensen,Olaf Zenker,2018-02-02 This book explores what happened to the homelands in many ways the ultimate apartheid disgrace after the fall of apartheid The nine chapters contribute to understanding the multiple configurations that currently exist in areas formerly declared homelands or Bantustans Using the concept of frontier zones the homelands emerge as areas in which the future of the South African postcolony is being renegotiated contested and remade with hyper real intensity This is so because the many fault lines left over from apartheid its loose ends so to speak between white and black between different ethnicities between rich and poor or differentiated by gender generation and nationality between traditions and modernities or between wilderness and human habitation are particularly acute and condensed in these so called communal areas Hence the book argues that it is particularly in these settings that the postcolonial promise of liberation and freedom must face its test As such the book offers highly nuanced and richly detailed analyses that go to the heart of the diverse dilemmas of post apartheid South Africa as a whole but simultaneously also provides in condensed form an extended case study on the predicaments of African postcoloniality in general This book was originally published as a special issue of the Journal of Southern African Studies

Handbook Global History of Work Karin Hofmeester,Marcel van der Linden,2017-11-20 Coffee from East Africa wine from California chocolate from the Ivory Coast all those every day products are based on labour often produced under appalling conditions but always involving the combination of various work processes we are often not aware of What is the day to day reality for workers in various parts of the world and how was it in the past How do they work today and how did they work in the past These and many other questions comprise the field of the global history of work a young discipline that is introduced with this handbook In 8 thematic chapters this book discusses these aspects of work in a global and long term perspective paying attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers organisation strikes and motivations for work are part of this first handbook of global labour history written by the most renowned scholars of the profession

Provocations Susan Bordo,2015-03-21 The first collection of its kind Provocations A Transnational Reader in the History of Feminist Thought is historically organized and transnational in scope highlighting key ideas transformative moments and feminist conversations across national and cultural borders Emphasizing feminist cross talk transnational collaborations and influences and cultural differences in context this anthology heralds a new approach to studying feminist history Provocations includes engaging historically significant primary sources by writers of many nationalities in numerous genres from political manifestos to theoretical and cultural analysis to poetry and fiction These texts range from those of classical antiquity to others composed during the Arab Spring and represent Asia the Middle East Latin America Western Europe and the United States Each

section begins with an introductory essay that presents central ideas and explores connections among readings placing them in historical national and intellectual contexts and concluding with questions for discussion and reflection Cultures in Contact Dirk Hoerder, 2002-11-21 Analysis of migrations regional interregional continent wide and global and the resulting cultural interactions and societal changes

**Retail Worker Politics, Race and Consumption in South Africa** Bridget Kenny, 2018-05-23 This book argues that we need to focus attention on the ways that workers themselves have invested subjectively in what it means to be a worker By doing so we gain an explanation that moves us beyond the economic decisions made by actors the institutional constraints faced by trade unions or the power of the state to interpellate subjects These more common explanations make workers and their politics visible only as a symptom of external conditions a response to deregulated markets or a product of state recognition Instead through a history of retailing as a site of nation and belonging changing legal regimes and articulations of race class and gender in the constitution of political subjects from the 1930s to present day Wal Mart this book presents the experiences and subjectivities of workers themselves to show that the collective political subject workers abasebenzi is both a durable and malleable political category From white to black women s labour the forms of precariousness have changed within retailing in South Africa Workers struggles in different times have in turn resolved some dilemmas and by other turn generated new categories and conditions of precariousness all the while explaining enduring attachments to labour politics

*Culture, Society and Sexuality* Richard Parker, Peter Aggleton, 2007-01-24 This new and revised edition of *Culture Society and Sexuality* brings together and makes accessible a broad and international selection of readings to provide insights into the social cultural political and economic dimensions of sexuality and relationships and emerging discourses around sexual and reproductive rights Clearly structured and presented the book makes an extremely useful reference for students and researchers Section one focuses on the social and cultural construction of sexuality as an emerging field of inquiry over the course of recent decades and examines some of the most important theoretical insights and areas of investigation that have emerged as this field has developed Section two links research on the construction of sexuality to a growing body of work on gender and sexuality in relation to a wide range of practical issues and contemporary social policy debates It is an essential reader not only for students and researchers in these areas but also for activists health workers and service providers who daily confront practical and policy issues related to sexuality sexual health and sexual rights
