Going It Alone Fargo Grapples With The Great Depression:

Going it Alone David B. Danbom, 2005 In *Going It Alone* Fargo Grapples with the Great Depression historian David B. Danbom shows how this exemplary American city struggled to survive problems it could not solve by itself People of all classes shunned and demonized those who accepted relief Unemployed men formed a club to barter goods and to influence work programs City leaders forced to accept federal help fought for local control Danbom also traces the effects of larger cultural changes not rooted in the Depression but sometimes exacerbated by it struggles between employers and workers the growing independence of women and conflict between parents and children BOOK JACKET *The Big Empty* R. Douglas Hurt, 2011-09 The Great Plains known for grasslands that stretch to the horizon is a difficult region to define Some classify it as the region beginning in the east at the ninety eighth or one hundredth meridian Others identify the eastern boundary with annual precipitation lines soil composition or length of the grass In *The Big Empty* leading historian R. Douglas Hurt defines this region using the towns and cities Denver Lincoln and Fort Worth that made a difference in the history of the environment politics and agriculture of the Great Plains Using the voices of women homesteaders agrarian socialists Jewish farmers Mexican meatpackers New Dealers and Native Americans this book creates a sweeping survey of contested race relations radical politics and agricultural prosperity and decline during the twentieth century This narrative shows that even though Great Plains history is fraught with personal and group tensions violence and distress the twentieth century also brought about compelling social economic and political change The only book of its kind this account will be of interest to historians studying the region and to anyone inspired by the story of the men and women who found an opportunity for a better life in the Great Plains *Making the American Century* Bruce J. Schulman, 2014-02-03 The twentieth century has been popularly seen as the American Century a long period in which the United States had amassed the economic resources the political and military strength and the moral prestige to assume global leadership By century s end the trajectory of American politics the sense of ever waxing federal power and the nation s place in the world seemed less assured Americans of many stripes came to contest the standard narratives of nation building and international hegemony charted by generations of historians In this volume a group of distinguished U S historians confronts the teleological view of the inexorable transformation of the United States into a modern nation The contributors analyze a host of ways in which local places were drawn into a wider polity and culture while at the same time revealing how national and international structures and ideas created new kinds of local movements and local energies Rather than seeing the century as a series of conflicts between liberalism and conservatism they illustrate the ways in which each of these political forces shaped its efforts over the other s cumulative achievements accommodating to shifts in government social mores and popular culture They demonstrate that international connections have transformed domestic life in myriad ways and in turn that the American presence in the world has been shaped by its distinctive domestic political culture Finally they break down boundaries

between the public and private sectors showcasing the government's role in private life and how private organizations influenced national politics Revisiting and revising many of the chestnuts of American political history this volume challenges received wisdom about the twentieth century American experience **Regional Cultures and Mortality in America**

Stephen J. Kunitz, 2015 Examines how state government policies and their historic beginnings have present day effects on their residents political lives and on population health especially for marginalized groups *Gateway to the Northern Plains* Carroll L. Engelhardt, Historian Carroll Engelhardt's Gateway to the Northern Plains chronicles the story of Fargo and Moorhead's growth Once just specks on the vast landscape of the Northern Plains these twin cities prospered teeming with their own dynamic culture economy and politics Moorhead developed first boosted by railroad manager Thomas Hawley Canfield who touted it as superior to Fargo However Northern Pacific Railway chose Fargo as its headquarters and it became the Gateway City to North Dakota BOOK JACKET **Window Shopping with Helen Keller** David Serlin, 2025-01-16 A

particular history of how encounters between architects and people with disabilities transformed modern culture Window Shopping with Helen Keller recovers a series of influential moments when architects and designers engaged the embodied experiences of people with disabilities David Serlin reveals how people with sensory and physical impairments navigated urban spaces and helped to shape modern culture Through four case studies the lives of Joseph Merrick aka The Elephant Man and Helen Keller the projects of the Works Progress Administration and the design of the Illinois Regional Library for the Blind and Physically Handicapped Serlin offers a new history of modernity's entanglements with disability *The Lost Region* Jon K. Lauck, 2013-12-01 The American Midwest is an orphan among regions In comparison to the South the far West and New England its history has been sadly neglected To spark more attention to their region midwestern historians will need to explain the Midwest's crucial roles in the development of the entire country it helped spark the American Revolution and stabilized the young American republic by strengthening its economy and endowing it with an agricultural heartland it played a critical role in the Union victory in the Civil War it extended the republican institutions created by the American founders and then its settler populism made those institutions more democratic it weakened and decentered the cultural dominance of the urban East and its bustling land markets deepened Americans embrace of capitalist institutions and attitudes In addition to outlining the centrality of the Midwest to crucial moments in American history Jon K Lauck resurrects the long forgotten stories of the institutions founded by an earlier generation of midwestern historians from state historical societies to the Mississippi Valley Historical Association Their strong commitment to local and regional communities rooted their work in place and gave it an audience outside the academy He also explores the works of these scholars showing that they researched a broad range of themes and topics often pioneering fields that remain vital today The Lost Region demonstrates the importance of the Midwest the depth of historical work once written about the region the continuing insights that can be gleaned from this body of knowledge and the lessons that can be learned from some of its prominent

historians all with the intent of once again finding the forgotten center of the nation and developing a robust historiography of the Midwest

The FDR Years William D. Pederson, 2009 Born in 1882 in New York Franklin Delano Roosevelt entered public service through the encouragement of the Democratic Party and won the election to the New York Senate in 1910 This book details his administration at the height of the Great Depression as he valiantly led the nation with the phrase The only thing we have to fear is fear itself

Dakota Norman K. Risjord, 2013-01-01 The northern plains are often ignored by the rest of the nation or if not are mentioned in the context of the weather Mount Rushmore or the Black Hills However North Dakota and South Dakota have a colorful past and present deserving of greater recognition Norman K Risjord relates the remarkable histories of these two states from the geological formation of the Great Plains to economic changes in the twenty first century Risjord takes the reader on a journey through the centuries detailing the first human inhabitants of the northern plains the Lewis and Clark expedition homesteading and railroad building the political influence of the Progressive movement the building of Mount Rushmore and Wounded Knee II Included are stories of such noteworthy characters as French explorer V rendrye the Lakota leader Red Cloud North Dakota political boss Alexander McKenzie and South Dakota Democrat George S McGovern Despite the shared topography and the rivers that course through both states the diverse reactions of the two states to the challenges of the twentieth century provide opportunities for arresting comparisons This captivating look at the Dakotas geography ecology politics and culture is essential reading for Dakotans and those interested in the rich history of this important region

The Fundamental Institution Megan Birk, 2022-04-12 By the early 1900s the poor farm had become a ubiquitous part of America s social welfare system Megan Birk s history of this foundational but forgotten institution focuses on the connection between agriculture provisions for the disadvantaged and the daily realities of life at poor farms Conceived as an inexpensive way to provide care for the indigent poor farms in fact attracted wards that ranged from abused wives and the elderly to orphans the disabled and disaster victims Most people arrived unable rather than unwilling to work some because of physical problems others due to a lack of skills or because a changing labor market had left them behind Birk blends the personal stories of participants with institutional histories to reveal a loose knit system that provided a measure of care to everyone without an overarching philosophy of reform or rehabilitation In depth and innovative The Fundamental Institution offers an overdue portrait of rural

social welfare in the United States Mobility and Corporeality in Nineteenth- to Twenty-First-Century Anglophone Literature Jaine Chemmachery, Bhawana Jain, 2021-05-19 Mobility and Corporeality in 19th and 21st Century Anglophone Literature Bodies in Motion aims at exploring the intersection of literary mobility and body studies in Anglophone literature from the 19th century to the 21st century Corporeal mobility includes a variety of mobile bodies that have long been othered and marginalised due to issues pertaining to gender disability race and class Yet there is a relative lack of academic work on it despite the fact that Anglophone literature has increasingly portrayed the circulation of characters objects and information since the 19th century echoing the many types of mobility that have occurred through processes of colonisation decolonisation and globalisation This book therefore discusses the ways in which literatures produced in the English speaking world challenge normative depictions of bodies on the move and reconceptualise them by making corporeality an essential feature of movement across the world *Calling this Place Home* Joan M. Jensen, 2006 From the nuns who built Wisconsin s hospitals to the Menominee Indians who maintained control of their forests and culture the stories of these representative but often overlooked women bring a deeper understanding of the state s history and the broader developments that shaped women s lives BOOK JACKET **Great Plains Quarterly** ,2007 *Great Lakes and Midwest Catalog* Partners Book Distributing, 2007 **North Dakota History** ,2015 Journal of the Northern Plains **America, History and Life** ,2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada **The Publishers Weekly** ,2005 *Bibliographic Index* ,2009 **Joyce in the Belly of the Big Truck; Workbook** Joyce A.
