Raymond Thompson Jr.

Hawks Nest Incident:

The Hawk's Nest Incident Martin Cherniack, 1989-03-01 Documents Union Carbide's construction in the 1930s of the Hawk's Nest Tunnel that allegedly caused the deaths of hundreds of workers through unsafe practices **Appalachian Ghost** Raymond Thompson Jr., 2024-03-13 In the early days of the Great Depression the search for steady work drove thousands of migrant laborers many of whom were African American from all over Appalachia to a rural area near Fayetteville West Virginia Union Carbide Corporation had begun construction on a three mile tunnel to divert the New River and many hands were needed Toiling for five years in confined spaces with poor ventilation no means of dust control and limited use of personal breathing protection the workers were repeatedly exposed to pure silica dust Many developed silicosis an incurable and debilitating lung disease that is estimated to have caused the deaths of nearly eight hundred workers two thirds of whom were Black Soon after the US House of Representatives Committee on Labor classified silicosis as an occupational hazard Despite the disaster's impact information about its severity was largely suppressed a decision that ensured the event faded quickly from public memory Aside from a small plaque at Hawk's Nest State Park which inaccurately admits to only 109 victims there is little to mark the site of the worst industrial accident to date in the United States In **Appalachian Ghost: A Photographic Reimagining of the Hawk's Nest Tunnel Disaster** author Raymond Thompson Jr explores the possibilities of that tragedy by reviving the faces and spaces of Hawk's Nest Using primary source materials to re create the workers experiences in photographs Thompson recontextualizes archival images to present a counter archive that positions the Black experience at Hawk's Nest within the larger story of the American labor landscape His photographs and poetry give voice to the silenced resisting revisionist narratives that often ignore the sacrifices of African Americans and erase their instrumental role in the development of America's infrastructure **The Hawks Nest Tunnel** Patricia Spangler, 2008-02 **Hawks Nest** William Crandall, Parnell, John Alan Parnell, John E. Spillan, 2016 This case looks at serious safety violations in the workplace focussing on the example of a tunnel built by the engineering company Rinehart and Dennis in West Virginia By cutting safety costs they saved money at the expense of their worker's lives and health

Gasping for Air Kevin Glynn, 2017-08-03 Breathing is a continuous battle between our need for oxygen and forces in nature that attack our lungs Three hundred thousand Americans will die of respiratory diseases this year *Gasping for Air* is the dramatic story of how infections toxins carcinogens and air pollution strike against one of our basic body functions The book also describes how we come into the struggle with diseases like asthma cystic fibrosis and sleep apnea which make us vulnerable to assaults on breathing from without and within We have powerful weapons to defend breathing Medical science public health engineering and business all play important roles in the effort to support breathing Yet *Gasping for Air* also reminds readers how breathing support has been at the eye of the storm in many ethical dilemmas of modern healthcare Here Kevin Glynn an experienced pulmonologist and lifelong asthma sufferer tells stories about the third most common cause

of premature deaths in the developed world describes lethal forces in Nature infections genetic predispositions and from human activities dusty occupations tobacco smoking chemical toxins drug overdoses that threaten to suffocate us and offers sage advice for how to prevent and address those threats and the damage they cause Hawks Nest Juneus Kendall,2012-07-01 During the Great Depression Union Carbide constructed a tunnel on the New River in WV In the process an unknown number of men died Because they were mostly poor itinerant Negroes without advocates their plight was largely ignored No one knows how many died and the government was of little help There were a few whose lives rose above their circumstances This is the story of one of those couples **Crisis Management** William Rick Crandall,John A. Parnell,John E. Spillan,2013-02-27 Offering a strategic orientation to crisis management this fully updated edition of Crandall Parnell and Spillan s *Crisis Management* helps readers understand the importance of planning for crises within the wider framework of an organization s regular strategic management process This strikingly engaging and easy to follow text focuses on a four stage crisis management framework 1 Landscape Survey identifying potential crisis vulnerabilities 2 Strategic Planning organizing the crisis management team and writing the plan 3 Crisis Management addressing the crisis when it occurs and 4 Organizational Learning applying lessons from crises so they will be prevented or mitigated in the future The second edition emphasizes the importance of managing both the internal landscape those stakeholders within the organization such as the employees owners and management and the external landscape those stakeholders outside of the organization such as the media customers suppliers general public government agencies and special interest groups *Endless Holocausts* David Michael Smith,2023 The U S Empire has relied upon an almost unimaginable loss of life from its inception during the European colonial period to the present And yet in the face of a series of endless holocausts at home and abroad the doctrine of American exceptionalism has plagued the globe for over a century In *Endless Holocausts* author David Michael Smith demolishes the myth of exceptionalism by demonstrating that manifold forms of mass death far from being unfortunate exceptions to an otherwise benign historical record have been indispensable in the rise of the wealthiest and most powerful imperium in the history of the world At the same time Smith points to an extraordinary history of resistance by Indigenous peoples people of African descent people in other nations brutalized by U S imperialism workers and democratic minded people around the world determined to fight for common dignity and the sake of the greater good Back cover Witness at Hawks Nest Dwight Harshbarger,2009-08-01 **The Wrong Complexion for Protection** Robert D. Bullard,Beverly Wright,2023-09-05 Uncovers the ways the United States government responds to natural and human induced disasters in relation to race over the past eight decades When the images of desperate hungry thirsty sick mostly black people circulated in the aftermath of Hurricane Katrina it became apparent to the whole country that race did indeed matter when it came to government assistance In *The Wrong Complexion for Protection* Robert D Bullard and Beverly Wright place the government response to natural and human induced disasters in historical context over the past eight decades They compare and contrast

how the government responded to emergencies including environmental and public health emergencies toxic contamination industrial accidents bioterrorism threats and show that African Americans are disproportionately affected Bullard and Wright argue that uncovering and eliminating disparate disaster response can mean the difference between life and death for those most vulnerable in disastrous times

Deadly Dust David Rosner, Gerald Markowitz, 1994 During the Depression silicosis an industrial lung disease emerged as a national social crisis Experts estimated that hundreds of thousands of workers were at risk of disease disability and death by inhaling silica in mines foundries and quarries By the 1950s however silicosis was nearly forgotten by the media and health professionals Asking what makes a health threat a public issue David Rosner and Gerald Markowitz examine how a culture defines disease and how disease itself is understood at different moments in history They also consider who should assume responsibility for occupational disease

In many communities across North America in the 1960s and 1970s the rural relocation movement became both a way of life and a path forward for many people inclined to buck the mainstream and Paul Salstrom embraced it His experiences in rural Lincoln County West Virginia led him to the self sufficient neighborly networking lifestyle well known in many Appalachian communities since the early nineteenth century In Appalachia s Alternative to Mainstream America Salstrom outlines his Appalachian experiences in a memoir revisiting this back to the land tradition that guided his cultural experience during this time While he pursued a number of experimental alternatives to a mainstream way of life during the late 1960s it was not until he landed in Lincoln County a few years later that he found himself engaging in an alternative way of living that didn t

feel experimental at all This distinctive way of life was largely characterized by a closer connection to the earth local sufficiency informed by homesteading subsistence farming and gardening and the community wide trading of favors in a spirit of mutual aid Over time Salstrom s engagement in this neighborly occupation has nurtured an informed belief that Americans will be drawn back to landed customs taking care of the earth and of one another to thrive as individuals and communities Facing today s pandemics climate change and deepening political divisions says Salstrom Americans urgently need to create a groundswell of localized food security and energy production **Reducing Toxics** Robert
