The Catholic Tradition Thomas Langan, 1998 Langan philosophy U of Toronto examines the history of the Catholic Church and the origins of its teachings since the Church's conception Although committed to the Catholic religion he does not obscure the Church's failings as he lays out the fundamentals of the faith He provides insights into the great Christological councils discusses the differences in the spiritualities of East and West and portrays the crucial roles that the pope and bishops played during the Middle Ages Incorporating the thought of Augustine Aquinas and medieval Catholicism he traces the rise and decline of Christian Europe and the issues raised by reform Annotation copyrighted by Book News Inc Portland OR

He Dwells in Our Midst Terence Lozynsky, 1988 **Eastern Orthodox Christianity and Animal Suffering** Christine Nellist, 2018-10-25 This book is the first academic work in Eastern Orthodox theological literature on the subject of animal suffering and human soteriology It represents a natural progression of the contemporary Eastern Orthodox academic debate on the environment and will be of interest not only to academic scholars in theology religion philosophy and ethics but also to the wider Christian and secular communities Using Biblical and Patristic teachings together with new social science research and contemporary science it presents arguments that animal suffering is against God's Will and that the abuse or misuse of animals or indifference to animal suffering will result in negative consequences for human salvation The book posits a revisionist interpretation of the Noahic narrative when addressing the challenging question of why God allows the dispensation of animals as food and offers compelling arguments on why the contemporary animal food production industries and animal testing model should be rejected **Canadian Books in Print**, 1998 *Christian Meditation in Clinical Practice* Joshua J. Knabb, 2021-11-30 What would it look like to turn to the Christian faith to cultivate meditation practices Presenting Christian meditation as an alternative to Buddhist informed mindfulness this workbook from Dr Joshua Knabb offers a Christian sensitive approach to meditation in clinical practice focusing on both building theory and providing replicable practices for Christian clients and their therapists

Christians and the Middle East Conflict Paul Rowe, John Dyck, Jens Zimmermann, 2014-06-20

Christians and the Middle East Conflict deals with the relationship of Christians and Christian theology to the various conflicts in the Middle East a topic that is often sensationalized but still insufficiently understood Political developments over the last two decades however have prompted observers to rediscover and examine the central role religious motivations play in shaping public discourses This book proceeds on the assumption that neither a focus on the eschatological nor a narrow understanding of the plight of Christians in the Middle East is sufficient Instead it is necessary to understand Christians in context and to explore the ways that Christian theology applies through the actions of Christians who have lived and continue to live through conflict in the region either as native inhabitants or interested foreign observers This volume addresses issues of concern to Christians from a theological perspective from the perspective of Christian responses to conflict throughout history and in reflection on the contemporary realities of Christians in the Middle East The essays in this volume combine contextual political and theological reflections written by both scholars and Christian activists and will be of interest to students and scholars of Politics Religion and Middle East Studies

Under One Roof: Uniting the Orthodox Church of America George E. Matsoukas, 2021-02-20 This is the second collection of essays compiled from opinion columns written during the period 2012 2020 when George Matsoukas served as executive director of Orthodox Christian Laity OCL The first collection *A Church in Captivity* The Greek Orthodox Church of America is also a collection of opinion columns this one written during the period 1990 2007 This series of observational essays can be considered a first cut in putting together the history of Orthodoxy in America during this 30 year period These essays also tell the OCL story and provide an insight into how the organization functions The essays are written from the point of view of how societal events and concerned faithful were energized to advance the mission of Orthodox Christian Laity OCL is a pan Orthodox educational and advocacy ministry formed in 1987 to advocate for the restoration and strengthening of the historic role of the laity in the conciliar governance of the Orthodox Church in the United States support the spiritual renewal and regeneration of the Orthodox Christian Church in the United States in its Apostolic Mission advocate for and promote transparency and accountability in the governance of the Orthodox Church in the United States advocate for and champion the establishment of an administratively and canonically unified self governing autocephalous Orthodox Christian Church in the United States Matsoukas musings in his first volume *A Church in Captivity* reflect the deep political changes transpiring after the fall of Communism in the captive Orthodox nations and then in what manner those

national churches began to respond to their diasporas those still existing multiple jurisdictions in The United States This weighing of the ongoing strain between those who continue to uphold that a unity through a simple Eucharistic oneness is sufficient and those who insist on a canonically unified Church administration is the stuff of volume two Under One Roof Uniting the Orthodox Church of America It is the fruit of the author s essays of the past 13 years Matsoukas objective is to call us to be faithful to the Canonical Tradition of the Church so that it can bring forth the fullest witness of Orthodoxy through uniting all Orthodox in The United States Considering the low percentage of Orthodox believers vis vis others in this nation the call to strength in unity makes practical sense as well There is strength in numbers Matsoukas reminds us that although we seem to be under one Eucharistic roof he calls for a oneness which must not be as a loose federation of jurisdictions dependent on Synods abroad but an authentic unity in itself total canonical autocephalous as other local churches each became The reader is grateful for the wide coverage given us of thirteen years of new Orthodox witness in the six divisions Orthodox Christian Laity Story Promoting Unity Holy and Great Council Assembly of Bishops Greek Orthodox Archdiocese Renewal of this new volume The reader can take each article one by one and enjoy the author s convincing presentations and then sit back and enjoy arguing with him Can an assembly of jurisdictions occasionally gathered at an altar receiving from one cup and one diskos be the fullness of Orthodox witness under one roof The author s answer is an emphatic No

The Sacred in Music Albert L. Blackwell, 1999-04-15 Religion and music are complementary resources for interpreting our lives Music serves the sacred in ways that can be specified and articulated yet the connection between them has been sorely neglected in the scholarly study of religion In *The Sacred in Music* Albert Blackwell brings the two subjects together in a celebration of the rich Western musical tradition both classical and Christian

A Brush with God Peter Pearson, 2005-10 Step by step instructions for painting icons from original drawings through finished product For more than a thousand years Eastern Christians have used their hands and hearts to create icons proclaiming God s reality in a visible and breathtakingly beautiful way This ancient art is enjoying a renewed interest in the West as people of faith create icons and use them to meditate on mysteries for which there are no words *A Brush with God* is a guide to painting icons and using them in prayer Written with warmth and energy it describes the history of icons and examines why they ve been a spiritual tool for so many centuries Written from a uniquely Western perspective the book guides artists from novices to professionals through the process of icon painting using traditional techniques but employing contemporary materials Included are eight full color plates of the artist s icons

Authentic Christianity Gordon Haresign, 2014-05 *Authentic Christianity* is an insightful and timely wake up call to every Christian today If you want to rediscover what the church is all about this is a good place to start

Whitney T Kuniholm president Scripture Union USA *Authentic Christianity* is more than a scholarly exposition of the first

three chapters of the book of Revelation The book takes you on a tour from the small island of Patmos in the Aegean Sea to the sites of seven ancient cities in what was known as Asia Minor The messages Christ conveyed to the churches in those cities are as stunning today as they were then The author relates those messages into direct confrontation and challenge as he builds a convincing case for the display of authentic Christianity Authentic Christianity captures attention from the outset as it not only examines Christ s critique of those churches at the end of the first century it exposes today s churches In light of the church s declining influence in the world the author makes an exceptionally strong appeal for those who call themselves Christians to be authentic Authentic Christianity exalts Christ s role in the church and reflects the high standard expected of Christians today In an age when the church is increasingly scorned the author sounds a clarion call for repentance and revival This is a compelling read The book containing personal and practical illustrations is a dynamic challenge to bring one s life into conformity with Christ s expectations The reader cannot possibly remain indifferent after reading the book and seriously considering its timely message The book is an appeal for action change revival and authenticity

The Seat of Consciousness in Ancient Literature Richard E. Lind,2015-01-09 For early civilizations consciousness and the sense of self were experienced as located in the center of the body most often near to or within the physical heart Enlightenment was understood as the illumination of a transformed spiritual heart Thus the mind of the body as a whole was represented by the heart soul In contrast modern culture places consciousness within the brain resulting in a mind body dualism This separation of mind and body has recently been emphasized as characteristic of the psychopathologies of the modern self This volume explores the understanding and experience of consciousness in the earliest civilizations before about 500 BCE Beginning with a description of ancient Western and Eastern heart consciousness the psychological and spiritual manifestations of the ancient mature heart soul are summarized Ancestor worship lineage identity primitive consciousness and the ways in which the external world was mirrored by the inner world provide additional clues about the experience of heart consciousness Finally the work addresses the fundamental changes in the experience of consciousness that led to the mind body dualism of today
