Restorative Justice and Practice in US Education Kenneth R. Roth,Felix Kumah-Abiwu,Zachary S. Ritter,2024-11-29 This edited volume offers a comprehensive overview of the dual concepts of Restorative Justice as a legal remedy and Restorative Practice as a philosophy to reduce harm and build resilient and just communities within social cultural and educational institutions With contributions from leading practitioners and scholars the book serves as a valuable resource for institutions seeking to center equity and reduce harm in multicultural learning spaces Chapters combine insights into the origins and intent of Restorative Justice and Practice showcase some of their early applications in higher education settings and beyond and highlight their potential for promoting

peace and building community on campuses across the country *Critical Pedagogy for Healing* Tricia Kress, Christopher Emdin, Robert Lake, 2021-12-02 This is the first book to explicitly link healing and wellness practices with critical pedagogy Bringing together scholars from Brazil Canada Malta and the USA the chapters combine critical pedagogy and social justice education to reorient the conversation around wellness in teaching and learning Working against white Eurocentric narratives of wellness in schools which focus on the symptoms not the causes of society's sickness the authors argue for a soul revival of education which tackles head on the causes of dis ease in society from institutional racism colonialism xenophobia and patriarchy The contributors provide fresh perspectives that address short term goals of wellness alongside long term goals of healing in schools and society by attending to underlying causes of social sickness The chapters bridge theory and practice bringing diverse historical and contemporary philosophical discussions around wellness into contact with concrete examples of the interconnections between wellness education and social justice Examples of topics covered include Buddhist practices for healing Black liberation theology hip hop pedagogy anxiety and vulnerability art therapy and story telling *From Harm to Healing* Ruth Montiel Arias, Liz Tyson, 2024-09-17 A moving and engrossing photographic narrative exploring the lives past and present of some of the rescued monkeys currently residing at the Born Free USA Primate Sanctuary in South Texas USA *From Harm to Healing* combines photography and narrative to explore the stories of eight monkeys rescued from traumatic and abusive situations and rehomed to one of the largest animal sanctuaries in the United States the Born Free Primate Sanctuary With an honest and open approach to the work of sanctuaries the book seeks to consider the complexities and challenges of life after rescue It posits the work of sanctuaries not simply as a happily ever after for victims of the pet trade vivisection and zoos but as a journey toward recovery that may take years or even decades Wild animals such as monkeys remain caged even in sanctuaries of the absolute highest standards Understanding this the book explores the ethical obligations and challenges faced by the staff as well as the monkeys and their individual obstacles that must be overcome in the journey to recovery Ultimately *From Harm to Healing* seeks to share the individual tales of the monkeys from their perspective and makes the case that while sanctuaries are vital to protect animals from further harm they are not the answer to end animal suffering Indeed the only way in which we can end the suffering of exploited wild animals is to tackle the source head on In the meantime sanctuaries continue to pick up the pieces and do what they can to help victims of exploitation move from situations of harm to those of healing **Chinese Traditional Healing (3 vols)** Paul Unschuld, Jinsheng ZHENG, 2014-05-09 Research on past knowledge practices personnel and institutions of Chinese health care has focussed on printed text for many decades The Berlin collections of handwritten Chinese volumes on health and healing from the past 400 years provide a hitherto unprecedented access to a wide range of data They extend the reach of medical historiography beyond the literature written by and for a small social elite to the reality of health care as practiced by private households lay healers pharmacists professional doctors magicians itinerant healers and others The nearly 900

volumes surveyed here for the first time demonstrate the heterogeneity of Chinese traditional healing. They evidence the continuation of millennia old therapeutic approaches long discarded by the elite and they show continuous adaptation to more recent trends.

Healers, Harmed & Harmful Conrad Weiser, 1994. At a time when clergy misconduct is broadly reported, Conrad Weiser offers a straight forward, theoretically orthodox and practical way of both understanding and addressing the issues. Leadership, laity and clergy would be served well by reading and reflecting on Weiser's wisdom. Fr Canice Connors OFM.

Healing a Village Mark Lefebvre, 2025-06-10. Offers a hopeful practical blueprint for building community based recovery systems to combat addiction and save lives. This book is about hope. Over 107 000 fellow Americans died in 2023 from drug overdoses and another 178 000 died from excessive alcohol use. Lethal illicit drugs such as fentanyl, methamphetamine and xylazine are showing up on our streets and poisoning our fellow citizens, including those who may not even intend to use these toxic synthetic drugs. *Healing a Village* details a plan to build recovery capacity within a community to remove barriers and improve access to service for individuals and families seeking help from addiction. The author provides real life examples of successful community coalitions that have delivered positive outcomes for their communities, from prevention to harm reduction to treatment to recovery support. Lefebvre, the author, shares from his own experiences. When I exited our local hospital following a 4 day detox, there were no treatment and recovery resources within my community. I was forced to travel to the west coast for treatment. That is no longer the case in my community today. A case study of the Greater Portsmouth NH Recovery Coalition provides a deep dive on each of the elements of a Recovery Ready Community. The author uses personal struggles and successes in building recovery coalitions to validate the book's thesis of hope.

The Story of Life Christopher McKeon, 2022-08-01. Creator, do you have a family? Said my youngest. And he answered, Thus began our healing through awareness with Mina. How we address the human person, God who built our universe, the archangels and many others in spirit world. Our explosive conversation over the next 18 hours revealed God, angels, humanity, why we are as we are and our universe as never before imagined. Spirit mediums, Christopher McKeon and his daughters Ayako and El, shatter the paradigms and magical thinking handed down to us through history by religion, philosophy, mysticism and science. Experience as we did healing of your trauma, pain and suffering through gaining awareness of your true reality. Included are ten historical spirit persons who give short testimonies of their experiences to help explain certain aspects of our your life reality. You'll never feel the same or look at the world around you the way you did as your awareness takes flight from unawareness with new wings on new winds. Be prepared for a story of life like nothing you've ever experienced. Best of all, you'll learn how you too can talk to Mina, angels, your spirit family and guides, and willing spirit persons to get your own answers without having to take ours on faith as a ground floor participant in the nascent worldwide energy testing community. For Mina, this book is all about healing your pain and suffering by revealing our personal and larger human reality. You'll find it all inside. A chapter summary. Part I is a narrative of our experience discovering energy.

Kostovicova, 2020-04-24 The concepts of reconciliation and transitional justice are inextricably linked in a new body of normative meta theory underpinned by claims related to their effects in managing the transformation of deeply divided societies to a more stable and more democratic basis This edited volume is dedicated to a critical re examination of the key premises on which the debates in this field pivot The contributions problematise core concepts such as victimhood accountability justice and reconciliation itself and provide a comparative perspective on the ethnic ideological racial and structural divisions to understand their rootedness in local contexts and to evaluate how they shape and constrain moving beyond conflict With its systematic empirical analysis of a geographic and historic range of conflicts involving ethnic and racial groups the volume furthers our grasp of contradictions often involved in transitional justice scholarship and practice and how they may undermine the very goals of peace stability and reconciliation that they seek to promote This book was originally published as a special issue of Ethnic and Racial Studies Crime, Governance and Existential Predicaments

James Hardie-Bick, 2011-11-08 This collection focuses on the existential predicaments and choices that underpin current debates and developments in the governance of crime and criminal justice and argues for the relevance of existentialist thought for enhancing a critical and philosophically inspired criminological imagination **Doing Harm** Maya

Dusenbery, 2018-03-06 Editor of the award winning site Feministing com Maya Dusenbery brings together scientific and

sociological research interviews with doctors and researchers and personal stories from women across the country to provide the first comprehensive accessible look at how sexism in medicine harms women today In *Doing Harm* Dusenbery explores the deep systemic problems that underlie women's experiences of feeling dismissed by the medical system Women have been discharged from the emergency room mid heart attack with a prescription for anti anxiety meds while others with autoimmune diseases have been labeled chronic complainers for years before being properly diagnosed Women with endometriosis have been told they are just overreacting to normal menstrual cramps while still others have contested illnesses like chronic fatigue syndrome and fibromyalgia that dogged by psychosomatic suspicions have yet to be fully accepted as real diseases by the whole of the profession An eye opening read for patients and health care providers alike *Doing Harm* shows how women suffer because the medical community knows relatively less about their diseases and bodies and too often doesn't trust their reports of their symptoms The research community has neglected conditions that disproportionately affect women and paid little attention to biological differences between the sexes in everything from drug metabolism to the disease factors even the symptoms of a heart attack Meanwhile a long history of viewing women as especially prone to hysteria reverberates to the present day leaving women battling against a stereotype that they're hypochondriacs whose ailments are likely to be all in their heads Offering a clear eyed explanation of the root causes of this insidious and entrenched bias and laying out its sometimes catastrophic consequences *Doing Harm* is a rallying wake up call that will change the way we look at health care for women

Medical Misinformation and Social Harm in Non-Science Based Health Practices Anita Lavorgna, Anna Di Ronco, 2019-10-18 Fraudulent harmful or at best useless pharmaceutical and therapeutic approaches developed outside science based medicine have boomed in recent years especially due to the commercialisation of cyberspace The latter has played a fundamental role in the rise of false health experts and in the creation of filter bubbles and echo chambers that have contributed to the formation of highly polarised debates on non science based health practices online as well as offline By adopting a multidisciplinary approach this edited book brings together contributions of international academics and practitioners from criminology digital sociology health psychology medicine law physics and journalism where they critically analyse different types of non science based health approaches With this volume we aim to reconcile different scientific understandings of these practices synthesising a variety of empirical theoretical and interpretative approaches and exploring the challenges implications and potential remedies to the spread of dangerous and misleading health information This edited book will offer some food for thought not only to students and academics in the social sciences health psychology and medicine among other disciplines but also to medical practitioners science journalists debunkers policy makers and the general public as they might all benefit from a greater awareness and critical knowledge of the harms caused by non scientific health practices
