Healing And Hope Memories Of An Irish Ecumenist:

Healing and Hope Michael Hurley, 2003 Hurley co founder and Director of the Irish School of Ecumenics here reflects on his forty years and more of ecumenical experience He discusses his boyhood in Co Waterford and his Jesuit studies in Rome as well as in Ireland in a search for the *Ecumenics from the Rim* John D'Arcy May, 2007 John D Arcy May s achievements motivate these essays on ecumenics Amid today s scepticism about the ecumenical movement s relevance the authors demonstrate the necessity of working together for the betterment of all This book deepens our understanding of how theology peace and reconciliation studies and interfaith dialogue critically cooperate for the flourishing of earth s life The perspective of church unity amid ecclesial division is broadened to embrace interfaith and intercultural issues ecumenics becomes visible as the intellectual paradigm of our times

Conflict, Controversy and Co-operation Norman W. Taggart, 2004 This is the story of the Irish Council of Churches ICC between 1968 and 1972 the first four years of the troubles It contains important new material and traces the first formal contacts between the Irish Council of Churches its member churches and the Roman Catholic Church

One Body in Christ Owen F. Cummings, 2015-01-14 Many feel that work for Christian unity or ecumenism is not especially urgent or important in the complexities of our contemporary world So many different issues demand the attention of committed Christians for example responding to global crises in which people are suffering developing strong moral stands on a variety of moral problems and challenges etc Such issues must remain of major importance to Christians However Christians form the one Body of Christ If that Body continues to remain divided and fragmented lacking in unity concord and harmony then Christian witness will be singularly diminished This book attempts to demonstrate the importance of Christian unity ecumenism by looking at important contributions of individual theologians and important texts events mainly of the twentieth century The use of this book may help theologians and pastors urge forward the practice of ecumenism so that in God s time divided Christians may all be one

Look Back in Hope Keith W. Clements, 2017-07-07 A child of China missionary parents Keith Clements looks back on a life rich in diverse experiences in many parts of the world as pastor theologian writer and servant of the ecumenical movement In so doing he finds hope for the creation of true community in the world of people among themselves with God and with creation That is what the gospel of Christ is all about what the

church is about and indeed what God who lives and loves as three in one is all about He recalls instances of grace in which even amid conflict and tragedy people churches and communities discover the possibilities of new life together It is both a very human story of personal faith and an insider's account of ecumenical Christianity's quest for a more visibly united church and a world of peace and justice Famous influences like Dietrich Bonhoeffer and present day leaders such as Desmond Tutu figure prominently but so do so called ordinary people he has met over the years whether in an English village in communist East Germany or in a South African squatter camp who have shown by the way they live that another world and another kind of church is possible Journal of Ecumenical Studies, 1989 The Unity We Have and the Unity We Seek Jeremy Morris, Nicholas Sagovsky, 2003-07-01 This book contains twelve studies by well qualified authors many of them already very well known in the field of ecumenism It represents a stocktaking at the end of the twentieth century of the unity we have and a reassessment of the unity we seek It provides a well documented overview of the field a thorough and accessible introduction for everyone with an interest in ecumenism and an invaluable resource for everyone involved at any level A substantial section charts some of the major ecumenical developments of the twentieth century and some of the new problems that have emerged **Icon of the Kingdom of God** Radu Bordeianu, 2023-05-19 What is the Church Some would answer this question by studying the Scriptures the history of the Church and contemporary theologians thus addressing the theological nature of the Church Others would answer based on statistics interviews and personal observation thus focusing on the experience of the Church These theological and experiential perspectives are in tension or at times even opposed Whereas the first might speak about the local church as the diocese gathered in the Liturgy presided over by its bishop the latter would describe the local church as the parish community celebrating the Liturgy together with the parish priest never experiencing a sole liturgy that gathers an entire diocese around its bishop Whereas a theologian might abstractly describe the Church as a reflection of the Trinity a regular church member might concretely experience the Church as a community that manifests the Kingdom of God in its outreach ministries Radu Bordeianu attempts to bring these two perspectives together starting from the concrete experience of the Church engaging this experience with the theological tradition of the Church extracting ecclesiological principles from this combined approach and then highlighting concrete situations that reflect those standards or proposing correctives when necessary Without pretending to be a complete Orthodox ecclesiology **Icon of the Kingdom of God** addresses the most important topics related to the Church It progresses according to one's experience of the Church from baptism to the family parish Liturgy and priesthood followed by analyses of synodality and nationality Arguing that the Church is an icon of the Kingdom of God this volume brings together the past theological heritage and the present experience of the Church while having three methodological characteristics experiential Kingdom centered and ecumenical **Celebrating the Saints** Robert Atwell, 2017-02-27 For every major feast saint's day and commemoration in the calendars of the Anglican churches of the UK this liturgical resource and spiritual companion offers a

feast of readings that reflects the richness depth and variety of the Christian tradition from the earliest years of the church to the present day Writings from across the centuries represent the Eastern Western Roman and Celtic traditions and constitute a vibrant history of Christianity manifested in the lives of hundreds of holy men and women as diverse as first century martyrs or twentieth century social reformers A complementary volume to Exciting Holiness which provides scripture readings and prayers for the calendar this is now updated to include the additional commemorations in the Church of England s calendar of saints
