International Symposium on World

Ecological Design Fangtian Ying, L.C. Jain, Ran Wan, Qun Wu, 2024-04-15 With the world facing increasingly serious global climate change and resource scarcity issues, ecology and the environment have received much attention in recent years. As a major factor in human activity, design plays an important part in protecting the environment, as does the role of digital technology in finding solutions to the pressing problems faced in this regard. This book presents the proceedings of ISWED2023, the International Symposium on World Ecological Design, held on 17 December 2023 in Guangzhou, China. Sponsored by the World Eco Design Conference, a UN Consultative NGO, the conference provides a platform for professionals and researchers from industry and academia to present and discuss recent advances in the field of ecological design. This year, the conference focused on the four topics of digital technology and health, digital technology and transportation, digital technology and energy, and digital technology and the environment. A total of 518 submissions on these topics were received for the conference, of which 125 were accepted for presentation and publication here. Providing a current overview of research and innovation in ecological design around the world, the book will be of interest to all those working in the fields of ecological design and digital technology integration.

New Cities and Community Extensions in Egypt and the Middle East Sahar Attia, Zeinab Shafik, Asmaa Ibrahim, 2018-06-01 This book seeks to push forward the boundaries of current practices and knowledge to embrace innovative solutions, novel approaches and grounded technologies within realistic comprehension of economic risks and environmental implications. It investigates different scales and situations, various urban forms and morphology and various localities and totalities. The book presents a platform of recent research findings and answers to pressing issues of building new cities and expanding existing ones in the Middle East and Egypt within their ecological limits, formulating images, architecture and public spaces to create liveable, working and productive cities. At the time of transformation, people continue to influence their habitat and beyond. While facing the compelling challenges of the present, innovative development poses itself as an inevitable response to future demands. In socio-economic

disparities and environmental crises innovation necessitates a mode of action to act responsibly in addressing issues in unconventional manners The production of space becomes a responsibility towards the development of human resources promoting their needs capacities and advancing a decent quality of life

Going Real: The Value of Design in the Era of PostCapitalism

Giovanni Innella, Marco Petroni, 2019-10-31 In the age of post capitalism what is the value of design Is value defined by economic potential Or is it something far less tangible Now more than ever design has the ability to engage us in economic political and cultural debate to actively resist the monotony of daily life and to counteract the precarious situation on which modern society seems to rest Positioning itself as a lens through which to view the world design allows us and in some cases even forces us to reflect on the many aspects of the societies in which we live Divided into three chapters GOING REAL positions itself in relation to the works of Marc Jongen Maurizio Lazzarato Adam Greenfield and Tiziana Terranova among others However unlike the abovementioned authors this book draws on the works of selected designers and artists to reflect on the economic political and cultural aspects of our post capitalist societies Beginning with an in depth case study of Detroit during the downfall of the industrial era this volume moves on to a timely and provocative insight into the human crises surrounding current migration trends with a particular focus on Calais Finally in the third chapter the human body itself is laid bare as the authors analyse how and why the most personal of spaces became not only the ultimate marketplace for businesses but also an object of control for governments *Redefining Spiritual Spaces in the Age of Technology* Stacey K. Guenther, Xiaoan Li, Michelle A. Scheidt, 2025-08-30 Emerging technologies are entering every aspect of human life including the spiritual realm At the same time spirituality has entered mainstream environments including business education health and healing and tech design This provides an opportunity for technology and wisdom traditions to evolve together due to the widening audiences and worldviews In this open access volume an assembly of experts explores the intersection of spirituality and technology as they are emerging in a variety of contexts in our world Through a mixture of philosophy advocacy presentation of research findings and sharing of practices this book illustrates technology s influence on spirituality and vice versa and its applications to management strategy and leadership At the same time contributing authors identify the surfacing pitfalls shadow material and areas that must be attended to during this time of evolving landscapes Additionally two of the chapters highlight virtual practices that focus on racial healing which are of crucial import at this time in our collective history and another two explore healing justice and liberation through the uses of technology Written in a think piece style this book is accessible to those within and outside of academia This is an open access book Environmental Psychology and Human Well-Being Ann Sloan Devlin, 2025-06-01 Environmental Psychology and Human Well Being Effects of Built and Natural Settings Second Edition provides an understanding on how mental and physical well being is affected by physical environments along with insights on how the design of environments might be improved to support better health outcomes The book s uniqueness emphasizes the impact of particular kinds of environments on humans e g cities therapeutic landscapes schools and thus considers the environment as the driver of behavior rather than starting with human attitudes and values In addition the content reviews the history discusses theoretical constructs research and design and provides up to date research survey findings New content on the effects of the pandemic on work and educational settings including

remote options as well as a new chapter on shelters in response to natural disasters is included Provides research based insights on how an environment can impact mental and physical health and well being Integrates core psychological constructs such as territoriality environmental stress privacy social support and perceived control across settings Covers educational settings workplace settings environments for active living housing for the elderly natural settings therapeutic environments correctional facilities the pandemic and more Includes new chapter on shelters in response to natural disasters and the COVID 19 pandemic

Design Tools for Evidence-Based Healthcare Design Michael Phiri, 2014-12-05 The growing movement towards evidence based healthcare design has largely emphasised a change of culture and attitudes It has advocated for new ways of working but until now it has not focused on equipping healthcare clients and their designers with the practical means to exploit the potential benefits from evidence based architectural design Development of indicators and tools that aid designers and users of the built environments in thinking about quality enhances the design process to achieve better outcomes Importantly design tools can support managers and designers through end user involvement and an increased understanding of what patients and staff expect from their healthcare facilities They can facilitate the creation of patient centred environments which improve user satisfaction

Design Tools for Evidence Based Healthcare Design Discusses the tools that are being used to achieve design quality and excellence within the context of NHS procurement systems such as PFI Procure21 and others Collates information that increases our understanding of these tools in order to be able to make the best use of them Clarifies where during the various stages of a building s life from inception design construction occupation and re use these tools should be used in order to derive the benefits possible from evidence based design Provides in one place an authoritative reference publication that will act as a memory a user guide and manual for these design tools Illustrated with case studies from throughout the UK and written by a well known expert in the field this book will provide essential reading for anyone involved in healthcare design
