**Healing Church:** Abigail Rian Evans, 2000-01-07 What role can churches and religious organizations play in health care today Abigail Rian Evans answers this question and others in this valuable guide to practical programs for health ministries Beginning with a survey of the history of health ministry in the church Evans demonstrates that what is needed is not to invent health ministries but to recapture the spirit of the church as a health institution both spiritual and physical She then goes on to show what practical programs exist in the world today and why these programs are important for the church to embrace and develop Comprehensive in scope this is an important resource for any individual or institution looking to develop or enhance a health ministry program *The Healing Church* Abigail Rian Evans, 1999 *Teaching Religion and Healing* Linda L. John, 2016-09-02 Healing of the sick is a prominent theme in the biblical narratives However when it comes to caring for the chronically and terminally sick there are no clear directives in the New Testament describing how the church may minister to them There are significant differences in the way many churches approach this matter Even among the charismatic churches that believe that the gifts of the Holy Spirit including miraculous healing are available to present day believers there are differences in the way the sick are cared for This book investigates the pastoral challenges with regard to chronic infirmities and terminal illnesses in a charismatic church context This is undertaken with the understanding that many who are chronically and terminally ill in this context present poor medical prognosis and have remained unhealed in spite of prayers Clear foundational values are drawn for defining the pastoral challenges and objectives Three true cases present in public domain are presented and analyzed to identify the challenges The pastoral care objectives are defined and strategies are drawn to meet these The findings and conclusions would be relevant to the pastors the sick and those who care for them and indeed the whole church The author is personally involved in the care of the sick as a practicing surgeon as well as a pastor Being a pastor in a charismatic church that believes in praying for miraculous healing of the sick and practicing modern medicine the author is faced with the challenges of pastoral care for those with poor medical prognosis who remain unhealed in spite of believing in prayers they are very close to his heart The author provides the foundational principles and goals in the pastoral care of such situations and outlines the strategies for doing so without compromising the conviction that Jesus Christ still heals the sick      **Keeping Faith in Faith-Based Organizations** Dean Pallant, 2012-03-05 The world's poorest people are struggling to access quality affordable health care Change is urgently required Faith based organizations deliver more than 40 percent of health services in many of the poorest places This book argues FBOs can and must deliver quality health services without sacrificing their faith in the process Dean Pallant asks an awkward question If its faith does not drive an FBO whose faith does Pallant visited Salvation Army health ministries in more than forty countries in four years and this book records his global reflections structured around a practical theological model of enquiry His goal is to identify a faithful future for hundreds of Salvation Army hospitals and clinics and thousands of congregation based health ministries Pallant finds answers in the work of Karl Polanyi John Wesley Stanley Hauerwas William Booth and Luke Bretherton among others Pallant challenges the bio medical definition of health and proposes a comprehensive appreciation of people as healthy persons the people God created us to be Pallant's proposals are bold and far reaching for the Salvation Army and other FBOs They are insightful and challenging for everyone of whatever faith committed to improve the health of the poorest people      Redeeming Marketplace Medicine Abigail Rian Evans, 2008-04-01 Asserting what most Americans already suspect that corporate based managed care places profits over patient care theologian Abigail Rian Evans points out that

medical experts have reduced health care to medical treatment under arrangements with health insurance plans and HMOs Her reasoned practical alternative engages Christian theology proposing a much broader concept of health care An important contribution to a critical discussion     Introducing Christian Theologies, Volume Two Victor I.
