**Beyond Liberal Peacebuilding** Elisa Randazzo, 2017-06-14 This book examines the logic behind the shifts and paradigm changes within the scholarship on peacebuilding In particular the book is concerned with examining if and how these shifts have significantly altered how we think about peacebuilding beyond the liberal peacebuilding paradigm To do so the book engages with the logic of critique that has led to the emergence of different theoretical approaches to peacebuilding from hands on institutionalisation to the local turn It uses the case of Kosovo to understand how a lessons learnt approach facilitated the shift towards more invasive and intrusive forms of peacebuilding first However it is also crucial to understanding the recent local turn as the rise of local ownership discourses in Kosovo is fundamentally tied to the critiques of extensive international missions and the associated resistance and marginalisation of local agency The book examines the implications of the framing of everyday agency in order to assess the extent to which these bottom up approaches have been able to by pass the problems attributed to the liberal peace approach It argues that despite its critical and radical intentions the local turn retains certain foundational modernist and positivist qualities that have so far characterised the very mainstream approaches these critiques claim to transcend This book will be of much interest to students of peacebuilding statebuilding peace and conflict studies security studies and International Relations in general

*The UNHCR and World Politics* Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees UNHCR to protect the world s refugees The UNHCR was created to be a human rights and advocacy organization But governments also created the agency to promote regional and international stability and to serve the interests of states Consequently the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics This is the first independent history of the UNHCR Gil Loescher one of the world s leading experts on refugee affairs draws upon decades of personal experience and research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how in turn the actions of the eight past High Commissioners have helped shape the course of world history Each chapter tells the story of an individual High Commissioner and examines the unique contributions made to the development of the Office The history of the last fifty years shows how the UNHCR has initiated and capitalized on international political developments to progressively expand its scope and authority as an important actor in world politics The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role The protection of refugees remains a litmus test of the international community s commitment to defend human rights and to uphold liberal

democratic values Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today      **International Democracy and the West** Richard Youngs, 2004-11-04 How have Western governments multinational companies and international NGOs sought to influence democratic trends in developing countries This major new study uses extensive empirical material to present a fresh analysis of Western policies in a number of developing regions since the 1990s      **Psychosocial Capacity Building in Response to Disasters** Joshua L. Miller, 2023-05-25 This book will prepare social workers psychologists and counselors for psychosocial work with individuals and groups who are experiencing distress and trauma resulting from historical and current sociopolitical oppression and violence Sociopolitical oppression is a sustained systematic catastrophe which results from social targeting and discrimination such as racism sexism and misogyny homophobia and anti immigrant fervor The consequences are profound and debilitating In some ways they are similar to reactions to a single event disaster e g hurricane earthquake terrorist attack but even more insidious because the social targeting and harassment have been ongoing and will continue As a guide for direct clinical practice this

**Historical Justice and Memory** Klaus Neumann, Janna Thompson, 2015-07-28

Historical Justice and Memory highlights the global movement for historical justice acknowledging and redressing historic wrongs as one of the most significant moral and social developments of our times. Such historic wrongs include acts of genocide, slavery, systems of apartheid, the systematic persecution of presumed enemies of the state, colonialism, and the oppression of or discrimination against ethnic or religious minorities. The historical justice movement has inspired the spread of truth and reconciliation processes around the world and has pushed governments to make reparations and apologies for past wrongs. It has changed the public understanding of justice and the role of memory. In this book, leading scholars in philosophy, history, political science, and semiotics offer new essays that discuss and assess these momentous global developments. They evaluate the strength and weaknesses of the movement, its accomplishments and failings, its philosophical assumptions and social preconditions, and its prospects for the future.
