illness and how we can strengthen its campaign by utilizing the connection between the Subconscious Mind with the Immune System as it relates to Cancer In practical terms Lerner s breakthrough methodology which is grounded in the scientific study of Psychoneuroimmunology PNI is designed to maximize the efficacy of modern medical cancer treatments and improve the odds of a full recovery It highlights the multi dimensional nature of our being and the need for healing to take place not only on a physical level by treating the body but also on the level of the Mind which produced the internal environment in which cancer could flourish in the first place Offering the reader a new way to see and relate to their illness this book will inspire those who wish to actively participate in their own care with a goal oriented methodology to override fear self sabotage and negativity heal deep seated patterns of trauma boost immune function and ultimately develop a more favorable attitude toward treatment medicine and outcome
