Solis,2018-11-02 Realizing the potential you have to awaken to your power as an enlightened being is central to authentic healing There is a significant distinction between superficially healing wounds and authentically healing If you feel ready to surrender all pain and struggle Divine Healing is a must read Delivered as both a story and a practice the author compassionately shares her journey to become whole after the suicide of her daughter in 2005 Though written in the context of the parental grief experience Divine Healing is intended for anyone who desires authentic healing Each chapter a journey in itself reminds us of the eternal truths that teach that all healing is possible despite the origin of any pain The lessons while not confined to only one experience in pain reach into the core root of all suffering and will guide anyone through any difficulty to find peace and joy Not only will you develop a richer understanding of suffering and healing including viewing loss and grief differently but by learning to work with the angels you will reclaim your power as the authentic being you already are You will learn to honor all of your hurtful experiences and trust in your ability to become whole on your own terms Realizing you are the catalyst for your own powerful transformation Divine Healing inspires you to courageously want more for your life and teaches you how to continually manifest the life you were meant to find and enjoy through a realistic heartfelt practice **Healing Pain** Nini Leick,Marianne Davidsen-Nielsen,1991 Why is someone who is affected by grief
