Trauma and Expressive Arts Therapy Cathy A. Malchiodi, 2020-03-27 Psychological trauma can be a life changing experience that affects multiple facets of health and well being The nature of trauma is to impact the mind and body in unpredictable and multidimensional ways It can be a highly subjective that is difficult or even impossible to explain with words It also can impact the body in highly individualized ways and result in complex symptoms that affect memory social engagement and quality of life While many people overcome trauma with resilience and without long term effects many do not Trauma's impact often requires approaches that address the sensory based experiences many survivors report The expressive arts therapy the purposeful application of art music dance movement dramatic enactment creative writing and imaginative play are largely non verbal ways of self expression of feelings and perceptions More importantly they are action oriented and tap implicit embodied experiences of trauma that can defy expression through verbal therapy or logic Based on current evidence based and emerging brain body practices there are eight key reasons for including expressive arts in trauma intervention covered in this book 1 letting the senses tell the story 2 self soothing mind and body 3 engaging the body 4 enhancing nonverbal communication 5 recovering self efficacy 6 rescripting the trauma story 7 making meaning and 8 restoring aliveness The Practice of Love Lair Torrent, 2022-02-15 A master class in relationship repair and connection At its core this book delivers an inconvenient truth Our relationships have to be a daily practice if we want them to thrive We should treat them like we treat anything that we want to succeed by giving them time and attention For far too long it has been assumed that we should innately understand how to love one another Relationships have fallen into the category of things we should know how to do But we are not born knowing how to make a relationship work any more than we are born knowing how to file taxes or buy insurance and there are no classes in high school or college that teach us how to do this The Practice of Love is that class In his work Lair Torrent a licensed marriage and family therapist brings together concepts and tools that can actually help couples heal for the long haul Diving beneath the symptoms most therapies focus on he helps couples develop a deeper understanding of the wounds that brought them together and how they show up in their

relationships The 5 Practices gives the reader an opportunity to weed out and take responsibility for limiting or negative habits while allowing them to learn and adopt new and healthier practices with their partner These are not short term solutions but rather a path to profound healing deeper connection and stronger happier relationships
