#### **Impact Evaluation of Transport Interventions**

David A. Raitzer, Nina Blöndal, Jasmin Sibai, 2019-04-01 This publication aims to support impact evaluation in the transport sector by assessing what has been produced against what might be possible It reviews 91 impact evaluations of transport interventions in developing countries summarizes findings on outcomes identifies evidence gaps and proposes ways forward Most of the studies reviewed find significant effects on at least one of the outcomes investigated However impact evaluation has given relatively little coverage to major areas of investment such as urban and sustainable transportation transport corridors and efficiency enhancing measures New methods and increasing openness of geospatial data provide scope to generate more innovative impact studies

#### **Technical Challenges of Multipollutant Air Quality Management**

George M. Hidy, Jeffrey R. Brook, Kenneth L. Demerjian, Luisa T. Molina, William T. Pennell, Richard D. Scheffe, 2011-07-30 Recent critiques of air quality management approaches currently employed in developed and many developing countries have suggested that efficiencies could be achieved if air quality management practices shifted from pollutant by pollutant approaches to a comprehensive multipollutant approach in which emission reduction decisions are based on relative risk and evaluated on their effectiveness in meeting environmental and health goals This book assesses our technical readiness to undertake such an approach and it outlines the technical developments that will be needed to achieve a risk based approach air quality management that includes means for measuring the effectiveness of management decisions
