**The Frontiers of Citizenship** Michael Moran,Ursula Vogel,2016-07-27 Who is entitled to be a citizen What rights and duties does citizenship involve These political questions are being asked today with a renewed urgency both by practising politicians and by scholars These essays by distinguished contributors examine the changing frontiers of modern citizenship They look at the way citizenship is being reshaped within the nation state in relations between women and the state under the impact of economic crisis and recession and in the face of new multinational political forces Disability and Social Policy in Britain since 1750 Anne Borsay,2004-11-17 This approachable study explores experiences of physical and mental impairment in Britain since the Industrial Revolution Using literary visual and oral sources to complement documentary evidence Anne Borsay pays particular attention to the testimonies of disabled people Disability and Social Policy in Britain since 1750 Places disability policies within their historical context examines citizenship and social exclusion from a historical perspective Sketches the key characteristics of modern industrial societies Focuses on the shifting mixed economy of welfare the development of social rights and the construction of identity Assesses institutional living in workhouses hospitals asylums and schools Appraises community living with reference to employment financial relief and community care Reviews social policies post 1979 Borsay argues that disabled people were excluded from the full rights of citizenship because they were marginal to the labour market and suggests that history may play a role in raising personal and political consciousness Containing illustrations and clearly structured this book is an ideal guide for all those with an interest in the history of disability and social policies **Opening the Door** Kathleen Jones,John Brown,W. J. Cunningham,Julian Roberts,Peter Williams,2023-07-28 First published in 1975 Opening the Door is a survey of policies and problems in services for the mentally handicapped It describes the improvements which have taken place since 1969 when the inquiry into conditions of patients at Ely hospital in South Wales stimulated public concern into the quality of life of many mentally handicapped people in hospital The authors discuss the continuing gap between the idea as laid down in the 1971 Government White Paper

Better Services for the Mentally Handicapped which set out a blueprint for development in the 1980s that was to make the antithesis of hospital or community obsolete and the reality The study is based on detailed work in one Region by a team of staff and postgraduate students in the Department of Social Administration and Social Work at the University of York The survey covers hospital provisions with special attention to nursing attitudes and to problems of the back wards the relationship between hospitals and their surrounding communities and the development of local authority social work and residential care services This book will be of interest to students of social administration social policy and health

**Introducing Social Statistics** Richard Startup, Elwyn T. Whittaker, 2021-10-17 Originally published in 1982 this book describes those basic ideas and techniques of statistics which should be known to every social scientist The explanations are given in careful detail at a level of mathematical sophistication which will be readily attainable by students meeting statistical methods for the first time All the methods described are applied to and sometimes are motivated by genuine problems of interest arising in sociology social policy politics or human geography The authors often provide a meaningful discussion of the substantive problem itself in addition to an analysis of the statistical techniques being used on it In this way subject matter and statistical techniques are integrated in an original and effective manner The authors combine considerable experience of shared teaching of social statistics with familiarity with its use in practical fields and in research Their book therefore focuses on the most directly applicable methods and is carefully sequenced to promote rapid student understanding The topic of probability which so often confuses students is here dealt with simply yet thoroughly The chapter on the sources of social statistics whilst being unusual in a text of this kind is particularly welcome and comprehensively meets the needs of students on a wide range of courses **Introducing Social Statistics** will make the vitally important field of statistics accessible to all students of the social sciences

**The Voluntary Sector in the United Kingdom** Jeremy Kendall, Martin Knapp, 1996 This book provides an analytical overview of the vast range of historiography which was produced in western Europe over a thousand year period between c 400 and c 1500 Concentrating on the general principles of classical rhetoric central to the language of this writing alongside the more familiar traditions of ancient history biblical exegesis and patristic theology this survey introduces the conceptual sophistication and semantic rigour with which medieval authors could approach their narratives of past and present events and the diversity of ends to which this history could then be put By providing a close reading of some of the historians who put these linguistic principles and strategies into practice from Augustine and Orosius through Otto of Freising and William of Malmesbury to Machiavelli and Guicciardini it traces and questions some of the key methodological changes that characterise the function and purpose of the western historiographical tradition in this formative period of its development

**Healthcare Research** Paula Roberts, Helena Priest, 2010-02-04 Research is an integral component of any undergraduate healthcare course and is also vital for continuing professional development CPD This book is an invaluable guide for students and practitioners who need to acquire a wide

range of relevant skills and it will equip them not only to assess the quality of published studies and apply findings to clinical practice but also to undertake research themselves. An experienced team of contributors provide detailed explanations of the main concepts and methods used in critical appraisal of published research and guide the reader in integrating these quality indicators into their own studies to ensure rigour in planning design and execution. Drawing on both quantitative and qualitative approaches the authors write with an emphasis on the development of sound research skills through case based illustrative examples and scenarios with helpful summaries and practical exercises throughout. They also give advice on writing abstracts, presenting papers at conferences and liaising with publishers. Ultimately this text will enable readers to have full confidence in understanding, undertaking and disseminating empirical research.
