Health Care Policy And Politics Lessons From Four Countries:

Health Care Policy and Politics Robert B. Helms,1993 In examining the health care delivery systems of four nations Canada Germany the Netherlands and the United Kingdom this work seeks to address several weaknesses and concerns that should be considered before reformers redesign the US system based on a foreign model **The Political Economy of Health Care Development and Reforms in Hong Kong** Victor C.W. Wong,2019-05-23 First published in 1999 this book constitutes a unique account of the development and reform of health care in Hong Kong Its main focus is on policy developments since 1945 Victor Wong demonstrates the development of a two tier health system in both a capitalist and Chinese context His work is one of both health policy and political economy Wong utilises the latter perspective to show the state s role in the interests of capital the public demand for health care and the power of the medical profession Alongside this Wong brings in the role of Chinese and family medicine and the role of the family in cost containment and minimising the hospitalisation of elderly frail and chronically ill patients The volume is the most comprehensive analysis available for health policy in Hong Kong **Health Policy Reform** Robert B. Helms,1993 Twelve contributors focus on the two health reform proposals that have taken center stage managed competition and global budgeting **Lessons from Europe?** R. Daniel Kelemen,2014-02-05 What can American policymakers learn from the experiences of European democracies While we can look to our own history and to the ideas emanating from our own public sphere by looking abroad we can also learn lessons from European policies from both those that have proven successful and those that have failed The contributors in this volume examine the ways our European allies have dealt with issues such as rising healthcare and pension costs large scale immigration childcare and work life balance and climate change and ask whether such policies might prove effective in the U S context Brief and engaging R Daniel Kelemen s *Lessons from Europe What Americans Can Learn from European Public Policies* is an ideal supplement for comparative public policy courses and would add a provocative comparative component to U S public policy courses Medicare in the Twenty-first Century Robert B. Helms,1999 These leading health economics experts make various recommendations for saving the popular Medicare program and grapple with finding a solution that is realistic fair and efficient *Policy and Politics in Six Nations* Stella Z. Theodoulou,2002 Filling a void in the study of policy and politics this volume blends an introductory perspective to policy making with a traditional treatment of comparative government and politics The text traces policy evolution and development in individual nations and then discusses similarities differences and discernable patterns The straightforward presentation is designed to provide readers with a greater understanding of cross national policy learning while integrating the study of public policy with mainstream comparative politics Studying public policy from a comparative perspective this volume examines the nature of public policy within Brazil the Federal Republic of Germany Britain Japan Sweden and the U S For those interested in understanding the political and governmental setting that produces policy Empowering Health Care Consumers Through Tax Reform

Grace-Marie Arnett, 1999 Because of our tax system most Americans have the wrong kind of insurance and some Americans cannot afford any insurance This book shows how tax reform can lead to more appropriate and more affordable health insurance It is worth careful reading by our policy makers and by anyone concerned with health care in America Prof Martin Feldstein

Health Care Policy In East Asia: A World Scientific Reference (In 4 Volumes) , 2019-11-25 During the past three decades health care systems in the East Asian regions of China Japan South Korea and Taiwan have undergone major changes Each system has its unique achievements and challenges Global health care policymakers are increasingly interested in understanding the changes that have taken place in these four systems This four volume reference set is designed to help health care professionals academics policymakers and general readers gain a good grasp of the background and latest developments in the health care systems of China Japan South Korea and Taiwan This reference set provides an in depth comparative health policy analysis and discussion of health care reform strategies in each of these systems One unique feature of this set is that each volume has been edited by a leading scholar who has been deeply involved in the development of the health care system in that particular region Each of these editors also has invited both scholars and practitioners to provide a first hand description and analysis of key health care reform issues in that system The many examples provided in each volume demonstrate how findings of evidence based policy research can be implemented into policy practice Volume 1 describes and discusses China's ambitious and complex journey of health care reform since 2009 The Chinese government has achieved universal health insurance coverage and has embarked on reforms of the service delivery system and provider payment methods that are aimed at controlling health expenditure growth and improving efficiency This volume includes pilot and social experiments initiated by the government and researchers and their evaluations that have guided the formulation of health reform policies It provides information on how to make reforms work at the local and provincial levels The findings detailed in this volume will contribute to a global knowledge base in health care reforms Volume 2 provides a comprehensive review and evaluation of the Japanese health care system Japan has a long history of health care system development and provision of universal health coverage with a mature and well developed health care system among East Asian countries However due to increases in health care costs economic stagnation and the country's rapidly aging population Japan has undergone significant health care reform during the last two decades both in the delivery as well as financing of health services in its hospital sector medical technology sector and long term care insurance Despite these challenges and reforms health outcomes among the Japanese population have been progressively among the best in the world This volume shows how policy research can lead to policy analysis implementation and assessment It also provides valuable lessons learnt for mutual learning among other health care systems Volume 3 offers a comprehensive review of the developments in South Korea's national health insurance system since 1989 in terms of financing delivery systems and outcomes The volume analyzes the efficiency of cost and service delivery by public sectors versus private sectors It points out

areas of challenge to future Korean health care reform Chapter authors in this volume are leading experts involved in Korean health care policy implementation Volume 4 reviews the development and achievements of Taiwan Health Insurance since 1995 Because of its continuous reform in payment services delivery and pharmaceutical technology Taiwan has been considered a model example of universal health insurance among global health systems This volume shows the processes used to translate policy research findings into policy changes While the health care reform in Taiwan is ongoing the Taiwan example provides a real world and practical understanding of health care system changes In summary this four volume set makes an outstanding contribution to health care system reform and policy research based on solid scholarly work It also introduces policy researchers and academic communities to current debates about health systems health financing and universal health coverage This reference volume is a must for anyone keen on East Asia s health care system reform dynamics and changing scene
