*The Sunday School Journal* ,1906     **Discipleship on the Edge** Darrell W. Johnson,2004 Revelation is probably the most read but least understood book of the Bible History is replete with examples of how not to interpret it and books featuring end of world prophecy claims based on Revelation consistently top the bestseller lists But how can the message of such an enigmatic book be applied to our lives today In Discipleship on the Edge Darrell W Johnson drives home the challenging and practical message of Revelation in thirty carefully crafted sermons Paying careful attention to the original

context of Revelation and the circumstances surrounding its composition Johnson shows that the book is not a crystal ball but rather a discipleship manual Thoroughly researched and yet accessible this collection of sermons is a helpful resource for pastors and small group leaders who are looking for models to help them preach and teach the message of Revelation in a time when there is much confusion about the end times Darrell W Johnson serves as Scholar in Residence at The Way Church and Canadian Church Leaders Network in Vancouver British Columbia Canada A popular conference and retreat speaker he has also served as the preaching pastor for a number of congregations in North America and the Philippines as well as serving as Adjunct Professor of Preaching for the Doctor of Ministry program at Fuller Theological Seminary in Pasadena California and a Teaching Fellow at Regent College His other books include Experiencing the Trinity and Fifty Seven Words That Change The World

The Hypomanic Edge John D. Gartner, 2008-06-23 Why is America so rich and powerful The answer lies in our genes according to psychologist John Gartner Hypomania a genetically based mild form of mania endows many of us with unusual energy creativity enthusiasm and a propensity for taking risks America has an extraordinarily high number of hypomanics grandiose types who leap on every wacky idea that occurs to them utterly convinced it will change the world Market bubbles and ill considered messianic crusades can be the downside But there is an enormous upside in terms of spectacular entrepreneurial zeal drive for innovation and material success Americans may have a lot of crazy ideas but some of them lead to brilliant inventions Why is America so hypomanic It is populated primarily by immigrants This self selection process is the boldest natural experiment ever conducted Those who had the will optimism and daring to take the leap into the unknown have passed those traits on to their descendants Bringing his audacious and persuasive thesis to life Gartner offers case histories of some famous Americans who represent this phenomenon of hypomania These are the real stories you never learned in school about some of those men who made America Columbus who discovered the continent thought he was the messiah John Winthrop who settled and defined it believed Americans were God s new chosen people Alexander Hamilton the indispensable founder who envisioned America s economic future self destructed because of pride and impulsive behavior Andrew Carnegie who began America s industrial revolution was sure that he was destined personally to speed up human evolution and bring world peace The Mayer and Selznick families helped create the peculiarly American art form of the Hollywood film but familial bipolar disorders led to the fall of their empires Craig Venter decoded the human genome yet his arrogance made him despised by most of his scientific colleagues even as he spurred them on to make great discoveries While these men are extraordinary examples Gartner argues that many Americans have inherited the genes that have made them the most successful citizens in the world
