God Humanity And History The Hebrew First Crusade Chronicles:

God, Humanity, and History Robert Chazan, 2000-08-09 Although closely focused on the remarkable Hebrew First Crusade narratives Robert Chazan's new interpretation of these texts is anything but narrow as his title *God Humanity and History* strongly suggests The three surviving Hebrew accounts of the crusaders' devastating assaults on Rhineland Jewish communities during the spring of 1096 have been examined at length but only now can we appreciate the extent to which they represent their turbulent times After a close analysis of the texts themselves Chazan addresses the objectives of the three narratives He compares these accounts with earlier Jewish history writing and with contemporary crusade historiography It is in their disjuncture with past forms of Jewish historical narration and their amazing parallels with Latin crusade narratives that the Hebrew narratives are most revealing We see how they reflect the embeddedness of early Ashkenazic Jewry in the vibrant atmosphere of late eleventh and early twelfth century northern Europe God, Humanity, and History Robert Chazan, 2000-08-09

Closely focused on the Hebrew First Crusade narratives this text examines the three surviving accounts of the crusaders' assaults on the Rhineland Jewish communities in 1096 These accounts are compared with earlier Jewish history writing and with contemporary crusade historiography **The First Crusade** Thomas Asbridge, 2012-01-26 A nuanced and sophisticated analysis Exhilarating Sunday Telegraph Nine hundred years ago one of the most controversial episodes in Christian history was initiated The Pope stated that in spite of the apparently pacifist message of the New Testament God actually wanted European knights to wage a fierce and bloody war against Islam and recapture Jerusalem Thus was the First Crusade born Focusing on the characters that drove this extraordinary campaign this fascinating period of history is recreated through awe inspiring and often barbaric tales of bold adventure while at the same time providing significant insights into early medieval society morality and mentality The First Crusade marked a watershed in relations between Islam and the West a conflict that set these two world religions on a course towards deep seated animosity and enduring enmity The chilling reverberations of this earth shattering clash still echo in the world today Asbridge balances persuasive analysis with a flair for conveying with dramatic power the crusaders' plight Financial Times

Jews in Medieval Christendom Kristine T. Utterback, Merrall L. Price, 2013-09-15 In *Jews in Medieval Christendom* Slay Them Not an international group of scholars from numerous disciplines examines the manifold ways that medieval Christians coped with the presence of Jews in their midst The collection's touchstone comes from St Augustine's interpretation of Psalm 59:11 Slay them not lest my people forget scatter them by thy power and bring them down as it applied to Jews in Christendom an interpretation that deeply affected medieval Christian strategies for dealing with Jews in Europe This collection analyzes how medieval writers and artists often explicitly invoking Augustine employed his teachings on these strangers within Christian Europe Contributors include Nancy Bishop Kate McGrath Irvén Resnick Ephraim Shoham Steiner

K M Kletter Robert Stacey Jennifer Hart Weed Jay Ruud Kristine T Utterback Merrill L Lewelyn Price Eveline Brugger Birgit Wiedl Carlee A Bradbury Judy Schaaf Barbara Stevenson Miriamne Ara Krummel Albrecht Classen **Remembering the Crusades** Nicholas Paul, Suzanne Yeager, 2012-04-02 Few events in European history generated more historical artistic and literary responses than the conquest of Jerusalem by the armies of the First Crusade in 1099 This epic military and religious expedition and the many that followed it became part of the collective memory of communities in Europe Byzantium North Africa and the Near East Remembering the Crusades examines the ways in which those memories were negotiated transmitted and transformed from the Middle Ages through the modern period Bringing together leading scholars in art history literature and medieval European and Near Eastern history this volume addresses a number of important questions How did medieval communities respond to the intellectual cultural and existential challenges posed by the unique fusion of piety and violence of the First Crusade How did the crusades alter the form and meaning of monuments and landscapes throughout Europe and the Near East What role did the crusades play in shaping the collective identity of cities institutions and religious sects In exploring these and other questions the contributors analyze how the events of the First Crusade resonated in a wide range of cultural artifacts including literary texts art and architecture and liturgical ceremonies They discuss how Christians Jews and Muslims recalled and interpreted the events of the crusades and what far reaching implications that remembering had on their communities throughout the centuries Remembering the Crusades is the first collection of essays to investigate the commemoration of the crusades in eastern and western cultures Its unprecedented multidisciplinary and cross cultural approach points the way to a complete reevaluation of the place of the crusades in medieval and modern societies *The Cambridge History of Judaism: Volume 6, The Middle Ages: The Christian World* Robert Chazan, 2018-10-11 Volume 6 examines the history of Judaism during the second half of the Middle Ages Through the first half of the Middle Ages the Jewish communities of western Christendom lagged well behind those of eastern Christendom and the even more impressive Jewries of the Islamic world As Western Christendom began its remarkable surge forward in the eleventh century this progress had an impact on the Jewish minority as well The older Jewries of southern Europe grew and became more productive in every sense Even more strikingly a new set of Jewries were created across northern Europe when this undeveloped area was strengthened demographically economically militarily and culturally From the smallest and weakest of the world s Jewish centers in the year 1000 the Jewish communities of western Christendom emerged despite considerable obstacles as the world s dominant Jewish center by the end of the Middle Ages This demographic economic cultural and spiritual dominance was maintained down into modernity *Popes and Jews, 1095-1291* Rebecca Rist, 2016-01-07 In *Popes and Jews 1095-1291* Rebecca Rist explores the nature and scope of the relationship of the medieval papacy to the Jewish communities of western Europe Rist analyses papal pronouncements in the context of the substantial and on going social political and economic changes of the eleventh twelfth and thirteenth centuries as well the

characters and preoccupations of individual pontiffs and the development of Christian theology She breaks new ground in exploring the other side of the story Jewish perceptions of both individual popes and the papacy as an institution through analysis of a wide range of contemporary Hebrew and Latin documents The author engages with the works of recent scholars in the field of Christian Jewish relations to examine the social and legal status of Jewish communities in light of the papacy's authorisation of crusading prohibitions against money lending and condemnation of the Talmud as well as increasing charges of ritual murder and host desecration the growth of both Christian and Jewish polemical literature and the advent of the Mendicant Orders Popes and Jews 1095-1291 is an important addition to recent work on medieval Christian Jewish relations Furthermore its subject matter religious and cultural exchange between Jews and Christians during a period crucial for our understanding of the growth of the Western world the rise of nation states and the development of relations between East and West makes it extremely relevant to today's multi-cultural and multi-faith society

Christian Memories of the Maccabean Martyrs D. Joslyn-Siemiatkoski, 2015-10-14 This book examines texts and materials ranging from the eastern Mediterranean to northwestern Europe related to the Maccabean martyrs Joslyn Siemiatkoski demonstrates that Christian thinkers constructed memories of the Maccabean martyrs that simultaneously appropriated Jewish traditions and obscured the Jewish origins of Christianity

Religion and Genocide Steven Leonard Jacobs, 2022-10-31 Religion and Genocide Changing the Conversation is a cutting edge introduction to the complex and controversial relationship between religion and genocide This book aims to widen the reader's understanding of religion and those who practice it the nexus of religion and violence and those who legitimate their violence by framing it in religious terms by looking at notions of holy wars religious wars and genocide and the practitioners of such This book delves into our current thinking of ourselves as biological entities our relationship to genocide and the impact of geography including climate change and diseases on our humanity and our ability to commit genocide Tying together all these seemingly disparate threads this text concludes with the significant and still largely unanswered question Where do we go from here Highlighting the complex relationship between religion and genocide this is an essential read for students and academics studying religion and violence Judaism Judaic studies and holocaust and genocide studies Religion and Genocide will also be of interest to researchers in related subjects such as history politics sociology and anthropology

Jews in Byzantium, 2011-10-14 In the ever increasing volume of Byzantine Studies in recent years there seems to be one very apparent void namely the history and culture of the Byzantine Jewry its presence and impact on the surrounding convoluted Byzantine world between Late Antiquity until the conquest of Byzantium 1453 With the now classic but dated studies by Joshua Starr and Andrew Sharf the collective volume at hand is an attempt to somewhat fill in this void The articles assembled in this volume are penned by leading scholars in the field They present bird's eye views of the cultural history of the Jewish Byzantine minority alongside a wide array of surveys and in depth studies of various topics These topics pertain to the dialectics of the religious literary economic and visual representation world of this

alien minority within its surrounding Byzantine hegemonic world Remembering the Crusades and Crusading Megan Cassidy-Welch, 2016-11-03 Remembering the Crusades and Crusading examines the diverse contexts in which crusading was memorialised and commemorated in the medieval world and beyond The collection not only shows how the crusades were commemorated in the twelfth and thirteenth centuries but also considers the longer term remembrance of the crusades into the modern era This collection is divided into three sections the first of which deals with the textual material and visual sources used to remember Each contributor introduces a particular body of source material and presents case studies using those sources in their own research The second section contains four chapters examining specific communities active in commemorating the crusades including religious communities family groups and royal courts Finally the third section examines the cultural memory of crusading in the Byzantine Iberian and Baltic regions beyond the early years as well as the trajectory of crusading memory in the Muslim Middle East This book draws together and extends the current debates in the history of the crusades and the history of memory and in so doing offers a fresh synthesis of material in both fields It will be essential reading for students of the crusades and memory **Gendering Modern German History** Karen Hagemann, Jean H. Quataert, 2008-08 To provide a critical overview in a comparative German American perspective is the main aim of this volume which brings together experts from both sides of the Atlantic Through case studies it demonstrates the extraordinary power of the gender perspective to challenge existing interpretations and rewrite mainstream arguments Historical Dictionary of the Crusades Corliss K. Slack, 2013-05-09 The crusades were among the longest and most bitter wars in human history and consisted of no less than seven major expeditions from Western Europe from the late 11th to the early 14th centuries for the purpose of wresting Jerusalem and the Holy Land from the control of the Muslims In the end it was the Muslims who won and the Christians who suffered a major setback and the Middle East remained firmly in Muslim hands This was one of the worst clashes between different religions and civilizations and for long it was largely forgotten or brushed over That is no longer the case with many Muslims regarding Western interference in the region as a repeat of the crusades while launching their own jihads So while an old conflict it is still with us today Even at the time it was very hard to understand the causes and outcome of the crusades and that remains a problem today This Historical Dictionary of the Crusades cannot claim to have resolved it but it most definitely does make the situation easier to understand The introduction provides an overview tracing the crusades from one expedition to the next and assessing their impact The actual flow of events is far easier to follow thanks to the chronology And maps help to trace the events geographically The entries and there are more than 300 of them in this second edition look more closely at notable figures including Pope Gregory VII Richard the lionhearted and Saladin as well as important places Jerusalem Constantinople and others events battles and sieges as well as the use of weapons and armor The bibliography points to further reading **Layered Landscapes** Eric Nelson, Jonathan Wright, 2017-06-26 This volume explores the conceptualization and construction of sacred space in a wide

variety of faith traditions Christianity Hinduism Islam Judaism and the religions of Japan It deploys the notion of layered landscapes in order to trace the accretions of praxis and belief the tensions between old and new devotional patterns and the imposition of new religious ideas and behaviors on pre existing religious landscapes in a series of carefully chosen locales Cuzco Edo Geneva Granada Herat Istanbul Jerusalem Kanchipuram Paris Philadelphia Prague and Rome Some chapters hone in on the process of imposing novel religious beliefs while others focus on how vestiges of displaced faiths endured The intersection of sacred landscapes with political power the world of ritual and the expression of broader cultural and social identity are also examined Crucially the volume reveals that the creation of sacred space frequently involved more than religious buildings and was a work of historical imagination and textual expression While a book of contrasts as much as comparisons the volume demonstrates that vital questions about the location of the sacred and its reification in the landscape were posed by religious believers across the early modern world

Isaac On Jewish and Christian Altars: Polemic and Exegesis in Rashi and the Glossa Ordinaria Devorah Schoenfeld, 2013 Rashi's commentary and the Glossa Ordinaria both developed in the late eleventh and early twelfth century with no known contact between them Nevertheless they shared a way of reading text that shaped their interpretations of the near sacrifice of Isaac This work compares them both with each other and their respective sources to show their similarity
