God Is Green Ecology For Christmas:

God is Green Bob Shore-Goss, 2016-10-28 At this time of climate crisis here is a practical Christian ecospirituality It emerges from the pastoral and theological experience of Reverend Robert Shore Goss who worked with his congregation by making the earth a member of the church by greening worship and by helping the church building and operations attain a carbon neutral footprint Shore Goss explores an ecospirituality grounded in incarnational compassion Practicing incarnational compassion means following the lived praxis of Jesus and the commission of the risen Christ as Gardener Jesus becomes the green face of God Restrictive Christian spiritualities that exclude the earth as an original blessing of God must expand This expansion leads to the realization that the incarnation of Christ has deep roots in the earth and the fleshly or biological tissue of life This book aims to foster ecological conversation in churches and outlines the following practices for congregations meditating on nature inviting sermons on green topics covenanting with the earth and retrieving the natural elements of the sacraments These practices help us recover ourselves as fleshly members of the earth and the network of life If we fall in love with God s creation says Shore Goss we will fight against climate change [Christian Initiation of Children 2009 - 2010: Weekly Resources for Ages 5 - 14 - Celebrating the Lectionary](#) , [Children's Liturgy of the Word 2012-2013: A Weekly Resource](#) , **Children's Liturgy of the Word 2015-2016** Maureen A. Introduction to Spiritual Ecology Marian Green, 2022-04-25 Our world is constantly undergoing changes and while most of these occur within the natural cycles of the year seasons day and night now there are new powerful forces for transformation bringing chaos and disruption to many The certainties by which we have always lived are being swept away We have to rethink many aspects of our lives and find a new spiritual path Combining this journey with the natural world will bring us closer to health happiness and contentment This book explores many traditional ideas about sustaining our relationship with nature By reconnecting to wild places to trees and stones to plants and animals to rivers and oceans and to the tides and cycles of our ever turning planet we

can restore the ancient magical arts that have guided people since the Stone Age and so learn to heal ourselves and help to heal the Earth By respecting life we can develop a modern spiritual impulse that honours the past works with change and creates hope for the future **The Gospel of Jesus Green** Neil J. Whitehouse,2024-06-11 This is a gospel of personal stories science and existential hope for the Jesus curious and those who want to know what Green means Modern people are like the passengers on the Titanic the triumphs of technology have real limitations They face the necessity to share the planet that takes them to hard politics Economics can be integrated with ecology and the essentials of human relationships The history of Jesus may make him an uncertain figure but his demand to live for the best can still be felt Whitehouse draws on paleontologist Fr Pierre Teilhard de Chardin and existentialist Paul Tillich to claim home for all not just for humans is a universal biological phenomenon and a truth named by Jesus A biodiversity of illustrations entertains and reveals trees can speak dead birds teach and rivers become persons Then Jesus Green emerges as a systems thinker for the home If Jesus was homeless for a cause he found his home on the cross now a paradoxical symbol that lifts up our place within nature This creative passionate account delivers the punch other Green Christian books lack It could not have come sooner
