God, Man, and the Thinker: Philosophies of Religion Donald Arthur Wells, 1962 Also includes some information on Judaism Buddhism and Jainism      **God, Man, and the Thinker** Donald A. Wells, 1965      *Nineteenth-Century Philosophy of Religion* Graham Oppy, N. N. Trakakis, 2014-09-19 The nineteenth century was a turbulent period in the history of the philosophical scrutiny of religion Major scholars such as Hegel Fichte Schelling Newman Caird and Royce sought to construct systematic responses to the Enlightenment critiques of religion carried out by Spinoza and Hume At the same time new critiques of religion were launched by philosophers such as Schopenhauer and Nietzsche and by scholars engaged in textual criticism such as Schleiermacher and Dilthey Over the course of the century the work of Marx Freud Darwin and Durkheim brought the revolutionary perspectives of political economy psychoanalysis evolutionary theory and anthropology to bear on both religion and its study These challenges played a major role in the shaping of twentieth century philosophical thought about religion Nineteenth Century Philosophy of Religion will be of interest to scholars and students of Philosophy and Religion and will serve as an authoritative guide for all who are interested in the debates that took place in this seminal period in the history of philosophical thinking about religion      A Thinker's Guide to the Philosophy of Religion Allen Stairs, 2017-09-29 With an approachable reader friendly style A Thinker's Guide to the Philosophy of Religion provides up to date themes in contemporary analytic philosophy of religion This provocative collection of readings stimulates clear thinking and careful attention to the reasons for taking up views on religious questions      **Rāmakṛṣṇa Paramahansa** Narasingha Sil, 2024-07-08 In the entire corpus of Rāmaka research carried out mostly by his disciples devotees and admirers only a handful have attempted to analyze his divine reputation Yet none has examined the Rāmaka phenomenon fully This is the first comprehensive psychoanalysis of Rāmaka's sexuality in general and his androgyny in particular as well as a critical examination of his sermons samadhis Instead of the popular paramahansa there now emerges the less attractive but more authentic profile of an utterly selfish capricious but highly intelligent spiritual master who elicited awed submission from everybody by his unpredictable and frenzied behaviour The author asserts that Rāmaka's spiritual odyssey is better explained as his desperate but successful effort to deal with his emotional and sexual crisis rather than as the universally acknowledged outcome of a divine teleology Attempting to distinguish the historical Rāmaka from the godhead of hagiography this study offers a challenging debate on mystic phenomenon      **Addiction to Religion** Mahfooz Kanwar Ph.D., 2015-05-22 After the Second World War in the 1950s and beyond we embraced revolutionary emancipation of women among other things which led to an unprecedented sexual and cultural revolution especially in the West We discarded some of the old ways of doing things and we opened the door to a brand new and modern civilization in the 1960s 1970s and early 1980s The sexual and cultural revolution led us to secularism which challenged many draconian mores including those in Muslim countries such as Pakistan Malaysia Turkey Iran Tunisia and Morocco That was when I published one of my books Sociology of Religion

Changing Conceptions in the Structure of Islam However in relatively recent times we have faced the backward process of reverting to traditional norms That reversed cultural change led to fundamentalism including fundamentalism in religion which is a precursor to addiction to religion That has ultimately resulted in national and international terrorism That born again trend encouraged me to do research in this field including addiction to religion That led me to write this book I have concluded in this book that both addiction to drugs and addiction to religion are a disease a delirium and a psychic syndrome influenced by a mental disorder During the last two to three decades there has been a significant rise in religious fundamentalism leading to addiction to religion which has caused global havoc Religion has been hijacked misused and abused largely by semiliterate believers in all organized religions Religious addiction is perhaps worse than drug addiction Other books by the Author 1 The Sociology of Family An Interdisciplinary Approach 2 Sociology of Criminal Behaviour 3 Sociology of Religion Changing Conceptions in the Structure of Islam 4 Murder and Homicide in Pakistan 5 Issues in Canadian Sociology with Hewa 6 Issues in Canadian Sociology 2nd Ed with Swenson 7 Canadian Sociology with Swenson 8 Journey to Success my autobiography currently in its tenth edition     Readings in Philosophy of Religion Linda Zagzebski, Timothy D. **Eclectic Magazine** John Holmes Agnew, Walter Hilliard Bidwell, Henry T. Steele, 1890      **Lectures on the Philosophy of Religion** Georg Wilhelm Friedrich Hegel, 2024-05-09 Hegel's Lectures on the Philosophy of Religion delivered in 1821 and refined over the following years represent a critical part of his philosophical system addressing the nature development and ultimate significance of religion In these lectures Hegel explores the role of religion as a fundamental mode of human engagement with the Absolute alongside art and philosophy He argues that religion provides a symbolic and intuitive understanding of the ultimate truths about existence which philosophy later conceptualizes in a systematic rational form For Hegel religion is not opposed to reason but is part of a dialectical process in which Spirit comes to full self consciousness This modern unabridged translation includes an afterword that situates these writings within Hegel's larger philosophical system providing essential context on the historical and intellectual milieu that shaped his ideas Alongside a detailed timeline of Hegel's life and works the afterword explores how this text connects to his broader contributions to metaphysics epistemology and social philosophy The translation employs modern reader friendly language accompanied by a scholarly apparatus designed to immerse contemporary readers in Hegel's intellectual world while emphasizing his enduring relevance today The translation and accompanying commentary aim to bridge the gap between Hegel's intricate theoretical frameworks and the modern reader's quest for understanding shedding light on his impact on philosophy including Marx and beyond Hegel often considered one of the most challenging philosophers due to the vast scope and complexity of his thought is rendered more approachable in this Afterword through the lens of interpretations by influential thinkers such as Tolstoy Nietzsche Schopenhauer and Heidegger The Lectures on the Philosophy of Religion delivered multiple times in Berlin and published posthumously represent Hegel's most sustained engagement with religious consciousness and its relationship to philosophical truth These lectures develop his understanding of religion as a crucial manifestation of absolute spirit examining how religious representations anticipate philosophical concepts through symbolic and imaginative forms The text

emerges from Hegel's attempt to reconcile philosophical reason with religious faith while preserving the distinctive character of religious experience. The lectures follow a systematic structure moving from the concept of religion through determinate religion to revealed Christian religion. Hegel analyzes different historical religions not merely as cultural phenomena but as progressive manifestations of religious truth. Natural religions, religions of spiritual individuality, and finally Christianity represent increasingly adequate ways of grasping the unity of divine and human nature. His treatment of Christianity is particularly significant, arguing that its doctrines of incarnation and trinity express in religious form the same truth that philosophy grasps conceptually. A central concern throughout is the relationship between religious representation (*Vorstellung*) and philosophical concept (*Begriff*). Hegel argues that religion expresses absolute truth through images, stories, and symbols that philosophy must translate into conceptual form. Yet he insists that this translation doesn't simply discard religious content but preserves its essential truth in a higher form. The lectures thus develop his distinctive approach to religion, neither reducing it to rational theology nor accepting its claims uncritically.

This groundbreaking neo-Maimonidean work establishes on independently philosophical grounds the intellectual warrant of Jewish religious thinking as devotional intelligence. It demonstrates the purchase and intellectual authority of such thinking by appeal to two dialectically interrelated principles: on the one hand, the metaphysical principle that knowing is of being; and on the other, sacral attunement, a normative principle. Part I distinguishes this study from leading work in contemporary philosophy of Judaism. It introduces the game-changing bid to privilege intelligence in the onto-epistemological Aristotelian sense over epistemologically orchestrated post-Enlightenment reason when it comes to assessing the intellectual soundness of religious thinking. Part II distills contemporary elements of Aristotle's onto-epistemological psychology of intelligence that Maimonides incorporated in his philosophy of Jewish religious thinking. Further, it finds in Hegel a bridge between Maimonides' account of devotional intelligence and a modern Maimonidean science of knowing dedicated to religious thinking. Part III turns to sacral attunement, foregrounding the normative devotional aspect of devotional intelligence. It probes the intentionality of both onto-epistemological attunement and the sacred relative to the factor of the transcendent. In the process, it identifies and applies elements of an existential phenomenology of fundamental attunement that thematize defining realities of the sacral attunement unique to normative Jewish covenantal praxis. A related analysis of the sacred in religious thinking follows, which segues to a chapter on the factor of the transcendent as a seminal constituent of meaning in both the sciences and religion. Part IV applies and amplifies key findings in light of a signature Jewish devotional theme: the divine names approached from a signally Maimonidean apophatic position.

indexed to the factor of the transcendent as the unconditioned condition Kant of intelligible meaning as such Distinguishing what the divine names indicate from what they refer to the essay concludes by substantiating the intellectual warrant of Jewish religious thinking as a devotional intelligence of the relation of identity in difference between the attributive names and the Tetragrammaton

**Religion and the Christian Faith** Hendrik Kraemer, 2003-06 A rich and profound contribution to the debate on the position of modern Christianity opened up Kraemer's The Christian Message in a Non Christian World In Religion and the Christian Faith he deals with many of the criticisms of his position and offers an apologia at once luminous and massive of the Christian religion as the revelation of God to Man and the faith for all mankind There is a decisive Christian finality about Kraemer's writing and his book is a significant contribution to the sharp discipline of faith and action under which the universal Christian community lives All the way through his formidably marshalled arguments run the undertones of Christian involvement in a real world a world which by his astonishing grasp of philosophy Biblical theology and the claims of religion and religions the Author brings alive to the reader The reading of this formative book with its strenuous demands on the reader's intelligence and Christian understanding is a rewarding experience Its significance for the Christian Church throughout the world is obvious but it is also a monumental witness to the Christian religion for all those who ask not only for a faith once delivered but a faith to believe in their own day and generation
