God On The Quad How Religious Colleges And The Missionary Generation Are Changing America:

God on the Quad Naomi Schaefer Riley, 2013-12-31 Religious colleges and universities in America are growing at a breakneck pace In this startling new book journalist Naomi Schaefer Riley explores these schools interviewing administrators professors and students to produce the first popular accessible and comprehensive investigation of this phenomenon Call them the Missionary Generation By the tens and hundreds of thousands some of America's brightest and most dedicated teenagers are opting for a different kind of college education It promises all the rigor of traditional liberal arts schools but mixed with religious instruction from the Good Book and a mandate from above Far removed from the medieval cloisters outsiders imagine schools like Wheaton Thomas Aquinas and Brigham Young are churning out a new generation of smart worldly and ethical young professionals whose influence in business medicine law journalism academia and government is only beginning to be felt In *God On The Quad* Riley takes readers to the halls of Brigham Young where surprisingly with it young Mormons compete in a raucous marriage market and prepare for careers in public service To the infamous Bob Jones post interracial dating ban where zealous Christian fundamentalists are studying fine art and great literature to help them assimilate into the nation's cultural centers To Thomas Aquinas College where graduates homeschool large families and hope to return the American Catholic Church to its former glory To Yeshiva Wheaton Notre Dame and more than a dozen other schools big and small rich and poor new and old Catholic Protestant Jewish Mormon and even Buddhist all training grounds for the new Missionary Generation With a critical yet sympathetic eye Riley a contributor to the *Wall Street Journal* the *Boston Globe* the *New York Times* the *Weekly Standard* and the *Chronicle of Higher Education* studies these campuses and the debates that shape them In a post 9 11 world where the division between secular and religious has never been sharper what distinguishes these colleges from their secular counterparts What does the missionary generation think about political activism feminism academic freedom dating race relations homosexuality and religious tolerance and what effect will these young men and women have on the United States and the world

The American University in a Postsecular Age

Douglas Jacobsen, Rhonda Hustedt Jacobsen, 2008-02-27 For much of the twentieth century it was assumed that higher education was and ought to be a secular enterprise but that approach no longer suffices The culture has shifted and contemporary college and university students are increasingly bringing religious and spiritual questions to campus In response college and university leaders are exploring anew the relationship between religion and higher education *The American University in a Postsecular Age* grapples with key questions How religious or irreligious are faculty and students today What level of religious literacy should be expected from students Can religion be allowed into the classroom without being disruptive Should colleges and universities help students reflect on their own faith Is religion antithetical to critical inquiry Can religion have a positive role to play in higher education This is a state of the art introduction to the national discussion about religion and higher education Leading scholars and top educators express a wide spectrum of opinions that

reflect the best current thinking Introductory and concluding essays by the editors describe the postsecular character of our age and propose a comprehensive framework intended to facilitate ongoing conversation *Souls in Transition* Christian Smith, Patricia Snell, 2009-09-14 Based on candid interviews with thousands of young people tracked over a five year period this book reveals how the religious practices of the teenagers portrayed in *Soul Searching* have been strengthened challenged and often changed as they have moved into adulthood *The First Year Out* Tim Clydesdale, 2008-09-15 Wild parties late nights and lots of sex drugs and alcohol Many assume these are the things that define an American teenager's first year after high school But the reality is really quite different As Tim Clydesdale reports in *The First Year Out* teenagers generally manage the increased responsibilities of everyday life immediately after graduation effectively But like many good things this comes at a cost Tracking the daily lives of fifty young people making the transition to life after high school Clydesdale reveals how teens settle into manageable patterns of substance use and sexual activity how they meet the requirements of postsecondary education and how they cope with new financial expectations Most of them we learn handle the changes well because they make a priority of everyday life But Clydesdale finds that teens also stow away their identities religious racial political or otherwise during this period in exchange for acceptance into mainstream culture This results in the absence of a long range purpose for their lives and imposes limits on their desire to understand national politics and global issues sometimes even affecting the ability to reconstruct their lives when tragedies occur *The First Year Out* is an invaluable resource for anyone caught up in the storm and stress of working with these young adults **Eastern Orthodox Christianity and American Higher Education** Ann Mitsakos Bezzerides, Elizabeth H. Prodromou, 2017-01-15 Over the last two decades the American academy has engaged in a wide ranging discourse on faith and learning religion and higher education and Christianity and the academy Eastern Orthodox Christians however have rarely participated in these conversations The contributors to this volume aim to reverse this trend by offering original insights from Orthodox Christian perspectives that contribute to the ongoing discussion about religion higher education and faith and learning in the United States The book is divided into two parts Essays in the first part explore the historical experiences and theological traditions that inform and sometimes explain Orthodox approaches to the topic of religion and higher education in ways that often set them apart from their Protestant and Roman Catholic counterparts Those in the second part problematize and reflect on Orthodox thought and practice from diverse disciplinary contexts in contemporary higher education The contributors to this volume offer provocative insights into philosophical questions about the relevance and application of Orthodox ideas in the religious and secular academy as well as cross disciplinary treatments of Orthodoxy as an identity marker pedagogical framework and teaching and research subject **Seeing the Light** Samuel Schuman, 2010-01-18 Samuel Schuman examines the place of religious colleges and universities particularly evangelical Protestant institutions in contemporary American higher education Many faith based schools are flourishing They have rigorous academic standards impressive

student recruitment ambitious philanthropic goals and well maintained campuses and facilities Yet much of the U S higher education community ignores them or accords them little respect Seeing the Light considers instead what can be learned from the viability of these institutions The book begins with a history of post secondary U S education from the perspective of the religious traditions from which it arose After focusing briefly on nonevangelical institutions Schuman next looks at three Roman Catholic institutions the College of New Rochelle Villanova University and Thomas Aquinas College He then profiles evangelical colleges and universities in detail discovering the factors contributing to their success These institutions range from nationally recognized to little known from rich to poor with both highly selective and open admission requirements Interviews with key administrators faculty and students reveal the challenges the successes and the goals of these institutions Schuman concludes that these schools Baylor University Anderson University New Saint Andrews College Calvin College North Park University George Fox University Westmont College Oral Roberts University Northwestern College and Wheaton College and others like them offer important and timely lessons for the broader higher education community

Faith and Secularisation in Religious Colleges and Universities James Arthur, 2006-09-27 This book is a detailed study of higher education institutions affiliated to particular religions It considers the debates surrounding academic freedom institutional governance educational policy mission and identity together with institutions relations with the state and their wider communities A wide range of institutions are examined including Christian Islamic and Jewish universities in the US Europe and the Middle East Essentially this volume questions whether such institutions can be both religious and a university and also considers the appropriate role of religious faith within colleges and universities **Evangelism**

Handbook Alvin Reid, 2009 A thoroughly updated overview of how evangelism should happen detailing the work of the Great Commission in four key categories biblical spiritual intentional missional Patriotic Correctness John K. Wilson, 2015-12-03 After 9 11 liberal professors and students faced an onslaught of attacks on their patriotism and academic freedom In a lively narrative this book tells the story of attacks on academic freedom in the past five years It highlights nationally prominent and lesser known cases drawing upon media reports university documents and reports and studies seldom seen by the public It shows how conservative attacks on higher education distort the facts in order to pursue an assault on liberal ideas A wave of Web sites and think tanks urge students to spy on their professors for any sign of deviation from the new PC Patriotic Correctness Free speech on campus is facing its greatest threat in a half century and Patriotic Correctness Academic Freedom and Its Enemies documents the danger to rights and looks to solutions for ensuring and promoting the free exchange of ideas requisite in any thriving democracy **Christianity and the University Experience** Mathew Guest, Kristin Aune, Sonya Sharma, Rob Warner, 2013-09-12 What impact does the experience of university have on Christian students Are universities a force for secularisation Is student faith enduring or a passing phase Universities are often associated with a sceptical attitude towards religion Many assume that academic study leads students away from any existing

religious convictions heightening the appeal of a rationalist secularism increasingly dominant in wider society And yet Christianity remains highly visible on university campuses and continues to be a prominent identity marker in the lives of many students Analysing over 4 000 responses to a national survey of students and nearly 100 interviews with students and those working with them this book examines Christianity in universities across England It explores the beliefs values and practices of Christian students It reveals how the university experience influences their Christian identities and the influence Christian students have upon university life Christianity and the University Experience makes fascinating reading for anyone interested in the survival and evolution of religion in the contemporary world It offers fresh insights relevant to those working with Christian students including churches chaplaincies and student organisations as well as policy makers and university managers interested in the significance of religion for education social responsibility and social cohesion

College Identity Sagas Eric Childers,2012-07-06 In an increasingly homogeneous higher education landscape does organizational identity still matter Specifically church related higher education has experienced seismic shifts since the mid 1960s Framed by emerging research on organizations and theories of isomorphism this book traces the forty year narratives of three colleges of the Evangelical Lutheran Church in America Concordia College Gettysburg College and Lenoir Rhyne University Are these schools seeking to preserve their religious identities and if so what organizational strategies are supporting these efforts In depth personal interviews rigorous document analysis and thoughtful observation give voice to the three stories detailed in College Identity Sagas For those interested in distinctive colleges religiously affiliated higher education and organization and institutional theories this book is a vital resource **Religion and Organization Theory**

Paul Tracey,Nelson Phillips,Michael Lounsbury,2014-04-02 Despite the profound influence that religious organizations exert religion occupies a curiously marginal place in organization theory This volume aims to make available in one place existing knowledge on religion and organizations encouraging more organization theorists to include religion as part of their research activities and agenda *Religion, Work, and Inequality* Lisa Keister,2002-04-17 Work behaviours and inequality in work

based rewards are essential to financial security and general well being Although the benefits of receiving work based rewards such as income benefits and retirement packages are significant they are not enjoyed uniformly This title articulates an agenda for better understanding these social processes *Faith in the Halls of Power* D. Michael Lindsay,2007-09-24

Drawing on personal interviews with an astonishing array of prominent Americans including two former Presidents dozens of political and government leaders more than 100 top business executives plus Hollywood moguls intellectuals athletes and other powerful figures D Michael Lindsay shows first hand how they are bringing their vision of moral leadership into the public square This riveting volume tells us who the real evangelical power brokers are how they rose to prominence and what they re doing with their clout **Leadership in Christian Higher Education** Michael Wright,James Arthur,2016-06-27

Universities and Colleges with a Christian affiliation have in recent years sought to renew and redefine their identities and

almost all have rearticulated their mission for the modern age after a long and serious process of reappraisal This process has been accompanied by an ongoing discussion of the nature and identity of higher education itself This discussion has required leadership that is different from most secular leadership This book provides a range of experienced voices including the Archbishop of Canterbury that reflect on the character and mission of leadership in Christian higher education in the 21st Century *The Politically Correct University* Robert Maranto, Fredrick Hess, Richard Redding, 2009-10-16 The Politically Correct University shows how the universities quest for diversity has produced in too many departments a stifling uniformity of thought Required reading for those who want American universities to eschew political correctness Michael Barone resident fellow American Enterprise Institute **Bill Bright and Campus Crusade for Christ** John G. Turner, 2009-11-30 Founded as a local college ministry in 1951 Campus Crusade for Christ has become one of the world s largest evangelical organizations today boasting an annual budget of more than 500 million Nondenominational organizations like Campus Crusade account for much of modern evangelicalism s dynamism and adaptation to mainstream American culture Despite the importance of these parachurch organizations says John Turner historians have largely ignored them Turner offers an accessible and colorful history of Campus Crusade and its founder Bill Bright whose marketing and fund raising acumen transformed the organization into an international evangelical empire Drawing on archival materials and more than one hundred interviews Turner challenges the dominant narrative of the secularization of higher education demonstrating how Campus Crusade helped reestablish evangelical Christianity as a visible subculture on American campuses Beyond the campus Bright expanded evangelicalism s influence in the worlds of business and politics As Turner demonstrates the story of Campus Crusade reflects the halting movement of evangelicalism into mainstream American society its awkward marriage with conservative politics its hesitancy over gender roles and sexuality and its growing affluence **Faith and Learning** David S. Dockery, 2012 Two dozen Christian higher education professionals thoroughly explore the question of the faith s place on the university campus whether in administrative matters the broader academic world or in student life *Sociology of Religion* William A. Mirola, Michael O. Emerson, Susanne C Monahan, 2015-09-16 A reader that seeks to explore the relationship between the structure and culture of religion and various elements of social life in the U S *Sociology of Religion A Reader 2e* is ideal as either a standalone reader or supplement to the text written by the same author team Why Religion Matters Based on both classic and contemporary research in the sociology of religion this reader highlights a variety of research methods and theoretical approaches It explores the ways in which religious values beliefs and practices shape the world outside of church synagogue or mosque walls while simultaneously being shaped by the non religious forces operating in that world Christian Scholarship in the Twenty-First Century Thomas M. Crisp, Steve L. Porter, Gregg Ten Elshof, 2014-09-19 The Christian tradition provides a wealth of insight into perennial human questions about the shape of the good life human happiness virtue justice wealth and poverty spiritual growth and much else besides

and Christian scholars can do great good by bringing that rich tradition into conversation with the broader culture But what is the nature and purpose of distinctively Christian scholarship and what does that imply for the life and calling of the Christian scholar What is it about Christian scholarship that makes it Christian Ten eminent scholars grapple with such questions in this volume They offer deep and thought provoking discussions of the habits and commitments of the Christian scholar the methodology and pedagogy of Christian scholarship the role of the Holy Spirit in education Christian approaches to art and literature and more CONTRIBUTORS Jonathan A Anderson Dariusz M Brycko Natasha Duquette M Elizabeth Lewis Hall George Hunsinger Paul K Moser Alvin Plantinga Craig J Slane Nicholas Wolterstorff Amos Yong
