God Paradox The:

The Paradox of God and the Science of Omniscience Clifford A. Pickover, 2024-08-06 In his most ambitious book yet Clifford Pickover bridges the gulf between logic spirit science and religion While exploring the concept of omniscience Pickover explains the kinds of relationships limited beings can have with an all knowing God Pickover s thought exercises controversial experiments and practical analogies help us transcend our ordinary lives while challenging us to better understand our place in the cosmos and our dreams of a supernatural God Through an inventive blend of science history philosophy science fiction and mind stretching brainteasers Pickover unfolds the paradoxes of God like no other writer He provides glimpses into the infinite allowing us to think big and to have daring limitless dreams **Paradox** Sergio De La Mora, 2017-10-10 Everyone knows the God who keeps the rules and tells us to keep them too But most have never met the God who breaks the rules and breaks them to bring us close Religion needs an updated understanding of God We have defined God and put Him in a box when it is God who wants to define us God is not satisfied with our living a limited life with a limited view of Him full of confusion hampered by doubt and clouded despite the hundreds of thousands of churches pastors and sermons Whether your rules are personal religious environmental or societal if He has to break them to get to you He will God will do whatever it takes to clarify you call you prepare you and promote you He broke the rules for David for Abraham for Moses for Joshua for Rahab and He will break them for you too if you let Him Because when you re ready to rediscover God there s not a single rule that can get in the way **The Folly of God** Sieger Köder, Rina Risitano, Kieran McKeown, 2007 Featuring the traditional Stations of the Cross and events of the resurrection of Jesus this book offers reflective thoughts to facilitate understanding the symbolism of each image A prayerful meditation is proposed for each particular painting and suggestions are offered for related themes and scripture texts **God and the Scientist** Fraser Watts, 2016-04-22 This book presents a celebration survey and critique of the theological work of arguably the most important and most widely read contributor to the modern dialogue between science and theology John Polkinghorne Including a major survey by Polkinghorne himself of his life s work in theology this book draws together contributors from among the most important voices in the science theology dialogue today to focus on key aspects of Polkinghorne s work with Polkinghorne providing responses Anybody exploring contemporary aspects of the science religion debate will find this book invaluable *God S Mysteries and Paradoxes: Looking Through the Glass, Darkly* Dr. Carroll M. Helm, 2013-11-01 Gods Mysteries and Paradoxes Looking through the Glass Darkly is a book about paradoxes and how they were actually created by God to bring unique enlightenment but also to confound the so called earthly wisdom Paradoxes also keep believers humble by showing them that Gods ways are not always mans ways For this is what the high and lofty One sayshe who lives forever whose name is holy I live in a high and holy place but also with him who is contrite and lowly in spirit to revive the spirit of the lowly and to revive the heart of the contrite Isaiah 57 15 This book introduces the reader to the ancient idea of The Divine

Paradox written by Hermes Trismegistus thrice great in The Divine Pylander An additional book Corpus Hermeticum was translated by Marsilio Ficino during the early Renaissance and helps frame the philosophical paradox of nature versus faith This book along with other fragments written by Hermes Trismegistus was translated in the early 1400s and caused a rebirth of its teachings during the Renaissance Modern secret societies and the occult are using much of the same knowledge to deceive people in the world today Evidence shows Albertus Magnus Roger Bacon and the Knights Templar possessed ancient knowledge and from it gave rise to secret organizations and societies operating today including the Illuminati Freemasons and modern occultists

The Existence of God Yujin Nagasawa, 2011-04-19 Does God exist What are the various arguments that seek to prove the existence of God Can atheists refute these arguments The Existence of God A Philosophical Introduction assesses classical and contemporary arguments concerning the existence of God the ontological argument introducing the nature of existence possible worlds parody objections and the evolutionary origin of the concept of God the cosmological argument discussing metaphysical paradoxes of infinity scientific models of the universe and philosophers discussions about ultimate reality and the meaning of life the design argument addressing Aquinas's Fifth Way Darwin's theory of evolution the concept of irreducible complexity and the current controversy over intelligent design and school education Bringing the subject fully up to date Yujin Nagasawa explains these arguments in relation to recent research in cognitive science the mathematics of infinity big bang cosmology and debates about ethics and morality in light of contemporary political and social events The book also includes fascinating insights into the passions beliefs and struggles of the philosophers and scientists who have tackled the challenge of proving the existence of God including Thomas Aquinas and Kurt Gödel who at the end of his career as a famous mathematician worked on a secret project to prove the existence of God The Existence of God A Philosophical Introduction is an ideal gateway to the philosophy of religion and an excellent starting point for anyone interested in arguments about the existence of God

Paradoxology Krish Kandiah, 2017-01-14 Many of us have big questions about God that the Christian faith seems to leave unanswered But what if that tension is exactly where faith comes alive Paradoxology boldly claims that the paradoxes that seem to undermine belief are actually the heart of our vibrant faith and it is only by continually wrestling with them that God is most clearly revealed

Logic and the Nature of God Stephen T. Davis, 1983-06-30 The book should be assured of the attention of the many on both sides of the Atlantic who are fascinated by this subject John Hick

The Only True God James F. McGrath, 2022-08-15 Monotheism is a powerful religious concept shaped by competing ideas and the problems they raised Surveying New Testament writings and Jewish sources from before and after the rise of Christianity James F. McGrath argues that even the most developed Christologies in the New Testament fit within the context of first century Jewish monotheism McGrath pinpoints when the parting of ways took place over the issue of God's oneness and explores philosophical ideas such as creation out of nothing which caused Jews and Christians to develop differing concepts and definitions about God

God's Camelot Edwin

Zackrisson,2019-04-25 The allusion of Camelot came long after the scriptural pictures of heaven But human vision has always idealized what began in the story of the Garden of Eden Camelot produces gardens in our minds though it is far broader than a simple garden It represents that vision of perfection or more demonstrably utopia with justice and mercy and others Visioning everything to be precise is a possibility that the human mind freely involves itself There is no attempt to see Camelot allegorically in this book But we all have the vision of the knights of the round table and their desires to make the kingdom successful Yet Lancelot also plays a kind of role that is not uncommon to the human condition Preaching Promise withing the Paradoxes of Life Len Hansen,2019-01-01 Paradoxes have become characteristic of the world we live in poverty and privilege empire and oppression migration and enclaves seeking war and peace justice and injustice reconciliation and revenge During the 2016 Societas Homiletica annual conference held in South Africa these paradoxes served as a rediscovery of the calling of preachers to deliver the promise that lies within life s contradictions A divine promise brought forth by the grace of God and the gospel of Christ embodied in and through us by the Spirit of Christ This promise may take many forms and calls for discernment and often interrupts the status quos in surprising shocking ways It is a promise that interrupts in order to comfort *Kierkegaard and the Ends of Language* Geoffrey A. Hale,2002 *God, Revelation and Authority : God Who Stands and Stays (Vol. 5)* Carl F. H. Henry,1999-01-25 Part 5 in a monumental six volume set that presents an undeniable case for the revealed authority of God to a generation that has forgotten who he is and what he has done **From Contemplation to Action** Mark G. Boyer,2018-09-10 Contemplation is a spiritual process involving long thoughtful steady serious and attentive consideration or observation in order to achieve closer unity with God and to discover and understand God s will for the contemplative Contemplation gives rise to activity and activity in turn gives rise to more contemplation The result of contemplation is often called discernment seeing clearly what is at first not very clear or obvious understanding what is not immediately obvious resulting in accuracy of spiritual perception Divine discernment is contemplation in action it results in insight inspiration and an awareness of inner truth upon which one must act While there are countless models of contemplation leading to action the ninth century BCE prophets Elijah and Elisha are the examples used in this book Both are seers messengers and heralds of the LORD They appear in activity when they are needed and they disappear into solitude and silence when they are not Covering Up Luther Rustin E. Brian,2013-03-13 Karl Barth s Christology provides a key to out narrating the Deus absconditus which as Rustin Brian contends is in fact the god of modernity Included in this is the rejection of the logical and philosophical systems that allow for the modern understanding of God as the Deus absconditus namely dialectics and nominalism This rejection is illustrated interestingly enough in Barth s decision to literally cover up with a rug Martin Luther s works in his personal library Surely this was more than a decorative touch The reading of Barth s works that results from this starting point challenges much of contemporary Barth scholarship and urges readers to reconsider Barth Through careful examination of a large body of Barth s writings particularly in regard

to the issues of the knowledge or knowability of God as well as Christology Brian argues that contemporary Barth scholarship should be done in careful conversation with the finest examples of both Protestant and especially Roman Catholic theology Barth's paradoxical Christology thus becomes the foundation for a dogmatic ecumenicism Barth's Christology then just might be able to open up possibilities for discussion and even convergence within a church that is anything but one *Paradoxes* Piotr Łukowski, 2011-06-02 This book provides a critical approach to all major logical paradoxes from ancient to contemporary ones There are four key aims of the book 1 Providing systematic and historical survey of different approaches solutions of the most prominent paradoxes discussed in the logical and philosophical literature 2 Introducing original solutions of major paradoxes like Liar paradox Protagoras paradox an unexpected examination paradox stone paradox crocodile Newcomb paradox 3 Explaining the far reaching significance of paradoxes of vagueness and change for philosophy and ontology 4 Proposing a novel well justified and as it seems natural classification of paradoxes *The Paradoxical Breakthrough of Revelation* Uwe Carsten Scharf, 2015-02-06 No detailed description available for The Paradoxical Breakthrough of Revelation **Nicaea and the Future of Christianity** George E. Demacopoulos, Aristotle Papanikolaou, 2025-07-01 Commemorating the 1700th anniversary of the Council of Nicaea this volume offers an original examination of the enduring impact of the single most famous gathering of Christians since the apostolic age Despite the longstanding historical and theological study of the Council of Nicaea several central questions remain Was Nicaea a theological event or a political one What does it mean if it was both Was Constantine's intervention without precedent or was he simply continuing a long standing role of a Roman emperor who was responsible for leading a religious cult albeit now for a different faith tradition And what about the actual theological debates of Nicaea and our ability to understand them Scholars might never exhaust this avenue of inquiry despite the numerous studies in recent decades For many scholars and Christian activists today the significance of Nicaea centers around the idea of conciliarity and what this has meant both historically and theologically for the Christian community Why and how did Nicaea become foundational for thinking that the church operates in a conciliar manner How did that work historically in different parts of the Christian world And how should it work today Nicaea and the Future of Christianity offers a fresh globally diverse ecumenically minded approach to these questions with an impressive collection of both senior and junior scholars reflecting a diversity of views within the Orthodox Catholic and Protestant traditions The great benefit of this wide ranging approach lies precisely in its ability to see the many ways in which Nicaea continues to speak to the future of Christianity *The New Being* Paul Tillich, 2005-06-01 Meditations on key passages from the Bible by the leading Protestant theologian of the 20th century **The Goldilocks God** Guy Collins, 2022-08-22 The Goldilocks God Searching for the via media explores the fertile middle ground between toxic Christianity and militant atheism Can Christianity be intellectually credible Why do our past failures and breakages offer comfort and hope How does the via media of Anglicanism offer tactics for dealing with contemporary challenges and

uncertainties Whether exploring mystic Hildegard von Bingen strategic thinker Queen Elizabeth or theologians Jean Luc Marion and Sarah Coakley readers venture into a Trinitarian Goldilocks zone of faith hope and love Guy Collins makes a creative and heartfelt case for a spiritual thermodynamics of trial and error promise and glory Illuminating ancient Christian practice with cutting edge philosophy and theology he reveals the lifelong habits that are just right for encountering the mystery of God
