**God Speaks to Scientists, Too** Gale C. Stanford, 2003-07      **God Speaks Science** David A. Johnson, 2024-07-11 *God Speaks Science* by David Johnson explores the molecular level of life through the lens of biochemistry and reveals the harmonious connections between science and faith. Our bodies are an amazing organization of molecules: water, blood, cells, enzymes, proteins, and DNA, all held together by weak hydrogen bonds. While all these aspects of life are being revealed by science, leading to medical miracles, the concept of the original creation remains a mystery. This book encourages readers to learn how the four-letter alphabet of life (DNA) and the twenty-word vocabulary (amino acids) were used to speak all life into existence. The contents are enriched with real-life applications, stories of historical figures, interesting facts, and links to videos showing the beautiful configurations of the body's molecular elements, all demonstrating the beauty of God's creation.

**God Speaks Science** John Van Sloten, 2023-07-04 A joy-filled expedition into experiencing God's majestic everywhere presence. DNA, the Danube River, and deep-sea life, knees and trees, the Swiss Alps, songbirds, and supernovas—God speaks through His creation. And you don't have to be naturally gifted at biology, chemistry, or physics to be awakened to His wisdom and majesty. Pastor, teacher, and non-scientist John Van Sloten invites us to know God more deeply as we marvel at the complexities of His amazing creation. Knowing God through His written Word enables us to know Him more clearly through His creational Words. How does God speak through His creation, and what is He saying? Each chapter includes interviews with leading scientists and connects creation to its Creator. With the primary foundation that Jesus is the mediator of both salvation and creation, Van Sloten fields questions such as: Why are things beautiful, and how can beautiful things be engaged? How does the doctrine of the Trinity teach us about the nature of tree branches and wound healing? What do the doctrines of creation, incarnation, and the resurrection tell us about the phenomenon of supernovas? How do we engage God's providence through knees and fossils? We were made to wonder, to marvel, to know, and to live in awe of God. *God Speaks Science* expands our hearts and minds so that we might delight in the wisdom, beauty, and awesome power of our triune God.      [Foundations of the Gospel](#) Kuldip Singh Gangar, 2018-01-15 In *Foundations of the Gospel*, Kuldip Singh Gangar challenges prevailing nonliteral readings of Genesis 1-3. Against various old-earth views of world origins, Gangar argues that believers can read the Bible at face value and trust the historical accuracy of its account of creation. As the author says, "If at the beginning we cannot take God's Word at face value, then we are left wondering whether other passages should also be read that way or not." Gangar's apologetic commentary provides a defense of young-earth creationism, showing how modern concerns are most reliably addressed with traditional biblical interpretation.      [The Science of Dream Interpretation](#) Frederick L. Coolidge, 2022-09-30 *The Science of Dream Interpretation* presents a scientific, historic, and psychological account of dream interpretation by introducing the biological and evolutionary foundations of sleep, dreams, and dream interpretation. Chapters cover the theory of dream interpretation, the physiological and evolutionary reasons for sleep and dreaming, an overview of

the role dreams and dream interpretation throughout history including the cultural and religious significance of dreams and how dreams interrupt sleep including issues of insomnia sleep walking and more The next few sections present influential dream theorists of the 20th century including a review of their theories Sigmund Freud Carl Jung and Fritz Perls The final section explains how dreams may be used to extract personal meanings and be utilized in psychotherapy including case examples from actual psychotherapy sessions of the techniques used to interpret dreams Presents the evolutionary history of sleep and dreams Discusses the psychotherapeutic techniques of Sigmund Freud Carl Jung and Fritz Perls in relation to dream psychology Reviews the historical and cultural significance of sleep and dreams Examines common and uncommon sleep and dream problems such as insomnia sleep walking and REM sleep disorder Includes actual case examples from psychotherapy sessions

The citizens of the Marshall Islands have been told that climate change will doom their country and they have seen confirmatory omens in the land air and sea This book investigates how grassroots Marshallese society has interpreted and responded to this threat as intimated by local observation science communication and Biblical exegesis With grounds to dismiss or ignore the threat Marshall Islanders have instead embraced it with reasons to forswear guilt and responsibility they have instead adopted in group blame and having been instructed that resettlement is necessary they have vowed instead to retain the homeland These dominant local responses can be understood as arising from a pre existing vigorous constellation of Marshallese ideas termed modernity the trickster a historically inspired narrative of self inflicted cultural decline and seduction by Euro American modernity This study illuminates islander agency at the intersection of the local and

the global and suggests a theory of risk perception based on ideological commitment to narratives of historical progress and decline

What the Bible Says About the Collapse of the Universe: Book I Stanley Lotegeluaki, 2004-02-05 This book is a sequel to my first book What the Bible says about the collapse of the universe Life before the big bang And the 200 billion year history of Christianity the invisible war This book The doctrine of THIRD WAVE CHRISTIANITY is really a distillation of the first book The core of what the Lord revealed to me It is composed of small booklets Jesus Satan The Beast The Lake of fire and older booklets from the first book The Catholics were the first wave and they discomfited Satan The Protestants were the Second wave and they swarmed Satans camp and now are the Third wave Christians space age Christians who believe in the collapse of the universe and Life before the big bang who will over run Satans camp and completely wipe them out The book is designed for Christians who are also scientists and see no problem with the Bible and its compatibility with science It gives information about the collapse of the universe but with new material about the Beast Satan Jesus Africas unification and the founding history of all the nations Third wave Christians are not to go out and make new Churches but they are people who ate the refreshing new information that we missed in the Bible space age information This book proves that Christianity is superior to Islam Hinduism Buddhism Communism and those who make science into a religion Because the Bible says the universe will collapse and Science says the universe will collapse thats proof the Bible is Truth and that God exists Logicians and Christians who are Scientists can use this book to prove that the Bible is True therefore God exists
