Roy Eckardt,2018-01-16 How to Tell God From the Devil is the first book to depict the relationship among comedy the Devil and God Drawing from Jewish and Christian theories Eckardt describes comedy as a means to distinguish the divine from the diabolic He presents a thorough critique of efforts throughout history to justify God in the presence of radical evil and suffering How to Tell God From the Devil is a sequel to Eckardt s fascinating earlier study Sitting in the Earth and Laughing Eckardt offers a theological vision of the comic and shows its practical use in differentiating God from the Devil The viewpoint presupposed is a special application of the incongruity theory of humor which sees humor as an attempt to deal with inexplicable occurrences Eckardt shows how humor can make faulty explanations tolerable for examining evil and suffering particularly the notion that God can somehow be excused for the terrible evils extant in the world Eckardt critiques dualistic views that make the Devil and God independent sovereign beings and monistic views that try to reduce evil to non being Eckardt holds God to be ultimately responsible for evil in such ways that the only final resolution of evil if there is such is a form of divine comedy Eckardt employs a variety of historical psychological sociological philosophical and theological sources He discusses and assesses such diverse figures as Martin Luther Reinhold Niebuhr Zen Buddhists Conrad Hyers Nancy A Walker Jon D Levenson and Harvey Cox How to Tell God From The Devil is an exceptional work and will be significant and enjoyable for sociologists theologians philosophers and specialists concerned with the study of humor The Discovery of Everything, the Creation of Nothing Jim Robert Bader,2011-07-25 The questions have been with us since the dim dark dusk of early humanity Who are we How did we get here Who is in charge In The Discovery of Everything the Creation of Nothing author Jim Robert Bader communicates his personal philosophy on these age old enigmas as they apply to modern society Intended as a primer for the mind of the layman The Discovery of Everything the Creation of Nothing presents a manifesto of the soul that insists the truth is not only out there but easily accessible to anyone Based on years of research and observation Bader distills the complexities and addresses relevant topics from an everyman perspective by pondering the nature of the universe He reflects on the thoughts and discoveries of others to bring knowledge to the common man In The Discovery of Everything the Creation of Nothing Bader offers a new way of understanding the world He confronts old assumptions and he challenges the traditional way of

Novel Talking Michael H. Riley, 2000-12-20 Novel Talking or The Autotelic Otiose A Menippean satire on television and marijuana Dialogues and fantasy futures by a Shakespeare scholar concerning the impact of modern media and recreational chemicals on post literate Bicentennial America A Review of Novel Talking It is one thing for a temporarily retired academic to retreat to the woods deliberately regress to personal and cultural adolescence and dream in silent solitude about stand up classroom verbal eloquence but it is another when these dreams become a theory of human nature going all the way back to the primitive Siberian shaman and are urged on us as a description of modern western man It does not help much that the author a teacher of Shakespeare acknowledges each irony in turn social science theory is nothing but autobiography writing is a dream of speech solitude creates fantasy company Each admitted irony each existential paradox wafts this quixotic author further from his mundane chore to write well To be sure the author agrees Marijuana he says generates first draft or epiphanic thought and the book is thus a composition text an illustration of pride and flaw If indolence has been the hallmark of my execution for quite a while in several areas should I not make it the focus of my educational effort Thus will the stone soup of this Peter Pan preserve if not communicate the creative vision which he defines as an idealistic blurring of forms which allows autobiography cultural history ethical paradigm and ecstatic witness to reveal common roots in ego and fiction In method and subject roughly being stoned and watching the tube Novel Talking is adolescent pastoral aware of itself as an idyll It is a survey of the four seasonal literary modes comedy tragedy irony and romance each presented with a behavioral analogue from the social sciences The pattern for tragedy the western body soul dualism derives from the cultural practice of swaddling Its first articulation is by the ancient shaman who performs an imitation of a wrapped rapt memory of an imagined unwrapped act a magic spirit flight from the body an ineffable claim convincing enough to arouse sustain and focus to his profit the fight flight tension the mingled rage and ridicule of the gathering within the sound of his voice In further discussion the swaddle itself becomes an analogue for various contemporary sedentary recreational states including television and

chemical euphoria which are contrasted with group ritual behavior in order to suggest ways to deal with emerging national patterns of domestic equality and mutual grooming This is a rather heavy argument to be founded as the author says only on cultural generalizations and more importantly on purely autobiographical analogies He further asserts that it is only because of the fashion of the times that he speaks in this way He is only a Boy Scout an acolyte only a shaman stoned He has a theory of gentility of manners and God is a personal laugh track He is looking for work We seek he says only what we lack At the college level of this author s prime pedagogic fantasy only one of several this search translates as a form of residential literary and critical counseling minor arbitration general assaying duck rowing a kind of WASP male Uncle Tomming or intellectual groping for pay that can only be imagined perhaps after three years alone in the woods It s going to have to be a no frills fantasy this academic niche because the writing of this book will compel poetic justice academic logic and Dame Fortune to all insist that its author teach composition for a living And that would be after all the best framework for coaching the logical and literary mise en scene of a gathering of shamen Heaven help his students nbs
