God Knowable And Unknowable:

God Knowable and Unknowable Robert J. Roth,1979 The Concept of God Ronald H. Nash,1983 This book brings together for the general reader the intense and wide ranging discussions now taking place among philosophers on the attributes of God Because of its clear explanations numerous examples brevity and breadth The Concept of God can be an important supplemental text to theology classes and philosophy or religion classes Lightning Print On Demand Title **The Unknowable God** Ignacio L. Götz,2021-03-16 Most contemporary Christians are polytheists They believe in many gods unawares of course There is a Father god depicted old and white haired there is a Son god middle aged identified with Jesus of Nazareth and there is a Spirit god symbolized by a dove Many artists have depicted this trinity like El Greco who painted his The Trinity in 1578 These three gods are believed to constitute only one divinity but very few ordinary Christians could explain how this could be the case This plurality of gods is the reason why Christianity is reviled by Jews and Muslims who affirm steadfastly the unicity of God and who ban any pictorial representation of the divinity The very first Christians the family and friends of Jesus who were Jews would not have held such a pagan belief but their writings were destroyed by later adherents so we lack the evidence to prove this Christians claim that the Trinity has been revealed but the fact is that such revelation is disproved by science and philosophy So why not transcend this trinity in a contemplation of the One Unknowable God of all Why not learn to live without knowing what God is being satisfied with the belief that God is neither male nor female neither triad nor monad but simply the Divine Incognito **The God who Risks** John Sanders,1998-01-01 In The God Who Risks theologian John Sanders enlightens pastors and lay persons who struggle with questions about suffering evil and human free will **The Story of Us Humans, from Atoms to Today's Civilization** Robert Dalling,2006-03 The Story of Us Humans explains human nature and human history including the origins of our species emotions behavior morals and society It explains what we are how we got here and where we are today by describing the origin history and current ways of our neighborhoods religion government science technology and business Written in plain language it explains what astronomy physics geology biology chemistry anthropology history religion social science and political science tell us about ourselves Most everyone feels that human success is measured in terms of healthy and happy children and communities Human thoughts and actions involve little besides love and children spouse and family community and justice because we are parenting mammals and social primates Each of us simply wants to laugh and joke with our family and friends pursue life raise children and strive to be a valued and contributing member of our community We have made incredible progress building civilization in just a few hundred generations using nothing except our animal minds Have you wondered What are the laws of nature and how many laws are there How did molecular life begin and then evolve into worms fish amphibians reptiles mammals primates and humans What are the differences between these animals How did we get from the Big Bang to bacteria and on to Christianity democracy and globalization What is life like for gatherer hunters

The Unknown God Deirdre Carabine, 2015-01-26 This book contains a careful thorough and where necessary skeptical as regards doubtful evidence especially in the case of Plato and the Old Academy of the beginnings in European thought of the negative or apophatic way of thinking and its relations to more positive or kataphatic ways of thinking about God One of its greatest strengths perhaps the greatest is that the author makes clear that none of the persons concerned Hellenic Jewish or Christian was engaged in the pursuit of a philosophical abstraction or the heaping of rhetorical superlatives on God They were rather concerned to present the origin of the universe as an intimately present living reality which infinitely transcends our thought and speech This combined with careful attention to the varieties of negative theology and its relations with positive and the particular difficulties experienced by the members of the various traditions involved makes the book the best introduction to the negative theology available A H Armstrong Emeritus Professor of Greek University of Liverpool England Emeritus Professor of Classics Dalhousie University Halifax Nova Scotia Canada Senior Fellow of the British Academy

Inner and Outer Meanings of Koran (Quran) M. Singh Parashar, 2013-11-08 In this translation of Koran all the verses have been rearranged subject wise The Koran has been divided into two parts a The divine and infallible Koran b The human and fallible Koran due to absence of the hidden meanings Suggestions Follow the following rule an eye for an eye an eye for a nose an eye for an ear an eye for a teeth Collect the eyes and give these to the eye bank Do not cut of the hand of the thief Take out an eye of the thief and give to the blind man By this system an error of justice can be rectified by returning the eye back to the man who has been wrongly declared as a thief Do not stone the adulterer to death Take out an eye kidney and other organs out of the body of the adulterer or rapist and collect the money by selling these organs and give this money to the victim of rape etc A constructive punishment is better than a destructive punishment

The Academy , 1905 **God's Acting, Man's Acting** Francesca Calabi, 2008 The topic tackled in this book is Philo s account of the complex double sided nature of God s acting the two sided coin of God as transcendent yet immanent unknowable yet revealed immobile yet creating and also the two sides of acting in humans who in an attempt to imitate God both contemplate and produce In both contexts divine and human Philo considers that it would not be proper to give precedence to either side the result would be barren God s acting and man s acting are at the same time both speculative

and practical and it is precisely out of this co presence that the order of the world unfolds Philo considers this two sided condition as a source of complexity and fertility Francesca Calabi argues that far from being an irresolvable contradiction Philo s two fold vision is the key to understanding his works It constitutes a richness that rejects reduction to apparently incompatible forms and aspects Knowing God: Ibn ‘Arabī and ‘Abd al-Razzāq al-Qāshānī’s Metaphysics of the Divine Ismail Lala,2019-11-26 Can we know God or does he reside beyond our ken In Ibn Arab and Abd al Razz q al Q sh n s Metaphysics of the Divine Ismail Lala conducts a forensic analysis of the nature of God and His interaction with creation Looking mainly at the exegetical works of the influential mystic Mu y al D n ibn Arab d 638 1240 and one of his chief disseminators Abd al Razz q al Q sh n d 736 1335 Lala employs the term huwiyya literally He ness as an aperture into the metaphysical worldview of both mystics Does Al Q sh n agree with Ibn Arab s conception of God Does he agree with Ibn Arab on how God relates to us and how we relate to Him Or is this where Sufi master and his disciple part ways *Maximus the Confessor as a European Philosopher* Sotiris Mitralaxis,Georgios Steiris,Marcin Podbielski,Sebastian Lalla,2017-09-18 The study of Maximus the Confessor s thought has flourished in recent years international conferences publications and articles new critical editions and translations mark a torrent of interest in the work and influence of perhaps the most sublime of the Byzantine Church Fathers It has been repeatedly stated that the Confessor s thought is of eminently philosophical interest However no dedicated collective scholarly engagement with Maximus the Confessor as a philosopher has taken place and this volume attempts to start such a discussion Apart from Maximus relevance and importance for philosophy in general a second question arises should towering figures of Byzantine philosophy like Maximus the Confessor be included in an overview of the European history of philosophy or rather excluded from it as is the case today with most histories of European philosophy Maximus philosophy challenges our understanding of what European philosophy is In this volume we begin to address these issues and examine numerous aspects of Maximus philosophy thereby also stressing the interdisciplinary character of Maximian studies Contributors include Fr Maximos Constas Justin Shaun Coyle Vladimir Cvetkovi Natalie Depraz Demetrios Harper Michael Harrington Georgi Kapriev Karolina Kocha czyk Boni ska Nicholas Loudovikos Andrew Louth John Panteleimon Manoussakis Michail Mantzanas Smilen Markov Sotiris Mitralaxis Marcin Podbielski Dionysios Skliris Georgios Steiris Stoyan Tanev Torstein Theodor Tollefsen Jordan Daniel Wood **The Homiletic Review** ,1888 **Preacher and Homiletic Monthly** ,1888 **Atheism at the Agora** James C Ford,2023-08-11 This fresh comprehensive study of ancient Greek atheism aims to dismantle the current consensus that atheism was unthinkable in ancient Greece demonstrating instead that atheism was not only thinkable but inextricably embedded in the Greek religious environment Through careful analysis of a wide range of source material provided in modern English translation and drawing on philosophy theology sociology and other disciplines Ford unpicks a two and a half thousand year history of marginalisation clearing the way for a new analysis He lays out in clear terms the nature and form of

ancient Greek atheism as the ancient Greeks conceived of it through a series of themes and lenses Topics such as religious socialisation the interaction of atheist philosophy and theology identity formation through alterity and the use of atheism in scapegoating are considered not only in broad terms using a synthesis of modern scholarship to mark out an overview in line with modern consensus but also by drawing on the unique perspective of ancient atheism Ford is able to provide innovative theories about a range of subjects Atheism at the Agora is of interest to students and scholars in Classics particularly Greek religion and culture as well as those studying atheism in other historical and contemporary areas religious studies philosophy and theology

Transformation in Christ David A. Ackerman, 2019-06-06 Although Paul used language similar to the religions and cultures of his time he had a unique understanding of the mystery of God The once hidden plan of God was revealed and fulfilled in the person of Jesus of Nazareth Saul of Tarsus experienced a fundamental change when he encountered the risen Jesus on the road to Damascus This vision gave him new direction and purpose and profoundly changed his understanding of God's plan for humanity Paul often uses the phrase in Christ or its variations to describe this plan Being in Christ results in transformation into Christ's likeness of holiness and love through the indwelling Holy Spirit Those in Christ form a new community that crosses ethnic barriers is bound together in fellowship with the Triune God and fulfills its purpose of holiness before him Paul's answer to the struggles people face is simple when one is united with Christ by dying to the old self and committing to his supremacy one will find victory over any force opposed to us in this world This book explores one of the most profound claims in the New Testament that demands a response of its readers

The Indescribable God Barry D. Smith, 2012-10-05 The God of classical Christian faith is radically transcendent utterly beyond understanding and words So if God is to be known it must be in the luminous darkness of unknowing Drawing on a wide range of primary sources biblical patristic and medieval Barry D Smith identifies and explores seven ways of expressing the otherness of God in classical Christian thinking By allowing historical theologians to speak for themselves he shows how an aversion to ontotheology long precedes postmodernism The book first lays out the Old Testament and New Testament foundations for subsequent Christian reflections on divine transcendence These were the teachings that the early church assumed and with the assistance of Greek philosophy further refined with their own set of apophatic conceptual tools The main focus of the book is a sevenfold exposition of that theological refinement Smith concludes by looking towards possible future theological developments within this apophatic tradition Drawing on the theological methodology of historic Christianity he indicates how a synthesis of the biblical teaching on the otherness of God with philosophical traditions other than those inherited from Greek philosophy is also possible

The Model of Everything Ralph Brown, 2021-01-06 When humanity questions the purpose of existence they often turn to science or religion for answers Unfortunately both science and religion contain inconsistencies These inconsistencies touch the human spirit in the most profound ways resulting in an uneasiness about life Do I really have a purpose Seeking to address the spiritual unease the history of humanity documents

the development and pursuit of religion with a concept of a divine creator with a plan for humanity However in more recent history with an increasing emphasis on scientific knowledge the concept of a divine creator is increasingly discounted as inconsistent with the material world revealed by scientific discovery Via the scientific method humanity is turning its focus to the material world creating new gods of science and the purveyors of scientific knowledge But rather than provide definitive answers as science continues to advance the theories of creation point increasingly to inconclusive and inconsistent results These shortcomings of science are often veiled in the expression Someday we will know but many in the scientific community are beginning to question that hope With science and religion each plagued with inconsistency perhaps appropriately integrating them will lead us to the real answers we seek The Model of Everything A Divine Universe relies on both scientific and biblical knowledge to fully integrate science and religion in a consistent complementary and interdependent fashion This confluence and synergy of knowledge reveal a comprehensive model that accounts for the totality of human existence the physical and spiritual The reader via personal and straightforward experiments participates in developing the model Biblical knowledge is the pointer for a unique application of scientific knowledge Then the incredible and sometimes bizarre world of science reveals how God teaches us about our existence and spirituality The integration of scientific and biblical knowledge results in several new mental constructs providing an account for the totality of creation the material and immaterial and a genuine hope and understanding of personal existence The model presents some eye popping implications and applications as well as predictions on future scientific progress and outcomes Each reader is invited and encouraged to become a scientist a scientist prepared to chart a life changing personal discovery **Asia's Message to Europe** Keshub Chunder Sen,1883
