Darian, 2001-01-01 No river has kindled Man s imagination like the Ganges From its icy origins high in the Himalayas this sacred river flows through the holy cities and the great plains of northern India to the Bay of Bengal In a country where the red heat of summer inspires prayer for the coming monsoon the life giving waters of the Ganges have assumed legendary powers in the form of the Hindu goddess Ganga the source of creation and abundance Pilgrims flock to her shores to cleanse and purify themselves to cure ailments and to die that much closer to paradise Steven Darian writes of the human experience and the legendary myths that surround the Ganges While collecting material for this book Dr Darian lived by the Ganges explored her shores and was a pilgrim to the Ganga Sagar festival at Sagar Island off Calcutta where the

sacred river and the ocean merge *Man in India* Sarat Chandra Roy (Rai Bahadur),1921 **Goddesses and Trees, New Moon and Yahweh** Othmar Keel,1998 The first study in this volume considers the cults of goddesses dedicated to trees and the Earth in the Near East before the Deuteronomistic reform The 2nd study considers the cult of the moon and its surprising survival in the Hebrew canon **People Trees** David L. Haberman,2013-04-25 This is a book about religious conceptions of trees within the cultural world of tree worship at the tree shrines of northern India Sacred trees have been worshipped for millennia in India and today tree worship continues there among all segments of society In the past tree worship was regarded by many Western anthropologists and scholars of religion as a prime example of childish animism or decadent popular religion More recently this aspect of world religious cultures is almost completely ignored in the theoretical concerns of the day David Haberman hopes to demonstrate that by seriously investigating the world of Indian tree worship we can learn much about not only this prominent feature of the landscape of South Asian religion but also something about the cultural construction of nature as well as religion overall The title *People Trees* relates to the content of this book in at least six ways First although other sacred trees are examined the pipal arguably the most sacred tree in India receives the greatest attention in this study The Hindi word pipal is pronounced similarly to the English word people Second the personhood of trees is a commonly accepted notion in India Haberman was often told This tree is a person just like you and me Third this is not a study of isolated trees in some remote wilderness area but rather a study of trees in densely populated urban environments This is a study of trees who live with people and people who live with trees Fourth the trees examined in this book have been planted and nurtured by people for many centuries They seem to have benefited from human cultivation and flourished in environments managed by humans Fifth the book involves an examination of the human experience of trees of the relationship between people and trees Haberman is interested in people's sense of trees And finally the trees located in the neighborhood tree shrines of northern India are not controlled by a professional or elite class of priests Common people have direct access to them and are free to worship them in their own way They are part of the people's religion Haberman hopes that this book will help readers expand their sense of the possible relationships that exist between humans and trees By broadening our understanding of this relationship he says we may begin to think differently of the value of trees and the impact of deforestation and other human threats to trees **The Rainbow** Claas Jouco Bleeker,1975 **"The" Westminster Review** ,1898 *Light from the East* Charles James Ball,1899 **WomanSpirit** ,1978 The Evolution of the Hebrew People Laura Hulda Wild,1917 **The Migration of Symbols** D.
