The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states

Revolution, Repression, and Revival Zvi Gitelman, Yaacov Ro'i, 2007-11-06 Revolution Repression and Revival enhances our understanding of the Russian Jewish past by bringing together some of the latest thinking by the leading scholars from the former Soviet Union Israel and the United States The book explains the contradictions ambiguities and anomalies of the Russian Jewish story and helps us understand one of the most complex and unsettled chapters in modern Jewish history

Russian and Soviet Diplomacy, 1900-39 Alastair Kocho-Williams, 2011-12-13 Addressing the impact of the Russian Revolution and change and continuity in diplomacy during the transition from Empire to Soviet Union this book examines how Russia's diplomacy was conducted the diplomats behind it the establishment of the Soviet diplomatic corps and the steps taken to integrate the Soviets into the diplomatic world *Russia and the Moslem World*, 2004 [Russian Social Science Review](#), 2008 **The Conundrum of Russian Capitalism** Ruslan Dzarasov, 2013-12-06 The fall of the Soviet Union and the emergence of contemporary Russian capitalism are often all too often read as a juncture with the past In reality Russia's current capitalist system originated in the degenerated Soviet bureaucracy alongside the pressures of global capital From Roman Abramovich to Leonid Mikhelson the reign of the CEO in Russia corporations mirrors the autocracy of the Soviet Union's leaders the Russian tradition of the Cult of Personality lives on The conception of the massive corporations and the autocrats that lead them occurred towards the end of the Soviet Union when the would be owners seized corporate assets and taking advantage of Gorbachev's reforms transformed publicly owned industry into private enterprises with themselves at the helm By comparing the practices of Russian corporate governance labour practices and investment strategies to the typical models of corporate governance and investment behaviour of big firms in the West Ruslan Dzarasov exposes the parallels between the core and the periphery of the capitalist world system Drawing on the theory of Leon Trotsky as well as Immanuel Wallerstein and Robert Brenner this study disrupts many of the myths about Russia's political economy

Problems of Economic Transition, 2007-05 **OECD Economic Surveys: Russian Federation 2006** OECD, 2006-12-05 This 2006 edition of OECD's periodic review of the Russian economy finds an economy enjoying robust growth but requiring strengthening of the macroeconomic framework to sustain that growth Public administration urgently needs reform and raising **Soviet Space Culture** E. Maurer, J. Richers, M. Rüthers, C. Scheide, 2011-08-16 Starting with the first man made satellite Sputnik in 1957 and culminating four years later with the first human in space Yuri Gagarin space became a new utopian horizon This book explores the profound repercussions of the Soviet space exploration program on culture and everyday life in Eastern Europe especially in the Soviet Union itself *Reforming the Russian Industrial Workplace* Elena Shulzhenko, 2017-04-21 Based on extensive original research this book explores how far the Soviet pattern of industrial workplace organisation characterised by a high level of management discretion authoritarian control and the use of punitive methods on the shop floor has been replaced by internationally established practices with a greater emphasis on a lean organisation and employee involvement in quality improvement The book explores how the market reforms of the 1990s raised companies attention to product quality but did not lead to a change in the management methods which only began with the increased internationalisation of the Russian economy in the 2000s The book includes a rich in depth study of multinational and domestic companies and argues that a move from the Soviet pattern of workplace organisation to new practices is only likely to occur in companies with strong ties to international partners who provide support for and audit the

implementation and upholding of international management standards The research shows that local companies not exposed to such international collaboration continue with the old methods

Market as a Weapon Anton Oleinik, 2017-09-08 Power is all encompassing in Russia and mediates most interactions among people including everyday decisions Even the recent administrative reforms in the country which began at the end of the 1990s have tried to reshape the government institutions and modernize the country through the use of power Changes were initiated and implemented by people vested with power Power convention and trust can all support coordination However in the Russian institutional context power tends not only to supplement the alternative coordination mechanisms but also to substitute them Power can be used to solve problems related to social action by merging two or several centers of decision making into one The actor vested with power decides exactly how coordination and adjustment can be achieved This path breaking volume shows how power turns into a unique coordination mechanism and what are consequences of such transformation for everyday life and businesses *Market as a Weapon* focuses on issues of power and domination using the configuration of power relationships in Russia as a critical case but goes far beyond a narrowly defined scope of country specific studies Particular emphasis is put on domination by virtue of a constellation interests in the market since this is a relatively underexplored yet broadly used technique for imposing will in all countries that heavily rely on interventionist policies Instead of being a liberating force the market becomes an additional instrument facilitating the continuous reproduction of power which explains the title of the book Both qualitative and quantitative data including more than one hundred in depth interviews with experts state servants and businesspeople in Russia as well as statistics are used throughout the text of this major book

Red Leviathan Ryan Tucker Jones, 2022-05-30 A revealing and authoritative history that shows how Soviet whalers secretly helped nearly destroy endangered whale populations while also contributing to the scientific understanding necessary for these creatures salvation The Soviet Union killed over six hundred thousand whales in the twentieth century many of them illegally and secretly That catch helped bring many whale species to near extinction by the 1970s and the impacts of this loss of life still ripple through today s oceans In this new account based on formerly secret Soviet archives and interviews with ex whalers environmental historian Ryan Tucker Jones offers a complete history of the role the Soviet Union played in the whales destruction As other countries especially the United States Great Britain Japan and Norway expanded their pursuit of whales to all corners of the globe Stalin determined that the Soviet Union needed to join the hunt What followed was a spectacularly prodigious and often wasteful destruction of humpback fin sei right and sperm whales in the Antarctic and the North Pacific done in knowing violation of the International Whaling Commission s rules Cold War intrigue encouraged this destruction but as Jones shows there is a more complex history behind this tragic Soviet experiment Jones compellingly describes the ultimate scientific irony today s cetacean studies benefited from Soviet whaling as Russian scientists on whaling vessels made key breakthroughs in understanding whale natural history and behavior And in a final twist *Red Leviathan* reveals how the Soviet

public began turning against their own country's whaling industry working in parallel with Western environmental organizations like Greenpeace to help end industrial whaling not long before the world's whales might have disappeared altogether

Russia Since 1980 Steven Rosefielde, Stefan Hedlund, 2009 Russia since 1980 recounts the epochal political economic and social changes that destroyed the Soviet Union ushering in a perplexing new order Two decades after Mikhail Gorbachev initiated his regime wrecking radical reforms Russia has reemerged as a superpower It has survived a hyperdepression modernized restored private property and business adopted a liberal democratic persona and asserted claims to global leadership Many in the West perceive these developments as proof of a better globalized tomorrow while others foresee a new cold war Globalizers contend that Russia is speedily democratizing marketizing and humanizing creating a regime based on the rule of law and respect for civil rights Opponents counterclaim that Russia before and during the Soviet period was similarly misportrayed and insist that Medvedev's Russia is just another variation of an authoritarian Muscovite model that has prevailed for more than five centuries The cases for both positions are explored while chronicling events since 1980 and a verdict is rendered in favor of Muscovite continuity Russia will continue challenging the West until it breaks with its cultural legacy

Russian Environmental Politics Ellie Martus, 2017-07-06 Protecting the environment is a key issue for Russia with its vast wilderness areas and its economy's reliance on extractive industries which have the potential to cause massive pollution This book explores how policymaking works in Russia focusing on the important field of environmental policy It argues that contrary to the prevailing view that the presidency dominates the policy process with Putin making all major decisions or at least being the arbiter between conflicting parties policy is in fact made a range of competing interests including the bureaucracy and influential industry and industrial association lobbyists with relatively little intervention from Putin The book shows how although Russia does not have a strong civil society environmentalist views are represented through the institutionalized bureaucracy The book concludes that policy decision making in Russia is quite dispersed and not overcentralized

Madness and the Mad in Russian Culture Angela Brintlinger, Ilya Vinitsky, 2015-11-26 The problem of madness has preoccupied Russian thinkers since the beginning of Russia's troubled history and has been dealt with repeatedly in literature art film and opera as well as medical political and philosophical essays Madness has been treated not only as a medical or psychological matter but also as a metaphysical one encompassing problems of suffering imagination history sex social and world order evil retribution death and the afterlife Madness and the Mad in Russian Culture represents a joint effort by American British and Russian scholars historians literary scholars sociologists cultural theorists and philosophers to understand the rich history of madness in the political literary and cultural spheres of Russia Editors Angela Brintlinger and Ilya Vinitsky have brought together essays that cover over 250 years and address a wide variety of ideas related to madness from the involvement of state and social structures in questions of mental health to the attitudes of major Russian authors and cultural figures towards insanity and how those attitudes both shape and are shaped

by the history culture and politics of Russia *Russian Bible Wars* Stephen K. Batalden,2013-03-14 This first comprehensive history of the Russian Bible demonstrates how scriptural translation exposed serious divisions in modern Russian religious culture *The Politics of HIV/AIDS in Russia* Ulla Pape,2013-10-01 This book studies the role of civil society organisations in the fight against HIV AIDS in Russia It looks at how Russia s HIV AIDS epidemic has developed into a serious social economic and political problem and how according to the United Nations Programme on HIV AIDS UNAIDS Russia is currently facing the biggest HIV AIDS epidemic in all of Europe with an estimated number of 980 000 people living with HIV in 2009 The book investigates civil society organisations contribution to social change and civil society development in post Soviet Russia and thus situates a specific type of civil society actors into a broader socio political context and questions their ability to represent civic interests particularly in the field of social policy making and health This allows for a better understanding of the dynamics of state society relations in present day Russia and gives insight into the ways HIV AIDS NGOs in Russia have used transnational ties in order to exert influence on domestic policy making in the field of HIV AIDS *The Economics of Transition* Egor Timurovich Gaïdar,2003 This collection of essays discuss the economic policy problems that confront postcommunist countries Most chapters focus on liberalization of the exchange rate and trade system macroeconomic stabilization and institutional reform
