Arnold,2021-06-30 God s Grand Design By William R Arnold Edited by Ms Aurora Payad Arnold God s Grand Design is to restore mankind to its original state of sacred perfection after Adam and Eve fell and created the original sin of disobedience hiding and lying to the Lord When God cursed the serpent for tempting Adam and Eve to be like God he promised to send his only begotten Son to save humanity He did via the incarnate word in the womb of the immaculately conceived Virgin Mary God wants to be man and receive a new body to defeat death through Jesus Christ Man wants to become God to receive eternal life Man s journey to become God starts from being an ignorant baby gaining knowledge to a cowardly teenager obtaining courage to an adult converting greed to generosity to a wise man changing selfishness to unselfishness and at last to a free man able to think for himself in eternal service to God in his kingdom The journey requires him to know right from wrong good from evil and God s will from man s will and thus defeat evil worldly temptations and demonic possession Through Christ God and man are destined to become one through three advents making the God Man Christ into the new human spirit blessings Then the Man God Jesus becomes the new human flesh to make all things perfect in the sight of God Jesus Christ came as a priest on a donkey to decode the Torah bring knowledge and remove blindness to defeat sin By his death and resurrection he granted free redemption to man s flesh to give him a new body The second coming of Jesus Christ as thief in the night will bring awakening to remove deafness by teaching God s truths to defeat evil As a just judge on a cloud on his third advent the Lord will remove mankind s dumbness to defeat death And then man can become worthy of receiving God s rewards of paradise in heaven or heaven on earth      Geology of the Gods Narrows Area, Gods Lake Mining Division 53L/9 (west Half) George S. proposed by Zecharia Sitchin in *The 12th Planet* Shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA. Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki. Scholars have long believed that the first civilization on Earth emerged in Sumer some 6 000 years ago. However, as Michael Tellinger reveals, the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200 000 years ago. Sent to Earth in search of life-saving gold, these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold, thus beginning our global traditions of gold obsession, slavery, and god as dominating master. Revealing new archaeological and genetic evidence in support of Zecharia Sitchin's revolutionary work with pre-biblical clay tablets, Tellinger shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA, which explains why less than 3 percent of our DNA is active. He identifies a recently discovered complex of sophisticated ruins in South Africa, complete with thousands of mines, as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy. Matching key mythologies of the world's religions to the Sumerian clay tablet stories on which they are based, he details the actual events behind these tales of direct physical interactions with god, concluding with the epic flood, a perennial theme of ancient myth that wiped out the Anunnaki mining operations. Tellinger shows that as humanity awakens to the truth about our origins, we can overcome our programmed animalistic and slave-like nature, tap in to our dormant Anunnaki DNA, and realize the longevity and intelligence of our creators, as well as learn the difference between the gods of myth and the true loving God of our universe.

*If the Bible Is as Much Fable as Fact, Did God Create Man or Did Man Create God?* Peter Seiler, 2015-07-10

If the Bible is as Much Fable as Fact, Did God Create Man or Did Man Create God searches for a reasonable and reasoned foundation upon which to speak of the relationship between God and humanity. The author Peter Seiler marshals his education in both science and history in his exploration of the Bible's claims of faith, shedding the light of scientific findings and historical analysis on the biblical texts. Spanning ten parts, the text begins with an extended introduction to the author and his method, before conducting a four-part examination of the history of faith from the ancient past through the Enlightenment. Then the author examines in three parts the case for the involvement of alien life in human history. Finally, he turns to the future, before summarizing his conclusions. If the Bible is as Much Fable as Fact, Did God Create Man or Did Man Create God will satisfy the hunger of readers who desire to shed the light of reason, bolstered by verifiable facts, upon the claims of faith. It also will intrigue people with deeply held beliefs who desire to know the yearnings of their friends and family members who find those same claims of faith on the far side of a chasm they cannot traverse by a leap of faith. In either case, If the Bible is as Much Fable as Fact, Did God Create Man or Did Man Create God makes a powerful case for its perspective on the title's question.
