Divine Intervention at 5 to Midnight Alan J Porter, 2016-12-08 In January 2010 the author had a continuing vision of a medieval square he'd neither seen nor visited before in BANSKA BYSTRICA SLOVAKIA Later that year events unfolded whereby the author and two friends embarked on a 4 000 mile journey across Europe This vision would later see him staying for over four years in Banska Bystrica to paint an enormous 6 metres wide by 4 metres high painting showing over 500 children from around the world which will bring peace to the conflict between Palestine and Israel The painting is called Children Are the Future and encoded within it is a message for peace between Palestine and Israel The prophecy he had received twenty years before that the world was getting ever closer to a theatre of crisis makes him believe that a Divine Intervention is taking place using him as a vehicle to bring peace and to give the message of the meaning and purpose of life This is part of the journey that has led to the present day of November 1st 2016

Anna-Teresa Tymieniecka,2012-12-06 It would seem that modern humanity has unthroned the human spirit undercutting the very foundation of the validity of truth moral values and principles There appears to be no attempt to discern what is beautiful and true it is functional and pragmatic usefulness that seem to dominate human evaluations and transactions with other humans and indeed animals Humanity is becoming detached from the higher aesthetic moral and intellectual works of the human spirit and thus the life of the spirit is often situated on the other side of a gulf opposed to science with its

rationality Culture is in danger of becoming reduced to science In other words the great metaphysical questions those of telos of sense often are answered in terms of scientific conceptions But these are at least incomplete if not fragmentary and in principle hypothetical which still leaves the questions unanswered But it is culture that is the manifestation of the human spirit being the historical process of human self interpretation in existence All manifestations of the creative forge of the human being find a role in the fabric of culture which involves progressively widening circles of the human community demanding an integration and attunement with others in their changing conditions of life This consideration of culture involves all areas of philosophical reflection moral aesthetic metaphysical epistemological semiological cognitive and more
