Beethoven in German Politics, 1870-1989 David B. Dennis, 1996-01-01 This absorbing book chronicles the exploitation of Beethoven's life and work by German political parties from the founding of the modern nation in 1870 to the peaceful East German Revolution of 1989 David Dennis taps a wealth of new archival resources to examine for the first time how propagandists of every persuasion have transformed Beethoven and his art into powerful and varied national symbols In fascinating detail Dennis introduces many Beethovens each fashioned as part of a process that transformed the composer into the most protean and widely abused cultural political symbol in modern German history David Large Montana State University This book should fascinate not only Beethoven devotees but also anyone interested in the elusiveness and malleability of historical evidence James R Oestreich New York Time *Two Boston Brahmins in Goethe's Germany* Anna Ticknor, George Ticknor, 2009-01-01 This volume presents the travel journals of George and Anna Ticknor a prominent American couple from their German tours in the first third of the nineteenth century The parallel yet independent writing of these travel journals by husband and wife give these journals a unique character *Salvation through Spinoza* David Wertheim, 2011-09-20 Despite his reputation as a heretic Baruch Spinoza was one of the major heroes of the Jewish cultural Renaissance in Weimar Germany This study traces Weimar Jewry's infatuation with Spinoza as it was manifested in scholarship the popular press and novels It tells of how Jews who found themselves oscillating between the social pressures to both assimilate and remain authentic sought refuge in a thinker who epitomized both the rationality and liberalism of the Weimar Republic's enlightened defenders as well as the mysticism of its neo romanticist challengers In recapturing this forgotten chapter in the history of Spinozism this book sheds an original light on Weimar Germany's reknown Jewish culture

Goethe on Art Johann Wolfgang von Goethe, 1980-01-01 **German Cosmopolitan Social Thought and the Idea of the West** Austin Harrington, 2016-05-19 There has been considerable interest in recent years in German social thinkers of

the Weimar era Generally this has focused on reactionary and nationalist figures such as Schmitt and Heidegger In this book Austin Harrington offers a broader account of the German intellectual legacy of the period He explores the ideas of a circle of left liberal cosmopolitan thinkers Troeltsch Scheler T nnies Max Weber Alfred Weber Mannheim Jaspers Curtius and Simmel who responded to Germany s crisis by rejecting the popular appeal of nationalism Instead they promoted pan European reconciliation based on notions of a shared European heritage between East and West Harrington examines their concepts of nationhood religion and civilization in the context of their time and in their bearing on subsequent debates about European identity and the place of the modern West in global social change The result is a groundbreaking contribution to current questions in social cultural and historical theory The German Classics of the Nineteenth and Twentieth Centuries Kuno Francke, William Guild Howard, 1914 **The German Classics** Kuno Francke, 1914 **Art History as a Reflection of Inner Spiritual Impulses** Rudolf Steiner, 2016-06-01 13 slide presentations Dornach Oct 8 1916 Oct 29 1917 CW 292 I am going to show you a series of reproductions of slides from a period in art history to which the human mind will probably always return to contemplate and consider for if we consider history as a reflection of inner spiritual impulses it is precisely in this evolutionary moment that we see certain human circumstances ones that are among the deepest and most decisive for the outer course of human history expressed through a relationship to art Rudolf Steiner Rudolf Steiner understood that the history of art is a field in which the evolution of consciousness is symptomatically and transparently revealed This informal sequence of thirteen lectures was given during the darkest hours of World War I It was a moment when the negative consequences of what he called the age of the consciousness soul which began around 1417 were made most terribly apparent In these lectures he sought to provide an antidote to pessimism After describing the movement of consciousness from Greece into Rome coupled with influences from the Orthodox East he showed how these influences transformed as the Middle Ages became the Renaissance The process that begins with Cimabue and Giotto deepens and becomes more conscious in the great Renaissance masters Leonardo Michelangelo and Raphael Then this movement continues with the Northern masters D rer and Holbein as well as the German tradition One entire lecture is devoted to Rembrandt followed by one on Dutch and Flemish paintings Themes are woven together to show how past epochs of consciousness and art live again in our consciousness soul period Replete with interesting information and more than 600 color and black and white images these lectures are rich and dense with ideas enabling us to understand both the art of the Renaissance and the transformation of consciousness it announced These lectures demonstrate to paraphrase Shelley that artists truly are the unacknowledged legislators of the age Art History as a Reflection of Inner Spiritual Impulses is a translation from German of Kunstgeschichte als Abbild innerer geistiger Impulse GA 292 Rudolf Steiner Verlag 2000 The German Classics of the Nineteenth and Twentieth Centuries: A. Schopenhauer, R. Wagner, F. Nietzsche, Emperor William II , 1914 Seeking Meaning for Goethe's Faust J. M. van der Laan, 2007-04-01 Goethe s Faust Parts I and II 1808 1832 is one of the most

McBride,R. McCormick,M. Zagar,2007-01-22 Between 1890 and 1950 modernist art and culture set out to challenge century old notions of the individual and the community culture and politics morality and freedom placing into question the very foundations of Western civilization The essays in this volume present a novel assessment of various

manifestations of modernism in Germany and Scandinavia by posing the question of its critical and political impact beyond traditional polarities such as right vs left illiberalism vs Enlightenment apolitical vs engaged In drawing on a wide range of disciplinary perspectives including literary studies art history film and visual studies urban studies musicology political theory and the history of science and technology the essays in this volume reexamine modernism s bold inquiry into areas such as the relation of art to technology and mass politics the limits of liberal democracy the reconceptualization of urban spaces and the realignment of traditional art forms following the rise of new media such as film The volume s contributors share a belief in the timeliness of modernism s critical impulse for a contemporary age confronted with ethical and political dilemmas that the modernists first articulated and to which they attempted to respond
