

*Ginkgo biloba?*

Dieses Baums Blatt, da von Allen  
Meinem Garten anvertraut,  
gibt geheimen Sinn zu denken,  
Wie von Wissenden erbaut.

Ist es ein lebendig Wesen,  
Das sich in sich selbst gekrennt,  
Und es gar zu sich selbst erlesen,  
Dass man sie als Eins geant.

Solche Frage zu erwidern  
Fand ich wohl den rechten Sinn,  
Fühlst du nicht an meinen Liedern  
Dass ich Eins und Doppelt bin?

## **Goethe And The Ginkgo A Tree And A Poem:**

**Goethe and the Ginkgo** Siegfried Unseld, 2010-04-15 In 1815 Goethe gave symbolic expression to his intense relationship with Marianne Willemer a recently married woman thirty five years his junior He gave her a leaf from the ginkgo tree explaining that like its deeply cleft yet still whole leaf he was single yet twofold Although it is not known if their relationship was ever consummated they did exchange love poetry and Goethe published several of Marianne s poems in his West East Divan without crediting her authorship In this beautiful little book renowned Goethe scholar Siegfried Unseld considers what this episode means to our estimation of a writer many consider nearly godlike in stature Unseld begins by exploring the botanical and medical lore of the ginkgo including the use of its nut as an aphrodisiac and anti aging serum He then delves into Goethe s writings for the light they shed on his relationship with Marianne Unseld reveals Goethe as a great yet human being subject as any other man to the vagaries of passion *Goethe & The Ginkgo* Siegfried Unseld, 2007\*

**Goethe and His Publishers** Siegfried Unseld, 2019-04-12 Goethe s ranging literary genius nimble yet luminous resists simple classification Poet and natural philosopher critic and raconteur Goethe was the most commanding literary presence of his time Goethe and His Publishers organizes for the first time the myriad details of Goethe s career in print Director of the German publishing company Suhrkamp Verlag Siegfried Unseld brings a singular perspective to this biography focusing our attention on an essential component of Goethe s literary endeavors his relationship to his publishers Carefully examining each work Unseld covers the range of Goethe s oeuvre from first anonymous publications to eventual monumental editions brought out by Johann Friedrich Cotta the most renowned publisher of his day Unseld sifts through the rich correspondence between Goethe and his publishers as well as letters to and from friends colleagues and contemporaries Analyzing publishing contracts draft contracts and historical documents Unseld reveals the tremendous energy Goethe exerted on behalf of his manuscripts During negotiations he was sometimes circumspect and reserved other times demanding and assertive These exchanges not only shed new light on Goethe s complex character but also show how he changed the author s role in the publishing process Thus this work offers a penetrating study on the intricate and many tiered relations between author and publisher then and today Goethe and His Publishers celebrates Goethe s works his life and his times from the viewpoint of a publisher today Written by an individual who has devoted much of his life to the study of the poet whom he reveres such a personal approach not only forms an excellent introduction to Goethe s work but helps restore Goethe to his rightful place in the world of letters **Chinese and Buddhist Philosophy in Early Twentieth-Century German Thought** Eric S.

Nelson, 2017-08-24 Presenting a comprehensive portrayal of the reading of Chinese and Buddhist philosophy in early twentieth century German thought Chinese and Buddhist Philosophy in Early Twentieth Century German Thought examines the implications of these readings for contemporary issues in comparative and intercultural philosophy Through a series of case studies from the late 19th century and early 20th century Eric Nelson focuses on the reception and uses of

Confucianism Daoism and Buddhism in German philosophy covering figures as diverse as Buber Heidegger and Misch He argues that the growing intertextuality between traditions cannot be appropriately interpreted through notions of exclusive identities closed horizons or unitary traditions Providing an account of the context motivations and hermeneutical strategies of early twentieth century European thinkers interpretation of Asian philosophy Nelson also throws new light on the question of the relation between Heidegger and Asian philosophy Reflecting the growing interest in the possibility of intercultural and global philosophy Chinese and Buddhist Philosophy in Early Twentieth Century German Thought opens up the possibility of a more inclusive intercultural conception of philosophy Plants, Health and Healing Elisabeth Hsu,Stephen Harris,2010

Plants have cultural histories and their culturally known applications change through time and across contexts This pattern is seen in all types of uses that humans make of plants from trees used for construction through species used for perfume through to food plants However it is medicinal plants that have attracted considerable attention recently whether as a justification of plant conservation efforts or through the perception that direct use of medicinal plants may offer something that is not delivered by orthodox medicine This volume s two central aims are to demonstrate that plant knowledge is not paradigmatic positive knowledge but situational and arises in relationships and to show that modern medicinal plant discovery can be viewed as the epitome of a long history of borrowing stealing and exchanging plants **Nabokov's Secret**

**Trees** Stephen H. Blackwell,2024-06-03 In nearly all his literary works Vladimir Nabokov inscribed networks of trees to create meaningful patterns of significance around one or more of his passionate interests in consciousness memory creativity epistemology ethics and love with a deep connection to nature serving as a constant undercurrent Nabokov s Secret Trees explores this neglected area of his art one that positions nature as a hidden but vital core of his work The book presents an entirely new previously unsuspected Nabokov one who crafts intricate patterns of arboreal imagery lurking behind his often baroque psychological narratives It reveals how Nabokov activates arboreal potentials by exploring the hidden ubiquity of trees their essence as complex natural phenomena and their role as quiet presences that have accompanied and fostered human civilization and art since their beginnings The book uncovers how trees offer a rich and intricate field for structural semantic allusive and metaphorical exploration Based on the published corpus as well as archival materials Nabokov s Secret Trees demonstrates that trees not only populate Nabokov s art in stunning yet furtive abundance but also as mysterious natural entities directly animating his works worlds and his readers experience of them **The Selling and**

**Self-Regulation of Contemporary Poetry** J.T. Welsch,2020-03-31 The Selling and Self Regulation of Contemporary Poetry is the first book length study of the contemporary poetry industry By documenting radical changes over the past decade in the way poems are published sold and consumed it connects the seemingly small world of poetry with the other wider creative industries In reassessing an art form that has been traditionally seen as free from or even resistant to material concerns the book confronts the real pressures and real opportunities faced by poets and publishers in the wake of economic

and cultural shifts since 2008 The changing role of anthologies prizes and publishers are considered alongside new technologies new arts policy and re conceptions of poetic labour Ultimately it argues that poetry s continued growth and diversification also leaves individuals with more responsibility than ever for sustaining its communities *Goethe: Life as a Work of Art* Rüdiger Safranski, 2017-05-16 A New York Times Book Review Editors Choice Selection Named one of the Best Books of the Year by the Economist and Kirkus Reviews This splendid biography Wall Street Journal of Goethe presents his life and work as an essential touchstone for the modern age A masterful intellectual portrait Goethe Life as a Work of Art is celebrated as the seminal twenty first century biography of the writer considered to be the Shakespeare of German literature Johann Wolfgang von Goethe 1749 1832 a remarkably prolific poet playwright novelist and as R diger Safranski emphasizes a statesman and naturalist first awakened not only a burgeoning German nation but the European continent with his electrifying novel *The Sorrows of Young Werther* Safranski has scoured Goethe s entire oeuvre relying exclusively on primary sources including his correspondence with contemporaries to produce a fresh and authentic Economist portrait of the avatar of the Romantic era Skillfully blending artistic analysis with swift sharp renderings of the great political and intellectual figures Goethe encountered Safranski s portrait of the prolific genius leaves the reader with lasting awe even envy of a monumental legacy The New Yorker As Safranski ultimately shows Goethe s greatest creation even in comparison to his masterpiece *Faust* was his own life

*A Little Tour Through European Poetry* John Taylor, 2017-09-08 This book is both a sequel to author John Taylor s earlier volume *Into the Heart of European Poetry* and something different It is a sequel because this volume expands upon the base of the previous book to include many more European poets It is different in that it is framed by stories in which the author juxtaposes his personal experiences involving European poetry or European poets as he travels through different countries where the poets have lived or worked Taylor explores poetry from the Czech Republic Denmark Lithuania Albania Romania Turkey and Portugal all of which were missing in the previous gathering analyzes heady verse written in Galician and presents an important poet born in the Chuvash

Republic His tour through European poetry also adds discoveries from countries whose languages he reads fluently Italy Germany and German speaking Switzerland Greece and France Taylor s model is Valery Larbaud to whom his criticism with its liveliness and analytical clarity is often compared Readers will enjoy a renewed dialogue with European poetry especially in an age when translations are rarely reviewed present in literary journals or studied in schools This book along with Into the Heart of European Poetry motivates a dialogue by bringing foreign poetry out of the specialized confines of foreign language departments

The Wisdom of Trees David Macauley, Laura Pustarfi, 2025-06-01 Pioneering essays that reveal the significance of new interdisciplinary understandings of trees and forests especially in terms of their philosophical and ecological dimensions and their importance for addressing the climate emergency This is the first book to apply philosophical thinking to trees Through a series of sixteen diverse essays by leading scholars and writers along with an in depth introduction to the key issues and ideas it examines the new and emerging understanding of trees in science and society Contributors show how these developments encourage a revisioning of philosophical thought and a more sustainable relationship with trees and forests a reconceptualization with important ecological and social implications for responding to deforestation the loss of biodiversity and the climate emergency The interdisciplinary contributions in this collection investigate the many interconnected dimensions of arboreality focusing on subjects related to time mind truth memory being beauty goodness silence wisdom personhood and death The volume engages in a conversation about why trees matter how they can best be protected our obligations to them and even what or who they are Most of the chapters are informed by natural history or ecological science and many share a particular emphasis on continental philosophy and the environmental humanities

Life in Science Diego Breviario, Jack A. Tuszynski, 2023-03-01 This book is a collection of stories reflections and advice written by proficient scientists They address the question of what doing science means to them and describe attitudes and working practices that have proved effective and rewarding The book is aimed in particular at young people who are attracted by science or already undertaking undergraduate studies and who are considering making science their long term profession It will also be helpful and revealing to early career scientists who are searching for their own best route to success The book serves as a platform for experienced scientists to describe their original inclination how that subjective disposition found its expression in their way of doing science whether their expectations were met and what achievements they can claim But it is not restricted to success contributors also share details of the limitations and failures they have encountered Last but not least they describe how they see science now how they think it will be in the near future and what advice they would give to their much younger colleagues Readers will appreciate the diversity of the individual paths shaped by different education motivation ambition inclination intuition feeling belief and eligibility At the same time the stories confirm that science relies on a translation of this subjective level into an objective level one that is shared and accepted by the international scientific community and whose results are produced with a commonly accepted and fully
