Goethe's Faust Alan P. Cottrell, 2020-05-01 The essays in this collection range from close textual analysis to discussions of larger problems such as Goethe's relation to Christianity as illuminated by the theme of sacrifice in *Faust*. This work is viewed with particular reference to Goethe's natural scientific epistemology and to the problems confronting Western man in our own times. A study of *Faust's* blindness and the inner light complete the collection. **Goethe** Gero von Wilpert, 2007

Hans-Christian Günther, Andrea A. Robiglio, 2010-10-07 The present volume unites papers which explore the European image of God and man as the unquestioned basis of the concept which determines what Western society defines as human rights and puts it in an intercultural context by comparative essays on Chinese Islamic and Buddhist thinking. The volume covers issues which range from classical antiquity until contemporary philosophy and science. *Jahrbücher der Königl. The Romantic Syndrome W.T. Jones, 2013-04-17 In this age of specialism philosophers like other specialists tend to take in each other's washing. Here perhaps imprudently I attempt to break out of this pattern. Though I am by profession a philosopher I am addressing primarily not other philosophers but cultural anthropologists sociologists historians of ideas and literary and art critics. Thus while there are chapters in this book on metaphysics and political theory I do not ask: Is the doctrine in question true which is the kind of question a philosopher might be expected to raise. Instead I ask: What can we learn from this doctrine about the personality structure of the individual who framed it and about the characteristic drives of the society in which he lived. My reasons for asking and for trying to answer this kind of question instead of the usual philosophical question are as follows. Though the material products of culture and the overt behavior patterns of societies have long been objects of scientific study the most characteristic products of high cultures artistic productions like poems and paintings and theoretical structures like metaphysical and scientific theory have not as readily yielded to exact description and analysis. Not of course that there is not a very extensive discussion of these matters. But most of it is carried on in terms that are regrettably vague. *Alphabet des Schreckens* Hans-Günther Pölit, 2013-02-18 Hans Günther Pölit buchstabiert sich auf der Tastatur der aktuellen Politik durch ein Alphabet des Schreckens. Er fängt bei A wie Altersarmut an und gibt bei Z wie Zuverdienst für Bundestagsabgeordnete auf. Was nicht heißt dass ihm je der Stoff ausgehen könnte.

and spiritualism Through his keen analysis Lehrs presents a compelling case for a profound interconnectedness positing that humanity must recognize its role within the cosmos Ernst Lehrs was a notable figure in anthroposophical circles deeply influenced by the teachings of Rudolf Steiner His educational pursuits in philosophy and the natural sciences provided him with a robust foundation in both scientific inquiry and metaphysical exploration This duality shaped his perspective in *Man or Matter* as he sought to articulate a vision of humanity that transcends mere materialism embedding rich spiritual dimensions into everyday existence This book is a must read for anyone intrigued by the philosophical underpinnings of human existence and the metaphysical implications of modern science Lehrs eloquent prose not only enlightens but also inspires readers to reflect upon their own consciousness in relation to the universe making it an essential addition to the libraries of philosophers scientists and spiritual seekers alike
