Duddy,2013 From the snows of Alaska to V E Day in Europe this is the biography of US Army Air Forces Captain Robert Uhrig during WWII Told in his own words from extensive diary entries and letters to his wife Toots the story starts in the late 1930s at Patterson Field OH and follows Bob through the war as an aircraft mechanic and then Engineering Officer for the 36th Troop Carrier Squadron and their Douglas C 47s Bob s wartime career took him from the jump school at Ft Benning to supplying British units in North Africa to the Sicily and Normandy invasions and all the other airborne operations in Europe Invasion Stripes is also a deeply personal story of love as Bob and Toots endure almost three years of wartime separation with only their photographs and letters to sustain them across thousands of miles Sometimes hilarious sometimes tragic it is a unique and detailed first person story of the American airlift forces of WWII 248 pages black and white illustrations maps      **There Was Another Country** W. Forje,2021-08-11 In this comprehensive well reasoned critical richly documented and boldly argued account on the Anglophone Southern Cameroons Ambazonia crisis John Forje a foremost scholar of identity politics in Cameroon offers insightful explorations and explanations of histories and cultures of telling truth to power that have come to be associated with the people of the English speaking region of Cameroon The book offers realistic perspectives for the reinstitution of justice equality and democratic governance in a country of plenty but lavishing in endemic underdevelopment Forje argues among other things that the current Anglophone crisis is the exhibition of one reality that more than half a century after independence and unification most Cameroonians are grossly disillusioned with their leaders The country has had only two presidents since independence Ahmadou Ahidjo and Paul Biya with the latter occupying the presidency for 40 years since 1982 and counting If something concrete is not undertaken now the cleavages of division would widen to a dangerous end Dark clouds hang over the future of the country Uncertainty about national unity and stability is hardly a solid foundation for a country aspiring to be an emerging polity by 2035 There is an urgent need for a broader dimension of political dispensation in Cameroon The book calls for proper soul searching critical analysis and a new comprehensive and visionary mindset to build a new country out of the ashes of the existing crumbling or failed polity The need to re rail Cameroon on the democratic train and on the path of sustainable development cannot be overemphasized
