Hawke Government A Critical Retrospective:

The Hawke Government Susan Ryan, Troy Bramston, 2003 The book puts on record for the first time the candid views of cabinet ministers political insiders and commentators to provide a unique insight into the nature of leadership and the struggles of government It is not only a compelling account of the far reaching legacy of Labor s longest serving government it sheds new and important light on the man who led it *The Hawke Legacy* Gerry Bloustien, Barbara Comber, Alison Mackinnon, 2009 Bob Hawke was a popular and effective Prime Minister whose economic and social reforms are acknowledged to have shaped modern Australia The book offers a timely look at the legacy of the Hawke era 1983 1991 by considering both the achievements of his ministry and what remains as unfinished business The Hawke Legacy includes interviews with Bob Hawke with his former speechwriter Graeme Freudenberg and with former Senator Rosemary Crowley contributions from two former members of the Hawke Government and scholarly accounts from historical political economic educational and Indigenous perspectives *Inside the Canberra Press Gallery* Rob Chalmers, 2011-10-01 Before television radio and later the internet came to dominate the coverage of Australian politics the Canberra Press Gallery existed in a world far removed from today s 24 hour news cycle spin doctors and carefully scripted sound bites This historical memoir of a career reporting from The Wedding Cake of Old Parliament House offers a rare insider s perspective on both how the gallery once operated and its place in the Australian body politic Using some of the biggest political developments of the past fifty years as a backdrop *Inside the Canberra Press Gallery* Life in the Wedding Cake of Old Parliament House sheds light on the inner workings of an institution critical to the health of our parliamentary democracy Rob Chalmers 1929 2011 entered the Federal Parliamentary Press Gallery in 1951 as a twenty one year old reporter for the now defunct Sydney Daily Mirror and would retire from political commentary 60 years later an unprecedented career span in Australian political history No parliamentary figure politician bureaucrat or journalist can match Chalmers experience from his first Question Time on 7 March 1951 until desperately ill he reluctantly retired from editing the iconic newsletter *Inside Canberra* sixty years four months and eighteen days later As well as being considered a shrewd political analyst Chalmers was a much loved member of the gallery and a past president of the National Press Club Rob Chalmers used to boast that he had outlasted 11 prime ministers and a 12th Julia Gillard described him as one of the greats of Australian political journalism upon his passing Rob Chalmers is survived by his wife Gloria and two children from a previous marriage Susan and Rob jnr *Understanding Prime-Ministerial Performance* Paul Strangio, Paul t Hart, James Walter, 2013-03-28 At the beginning of the twenty first century prime ministers loom larger in the consciousness of their nations than perhaps in any previous era But how well do we really understand the variables of prime ministerial performance and specifically why some prime ministers apparently flourish in the role while others wither This study examines how prime ministers perform as leaders of their governments parties and nations It offers new ways of thinking about prime ministerial power and leadership and systematic empirical

studies of prime ministerial leadership practices in four Westminster democracies the United Kingdom Canada Australia and New Zealand The volume features contributions from leading political scientists from all of these countries and is organised into three major sections understanding power in prime ministerial performance prime ministers and their parties and evaluating prime ministerial performance Through its collaborative and multifaceted approach the volume demonstrates that there are no hard and fast propositions or rules of thumb to capture what it is that makes us think of some prime ministers as so much more effective than others Instead it highlights the importance for students of executive government to grasp the contingent interplay between personal institutional and contextual factors in understanding and evaluating prime ministerial performance

Young People and Uncertain Futures? James Goring, Peter Kelly, 2025-08-29 Drawing on Foucault's genealogical ethos and his work on power knowledge subjects this book analyses the ways in which neo liberal education apparatuses in Australia and other high income economies frame the problem of young people and uncertain futures The book critically examines the character of the presents and futures of education training and work and of the planet that have been produced in globalising neo liberal capitalism during the last four decades and which see in the development of young people's enterprise and aspiration the solutions to multiple crises and uncertainties It analyses how and why young people's behaviours and dispositions have been made knowable in these ways and the limits and possibilities that they produce for understanding what young people must be and become The book draws on post humanist feminist studies of techno science and futures studies to explore the promise of more socially just and sustainable futures for young people A thought provoking study for scholars and students of the sociology of education and of youth and society it will be invaluable for policymakers governments NGOs educators and undergraduate and postgraduate students interested in young people and the crises of capitalism earth systems and the biosphere

Independent Ally Shannon Tow, 2017-03-20 Will regional powers in the Asia Pacific have to choose between China and the United States In *Independent Ally* Shannon Tow challenges this prevailing view She explores how one key regional power Australia has repeatedly developed a strong relationship with a rising power while simultaneously preserving its alliance with a dominant global power Far from being a dependent ally that simply follows the policies of its great and powerful friends Australia has consistently developed and pursued an independent foreign policy toward those great powers that have played an important role in shaping its destiny It has proactively negotiated the terms of its relationships with those powers in ways that have been mutually complementary and that have supported its strategic interests in regional order The extent to which Australia can do so in future relates directly to the findings and lessons this study provides Drawing on newly released archival material and interviews with prominent former policymakers this book examines how six different Australian Prime Ministers successfully navigated these great power relationships over the last century

Consumer Australia Robert Crawford, Kim Humphery, Judith Smart, 2010-06-09 Donald Horne's *The Lucky Country* claimed that Australia was one of the first nations to find part of the meaning of life in the

purchase of consumer goods. Significantly similar views had been expressed in the late 18th century where everyday life in the antipodean outpost of Empire was regarded as being pecuniary and acquisitive in nature. While references to Australia as a consumer society continue to be made, the question of how Australia came to be so has attracted less attention. The chapters in *Consumer Australia* actively redress this omission by examining the ways in which the processes of selling, buying and exchanging have characterised the experiences of consumption in every day Australian life. Prepared by leading and emerging scholars, the chapters in this unique collection critically explore the different ways that Australians have consumed products, brands and even consumption itself from the 19th century and through the 20th century. By charting the growth and development of consumption in Australia, *Consumer Australia* reveals how Australia came to be a consumer society and asks where it is headed.

Fringe to Famous Tony Moore, Mark Gibson, Chris McAuliffe, Maura Edmond, 2024-01-25. *Fringe to Famous* examines exchange between small scenes of cultural production and mainstream institutions and markets. Drawing on Australian examples in music, streetwear, comedy, screen and digital games, it argues that there has been much greater crossover between the two than is generally recognized. The book resists a tendency to represent fringe and mainstream as abstract opposites, bringing a focus instead to concrete historical formations. It offers an alternative both to romantic celebrations of a pure fringe, discredited now by half a century of critical responses to the counterculture, and to an increasingly hardened anti-romantic reaction. Drawing on extensive original interviews, *Fringe to Famous* offers an overview of transformations in Australian culture since the 1980s, concluding with suggestions for cultural policy after the creative industries. It proposes an idea of generative hybridity between fringe and mainstream that allows us to imagine new possibilities for arts and culture in the 2020s and beyond.

Considering Class: Theory, Culture and the Media in the 21st Century, 2017-11-06. *Considering Class: Theory, Culture and the Media in the 21st Century* offers the reader international and interdisciplinary perspectives on the importance of class analysis in the 21st century. Political economists, sociologists, educationalists, ethnographers, cultural and media analysts combine to provide a multi-dimensional account of current class dynamics. The crisis consists precisely in the gap between the objective reality and efficacy of class forces shaping international politics and the relative paucity of class consciousness at a popular level and appreciation of class as an explanatory optic at a theoretical level. This important book shows why the process of reconstructing class consciousness must also take place on the ground of cultural and subjective formation where everyday values, habits and media practices are in play. Contributors are Anita Biressi, Joseph Choonara, Maurizio Donato, Danny Dorling, Mark Gibson, Craig Haslop, Dave Hill, Peter Jakobsson, Marina Kabat, Holly Lewis, Catherine Lumby, Lisa McKenzie, Tony Moore, Adrian Murray, Deirdre O'Neill, Jonathan Pratschke, Michael Seltzer, Eduardo Sartelli, Fredrik Stiernstedt, Roberto Taddeo, Mike Wayne, Milly Williamson, Ferruh Yılmaz.

The Limits of Peacekeeping: Volume 4, The Official History of Australian Peacekeeping, Humanitarian and Post-Cold War Operations Jean Bou, Bob Breen, David Horner, Garth Pratten, Miesje de

Vogel,2018-10-10 *The Limits of Peacekeeping* highlights the Australian government's peacekeeping efforts in Africa and the Americas from 1992 to 2005. Changing world power structures and increased international cooperation saw a boom in Australia's peacekeeping operations between 1991 and 1995. The initial optimism of this period proved to be misplaced as the limits of the United Nations and the international community to resolve deep seated problems became clear. There were also limits on how many missions a middle sized country like Australia could support. Restricted by the size of the armed forces and financial and geographic constraints, peacekeeping was always a secondary task to ensuring the defence of Australia. Faith in the effectiveness of peacekeeping reduced significantly and the election of the Howard Coalition Government in 1996 confined peacekeeping missions to the near region from 1996-2001. This volume is an authoritative and compelling history of Australia's changing attitudes towards peacekeeping. **Making Public Policy Decisions** Damon

Alexander, Jenny Lewis,2014-12-05 To understand public policy decisions it is imperative to understand the capacities of the individual actors who are making them, how they think and feel about their role and what drives and motivates them. However, the current literature takes little account of this, preferring instead to frame the decisions as the outcomes of a rational search for value maximising alternatives or the result of systematic and well ordered institutional and organisational processes. Yet understanding how personal and emotional factors interact with broader institutional and organisational influences to shape the deliberations and behaviour of politicians and bureaucrats is paramount if we are to construct a more useful, nuanced and dynamic picture of government decision making. This book draws on a variety of approaches to examine individuals working in contemporary government, from freshly trained policy officers to former cabinet ministers and prime ministers. It provides important new insights into how those in government navigate their way through complex issues and decisions based on developed expertise that fuses formal rational techniques with other learned behaviours, memories, emotions and practiced forms of judgment at an individual level. This innovative collection from leading academics across Australia, Europe, the United Kingdom and North America will be of great interest to researchers, educators, advanced students and practitioners working in the fields of political science, public management and administration and public policy.

Studies in Australian Political Rhetoric John Uhr, Ryan Walter,2014-09-01 This edited collection includes eleven major case studies and one general review of rhetorical contest in Australian politics. The volume showcases the variety of methods available for studying political speech, including historical, theoretical, institutional and linguistic analyses, and demonstrates the centrality of language use to democratic politics. The chapters reveal errors in rhetorical strategy, the multiple and unstable standards for public speech in Australia, and the links between rhetoric and action. The length of Australian political speech is traversed from pre-Federation to the Gillard minority government, 2010-13, and the topics similarly range from Alfred Deakin's nation building to Kevin Rudd's Apology to the Stolen Generations. This fresh collection is intended to stimulate and advance the study of political rhetoric in Australia. **Australia and France's Mutual Empowerment** Paul

Soyez,2019-03-25 How did France and Australia develop a deep strategic partnership when only about two decades ago a group of Australians bombed the French consulate in Perth to protest against French nuclear testing in the Pacific Which interests which personalities which elements of the global context have led France and Australia to engage in a regional and global rapprochement and what have been the human economic and political prerequisites which enabled it This book aims to investigate the dynamics behind this historically ambiguous relationship More precisely this study explains why and how France and Australia are currently engaged in a process of strategic and economic mutual empowerment and how this rapprochement has been possible owing to thirty years of diplomatic efforts to overcome ongoing culturally and historically constructed misunderstandings and conflicts This book demonstrates how French and Australian foreign policy makers have understood that in regard to their numerous common interests both countries had to mutually empower each other in order to strengthen their own power regionally and globally This book argues that these inclusive dynamics of empowerment constitute the response of two diverse middle powers to current global threats and represent a tool suitable for modernising the strategies and practices of both countries diplomacies Soyez research is the first to propose an answer to these questions through the development of the French Australian strategic partnership *Risk Society and School Educational Policy* Grant

Rodwell,2018-09-14 *Risk Society and School Educational Policy* explores the impact of risk society on policy in the US UK and Australia through both practical and theoretical perspectives The book develops an in depth understanding of risk society itself and guides the reader in applying this knowledge to the problem of how this impacts policy and practice in school education Drawing on work by Ulrich Beck and Anthony Giddens Rodwell explores the development of risk society as a field of interest discussing its history contemporary significance and links with neoliberalism school education and both mainstream and social media He also examines its impact on government policies and the practical implications of how this impacts the educational experiences of children around the globe today A book for policy professionals researchers academics and postgraduate students interested in Education Studies Theory and Policy and International and Comparative Education *Risk Society and School Educational Policy* is the first international academic monograph published in the field

The Death of Social Democracy Ashley Lavelle,2016-03-09 Whereas many writers and scholars interested in the field of social democracy have focused on factors such as the role of economic globalization and electoral pressures Ashley Lavelle explores the importance of the collapse of the post war economic boom and lower growth rates since then He examines how these pressures have led social democrats to embrace neo liberal policies and become threatened by minor parties and independent politicians Providing an original argument about the decline of social democracy the author investigates how its decline has increased the popularity of minor parties and independents along with the reasons for social democratic membership and electoral decline This is an important book for scholars of social democracy and the broader themes of world politics political parties social movements and globalization **A Concise History of Australia** Stuart

Macintyre,2020-08-03 Macintyre revisits A Concise History of Australia to provoke readers to reconsider Australia's past and its relationship to the present *The Personalization of Democratic Politics and the Challenge for Political Parties* William P Cross,Richard S Katz,Scott Pruysers,2018-09-16 The implications of the personalization of politics are necessarily widespread and can be found across many different aspects of contemporary democracies Personalization should influence the way campaigns are waged how voters determine their preferences how officials e.g MPs and institutions e.g legislatures and governments function and the place and operations of political parties in democratic life However in an effort to quantify the precise degree of personalization over time and to uncover the various causes of personalization the existing literature has paid little attention to many of the important questions regarding the consequences of personalization While the chapters throughout this volume certainly document the extent of personalization they also seek to address some fundamental questions about the nature of personalization how it is manifested and its consequences for political parties governance representation and the state of democracy more generally Indeed one of the primary objectives of this volume is to speak to a very broad audience about the implications of personalization Those interested in election campaigns voting gender governance legislative behaviour and political parties will all find something of value in the contributions that follow

Languages other than English in Australian Higher Education Jennifer Joan Baldwin,2019-01-29 This book researches the study of languages other than English and their place in the Australian tertiary sector Languages are discussed in the context of the histories of Australian universities and the series of reports and surveys

about languages across the second half of the twentieth century. It demonstrates how changes in the ethnic mix of society are reflected in language offerings and how policies on languages have changed as a result of societal influences. Also discussed is the extent to which influencing factors changed over time depending on social, cultural, political and economic contexts and the extent to which governments prioritised the promotion and funding of languages because of their perceived contribution to the national interest. The book will give readers an understanding as to whether languages have mattered to Australia in a national and international sense and how Australia's attention to languages has been reflected in its identity and its sense of place in the world.
