Hawthorne's Narrative Strategies Dunne, Michael, 1995 For more than 150 years readers have interpreted Nathaniel Hawthorne's fiction in a dazzling variety of ways Instead of arguing in favor of or against what these readers conceive the fiction to mean this examination of Hawthorne's narrative strategies demonstrates how he leads readers to reason as they do

Ruminations, *Nabokov's Palace* Márta Pellérdi, 2010-08-11 Nabokov's distinguished and unique position in American literature has always been indisputable but paradoxical There has always been an element of foreignness in his writing Nabokov's *Palace* however aims to discover those sub texts and inter textual patterns embedded in Nabokov's American novels which undeniably contribute towards making these works an integral part of the Anglo American literary tradition Aware of this tradition in some of his late novels Nabokov also provides a literary historical overview of particular themes such as friendship melancholy madness and trance as they surfaced in literary texts throughout the history of English and American literature To Nabokov aesthetic bliss meant a sense of being somehow somewhere connected with other states of being where art curiosity tenderness kindness ecstasy is the norm Most of Nabokov's American novels express through different elaborate literary structures themes motifs and metaphors these other states of being where the fantastic recurrence of literary situations and communion with dead poets and writers Poe Shakespeare Hawthorne and Melville among many others becomes possible The American reality that some readers miss in his writings with the exception of *Lolita* and the absence of which questions whether Nabokov truly belongs to the Anglo American tradition is clearly to be found in the wayside murmur of the allusive sub texts Nabokov's *Palace* is thus recommended for scholars students and devotees of Nabokov's fiction who wish to make further discoveries in the distinct otherworld of Art in Nabokov's American novels *Landscapes of the Sacred* Belden C. Lane, 2002 This substantially expanded edition of Belden C Lane's *Landscapes of the Sacred* includes a new introductory chapter that offers three new interpretive models for understanding American

sacred space Lane maintains his approach of interspersing shorter and more personal pieces among full length essays that explore how Native American early French and Spanish Puritan New England and Catholic Worker traditions has each expressed the connection between spirituality and place A new section at the end of the book includes three chapters that address methodological issues in the study of spirituality the symbol making process of religious experience and the tension between place and placelessness in Christian spirituality

Hawthorne's Histories, Hawthorne's World Michael J. New Essays on Hawthorne's Major Tales Millicent Bell, 1993-09-24 This book examines in detail some of Hawthorne's most important and most beloved stories

All the Devils Are Here David Greven, 2024-04-05 The English literary influence on classic American novelists depictions of gender sexuality and race With All the Devils Are Here the literary scholar David Greven makes a signal contribution to the growing list of studies dedicated to tracing threads of literary influence Herman Melville's Nathaniel Hawthorne's and James Fenimore Cooper's uses of Shakespeare and Milton he finds reflect not just an intertextual relationship between American Romanticism and the English tradition but also an ongoing engagement with gender and sexual politics Greven limns the effect of Shakespeare's *Much Ado about Nothing* on Hawthorne's exploration of patriarchy and he shows how misogyny in *King Lear* informed Melville's evocation of the step mother world of orphaned men in *Moby Dick* Throughout Greven focuses particularly on male authors treatment of femininity arguing that the figure of woman functions for them as a multivalent signifier for artistic expression Ultimately Greven demonstrates the ambitions of these writers to comment on the history of the Western tradition and the future of art from their unique positions as Americans

George Eliot U.S. Monika Mueller, 2005 George Eliot U S demonstrates the complex and reciprocal relationship between George Eliot's fiction and the writings of her major American contemporaries including Nathaniel Hawthorne Harriet Beecher Stowe and Ralph Waldo Emerson The book also traces Eliot's influence on subsequent American fiction The introductory section raises methodological questions concerning influence and intertextuality and addresses the mutual reception of European and American social and cultural discourses in order to illuminate culturally motivated divergences and convergences in the authors presentation of gender race and national and ethnic alterity The

book's main body discusses Eliot's and the American writers' depiction of domestic social discourses on gender, religion, and community and analyzes their depiction of the cultural alterity of Italy. It also focuses on Eliot's and Stowe's different attitudes toward race and nation building and discusses the parallels between the kabbalistic passages of Daniel Deronda and American transcendentalist thought and social life in works by later writers such as Cynthia Ozick and John Irving. Monika Mueller teaches American and English literature at the University of Cologne. [The Calvinist Roots of the Modern Era](#) Alik Barnstone, Michael Tomasek, Manson, Carol J. Singley, 1997. This collection of essays traces Calvinism's presence in twentieth-century literature and demonstrates its impact as psychological construct, cultural institution, and socio-political model. **Notable American Women with Czechoslovak Roots** Miloslav Rechcigl Jr., 2019-09-16. Even though there exist only a few general studies on the subject of Czechoslovak American women, this is not at all a reflection of the paucity of work done by these women as this publication demonstrates. This monograph is a compendium of notable American women with Czechoslovak roots who distinguished themselves in a particular field or area from the time they first immigrated to America to date. Included are not only individuals born on the territory of former Czechoslovakia but also their descendants. This project has been approached strictly geographically irrespective of the language or ethnicity. Because of the lack of bibliographical information, most of the monograph comprises biobibliographical information in which area a plethora of information exists. As the reader will discover, these women have been involved practically in every field of human endeavor in numbers that surprise. On the whole, they have been noted for their independent spirit and nonconforming role.

American Learned Men and Women with Czechoslovak Roots Mila Rechcigl, 2020-11-18. Apart from a few articles, no comprehensive study has been written about the learned men and women in America with Czechoslovak roots. That's what this compendium is all about, with the focus on immigration from the period of mass migration and beyond, irrespective of whether they were born in their European ancestral homes or whether they have descended from them. Czech and Slovak immigrants, including Bohemian Jews, have brought to the New World their talents, their ingenuity, their technical skills, their scientific knowhow, and their humanistic and spiritual upbringing, reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home. This accounts for the remarkable success and achievements of these settlers in their new home, transcending through their descendants as this monograph demonstrates. The monograph has been organized into sections by subject areas, i.e., Scholars, Social Scientists, Biological Scientists, and Physical Scientists. Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study. The selection of individuals has been strictly based on geographical ground without regards to their native language or ethnic background. This was because under the Habsburg rule the official language was German and any nationalistic aspirations were not tolerated. Consequently, it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt. Doing it in any other way would be a mere guessing and thus less objective.
