

Haydn Und Das Klavier

Sigmund Lebert

Haydn Und Das Klavier:

Das Klavier Oskar Bie, 1921 Haydn's Sunrise, Beethoven's Shadow Deirdre Loughridge, 2016-09-06 The years between roughly 1760 and 1810 a period stretching from the rise of Joseph Haydn's career to the height of Ludwig van Beethoven's are often viewed as a golden age for musical culture when audiences started to revel in the sounds of the concert hall But the latter half of the eighteenth century also saw proliferating optical technologies including magnifying instruments magic lanterns peepshows and shadow plays that offered new performance tools fostered musical innovation and shaped the very idea of pure music Haydn's Sunrise Beethoven's Shadow is a fascinating exploration of the early romantic blending of sight and sound as encountered in popular science street entertainments opera and music criticism Deirdre Loughridge reveals that allusions in musical writings to optical technologies reflect their spread from fairgrounds and laboratories into public consciousness and a range of discourses including that of music She demonstrates how concrete points of intersection composers treatments of telescopes and peepshows in opera for instance or a shadow play performance of a ballad could then fuel new modes of listening that aimed to extend the senses An illuminating look at romantic musical practices and aesthetics this book yields surprising relations between the past and present and offers insight into our own contemporary audiovisual culture **Critica Musica** J. Knowles, 2016-03-23 This is Volume 18 of eighteen in a book series on Musicology Originally published in 1996 this is a collection of essays in honor of Paul Brainard Critica Musica thinking critically about music is at the heart of Paul Brainard's long career and of his legacy to his students colleagues and friends As a scholar performer and teacher Professor Brainard has embodied a thorough meticulous and reasoned approach to music and scholarship that has set a high standard for all who have come in contact with him *Keyboard Instruments in Eighteenth-century Vienna* C. R. F. Maunder, 1998 Although eighteenth century Viennese keyboard music especially by such composers as Haydn Mozart and Beethoven is among the most popular ever written there has been surprisingly little serious research into the instruments for which it was composed Consequently myths and guesses abound while accurate and reliable information is hard to come by This book fills that gap Based on evidence from primary source material much of it previously undiscovered or neglected Maunder traces the history and development of the various keyboard instruments available in Vienna throughout the eighteenth century harpsichords clavichords and pianos and their use by composers and performers There are detailed descriptions of many surviving Viennese instruments several of which have only recently come to light contemporary newspaper advertisements for over 1200 keyboard instruments are reproduced in the original German as well as in English translation and an alphabetical list of eighteenth century Viennese makers includes much newly discovered biographical information as well as some previously unknown names *The International Who's who in Music and Musical Gazetteer*, 1918 **Große theoretisch-praktische Klavierschule für den systematischen Unterricht** Sigmund Lebert, 1895 **String Quartets** Mara Parker, 2013-05-13 This research guide is an annotated bibliography of

sources dealing with the string quartet This second edition is organized as in the original publication chapters for general references histories individual composers aspects of performance facsimiles and critical editions and miscellaneous topics and has been updated to cover research since publication of the first edition Listings in the previous volume have been updated to reflect the burgeoning interest in this genre social aspects newly issued critical editions doctoral dissertations It also offers commentary on online links databases and references
