Handbook of Teen and Novice Drivers Donald L Fisher, Jeff Caird, William Horrey, Lana Trick, 2016-09-19 Despite a growing body of research and targeted remediation teenage and novice drivers continue to be six to nine times more likely to die in a crash than they are when they are just a few years older The World Health Organization reports that road traffic injuries are the leading cause of death globally among 15 to 19 year olds In light of these crash statistics understanding the teen driver problem remains of paramount public health importance around the world The Handbook of Teen and Novice Drivers Research Practice Policy and Directions provides critical knowledge for a broad range of potential readers including students teachers researchers in academics industry and the federal government public policy makers at all levels insurance companies and automobile manufacturers driving instructors and parents and their teens *The Perversity of Things* Hugo Gernsback, 2016-11-21 In 1905 a young Jewish immigrant from Luxembourg founded an electrical supply shop in New York This inventor writer and publisher Hugo Gernsback would later become famous for launching the first science fiction magazine *Amazing Stories* in 1926 But while science fiction's annual Hugo Awards were named in his honor there has been surprisingly little understanding of how the genre began among a community of tinkerers all drawn to Gernsback's vision of

comprehending the future of media through making In The Perversity of Things Grant Wythoff makes available texts by Hugo Gernsback that were foundational both for science fiction and the emergence of media studies Wythoff argues that Gernsback developed a means of describing and assessing the cultural impact of emerging media long before media studies became an academic discipline From editorials and blueprints to media histories critical essays and short fiction Wythoff has collected a wide range of Gernsback s writings that have been out of print since their magazine debut in the early 1900s These articles cover such topics as television the regulation of wireless radio war and technology speculative futures media archaeological curiosities like the dynamophone and hypnobioscope and more All together this collection shows how Gernsback s publications evolved from an electrical parts catalog to a full fledged literary genre The Perversity of Things aims to reverse the widespread misunderstanding of Gernsback within the history of science fiction criticism Through painstaking research and extensive annotations and commentary Wythoff reintroduces us to Gernsback and the origins of science fiction

Mega Quakes: Cascading Earthquake Hazards and Compounding Risks Katsuichiro Goda,Tiziana Rossetto,Nobuhito Mori,Solomon Tesfamariam,2018-03-15

Large scale earthquake hazards pose major threats to modern society generating casualties disrupting socioeconomic activities and causing enormous economic loss across the world Events such as the 2004 Indian Ocean tsunami and the 2011 Tohoku earthquake highlighted the vulnerability of urban cities to catastrophic earthquakes Accurate assessment of earthquake

related hazards both primary and secondary is essential to mitigate and control disaster risk exposure effectively To date various approaches and tools have been developed in different disciplines However they are fragmented over a number of research disciplines and underlying assumptions are often inconsistent Our society and infrastructure are subjected to multiple types of cascading earthquake hazards therefore integrated hazard assessment and risk management strategy is needed for mitigating potential consequences due to multi hazards Moreover uncertainty modeling and its impact on hazard prediction and anticipated consequences are essential parts of probabilistic earthquake hazard and risk assessment The Research Topic is focused upon modeling and impact assessment of cascading earthquake hazards including mainshock ground shaking aftershock tsunami liquefaction and landslide
