insurance contracts bind both insurers and consumers to a higher duty of honesty and good faith in their dealings with each other Failure to fully disclose information that may affect an insurer s calculation of risk in taking on the contract can potentially therefore result in the valid rejection of a policy holder s claim Given the potentially devastating consequences claim denial carries for policy holders this book outlines the current legal regulatory framework governing this area and assesses its capacity to provide a just and efficient set of standards for the exchange of this information in the pre contracting stage     Insurance Law and Regulation Kenneth S.
