The Department of Labor's 2001 findings on the worst forms of child labor : Trade and Development Act of 2000. , *Hazard or Hardship* Jeffrey Hilgert,2014-02-15 Today hazardous work kills 2 3 million people each year and injures millions more Among the most compelling yet controversial forms of legal protection for workers is the right to refuse unsafe work The rise

of globalization precarious work neoliberal politics attacks on unions and the idea of individual employment rights have challenged the protection of occupational health and safety for workers worldwide In Hazard or Hardship Jeffrey Hilgert presents the protection of refusal rights as a moral and a human rights question Hilgert finds that the protection of the right to refuse unsafe work as constituted under international labor standards is a failure and calls for a reexamination of worker health and safety policy from the ground up The current model of protection follows an individual employment rights framework which fails to protect workers against the inherent social inequalities within the employment relationship To adequately protect the right to refuse as a human right both in North America and around the world Hilgert argues that a broader protection must be granted under a freedom of association framework Hazard or Hardship will be a welcome resource for labor and environmental activists trade union leaders labor lawyers and labor law scholars industrial relations experts human rights advocates public health professionals and specialists in occupational safety and health

Since its adoption in July 1990 and entry into force in November 1999, the African Charter on the Rights and Welfare of the Child (African Children's Charter) has become a key treaty within the African human rights system governing children's rights in Africa. To date, 51 out of 55 African Union member states have ratified the African Children's Charter, which demonstrates a growing commitment to respect, protect, and promote the rights of children. There is no doubt that the Charter, since entering into force, has significantly contributed to the development of standards and practice related to children in Africa. This comprehensive commentary on the African Children's Charter, the first of its kind, provides a systematic analysis of each article of the Charter, tracing the origin of the rights, highlighting and explaining unique African concepts and normative standards featured in the Charter. The Commentary aims to be a one-stop shop for anyone interested in protecting and promoting children's rights in Africa, such as researchers, teachers, students, practitioners, policy makers, and activists. Authored by an array of contributors steeped in African jurisprudence and human rights values, comprising 38 discrete chapters, it constitutes an essential and contemporary guide to the legal understanding of the various provisions the Charter provides for. It is edited by three African scholars prominent in the field of children's rights in Africa: Prof. Julia Sloth-Nielsen, Prof. Elvis Fokala, and Dr. Godfrey Odongo.
