Blessingway Leland C. Wyman, 2017-05-23 An outstanding work crafted from the handwritten pages of translations from the Navajo of the late Father Berard Haile giving three separate versions of the Blessingway rite with each version consisting of a prose text accompanied by the ritual songs and prayers Valuable insights into the character and use of the Blessingway rite its ceremonial procedures its mythology and its drypaintings

Texts and Textuality Philip G. Cohen, 2018-12-20 These essays deal with the scholarly study of the genesis transmission and editorial reconstitution of texts by exploring the connections between textual instability and textual theory interpretation and pedagogy What makes this collection unique is that each essay brings a different theoretical orientation New Historicism Poststructuralism or Feminism to bear upon a different text such as Whitman's *Leaves of Grass* Faulkner's *The Sound and the Fury* or hypertext fiction to explore the dialectical relationship between texts and textuality The essays bring some of the textual theories that compete with each other today into contact with a broad range of primarily literary textual histories That texts are intrinsically unstable frequently consisting of a series of determinate historical versions has consequences for all students of literature because different versions of a literary work frequently help shape different readings independently of the interpretations brought to bear upon them Textual instability of the works is relevant to our understanding of how the meanings of texts are generated The contributors build on the numerous challenges to the Anglo American editorial tradition mounted during the past decade by scholars as diverse as Jerome McGann D F McKenzie Peter Shillingsburg D C Greetham Hershel Parker and Hans Walter Gabler The volume contributes to the paradigm shift in textual scholarship inaugurated by these scholars Index

North American Indian Anthropology Raymond J. DeMallie, Alfonso Ortiz, 1994 These essays explore the blending of structural and historical approaches to American Indian anthropology that characterizes the perspective developed by the late Fred Eggan and his students at the University of Chicago They include studies of kinship and social organization politics religion law ethnicity and art Many reflect Eggan's method of controlled comparison a tool for reconstructing social and

cultural change over time Together these essays make substantial descriptive contributions to American Indian anthropology presenting contemporary interpretations of diverse groups from the Hudson Bay Inuit in the north to the Highland Maya of Chiapas in the south The collection will serve as an introduction to Native American social and cultural anthropology for readers interested in the dynamics of Indian social life *The Music and Dance of the World's Religions* E. Rust, 1996-08-23 Despite the world wide association of music and dance with religion this is the first full length study of the subject from a global perspective The work consists of 3 816 references divided among 37 chapters It covers tribal regional and global religions and such subjects as shamanism liturgical dance healing and the relationship of music mathematics and mysticism The referenced materials display such diverse approaches as analysis of music and dance description of context direct experience observation and speculation The references address topics from such disciplines as sociology anthropology history linguistics musicology ethnomusicology theology medicine semiotics and computer technology Chapter 1 consists of general references to religious music and dance The remaining 36 chapters are organized according to major geographical areas Most chapters begin with general reference works and bibliographies then continue with topics specific to the region or religion This book will be of use to anyone with an interest in music dance religion or culture **The Main Stalk** John R. Farella, 1990-07-01 Although they are among the most studied people on earth the Navajo possess a complex philosophy A valuable source for those deeply interested in the structure of the Navajo universe its mythology and its central concept of long life and happiness Masterkey This is a stimulating book Essentially it criticizes previous discussions of Navajo religion and philosophy for greatly underestimating their complexity and sophistication What the author discovers in Navajo thought is that the key concepts are interrelated in a grand moral ethical philosophic and cosmic unity American Anthropologist Discredits dualists both non Indian and Indian who see simplistic oppositions of Good and Evil in Navajo culture and philosophy The concept of walking in beauty as related to the proper growth of the corn plant unifies the book and Farella does some impressive cross cultural linguistic analysis to derive practical and ceremonial applications of these central Navajo metaphors This is one of the better books on Indian religion Choice Dinétah Lawrence D. Sundberg, 1995 A chronicle of the Navajo people describing the hardships and rewards of early band life and how they dealt with the influences of Spanish Mexican and American forces *The Taking and Displaying of Human Body Parts as Trophies by Amerindians* Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America The editors and contributors which include Native Peoples from both continents examine the evidence and causes of Amerindian trophy taking Additionally they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence This book fills the gap in literature on this subject
